

The background of the slide is composed of several concentric, rounded square frames. The outermost frame is a dark blue-grey, followed by a teal frame, and then a light green frame. In the center of these frames is a white rectangular box containing text. Below the text box, there is a large, irregular, light green blob shape that extends downwards and to the right, partially overlapping the bottom frame.

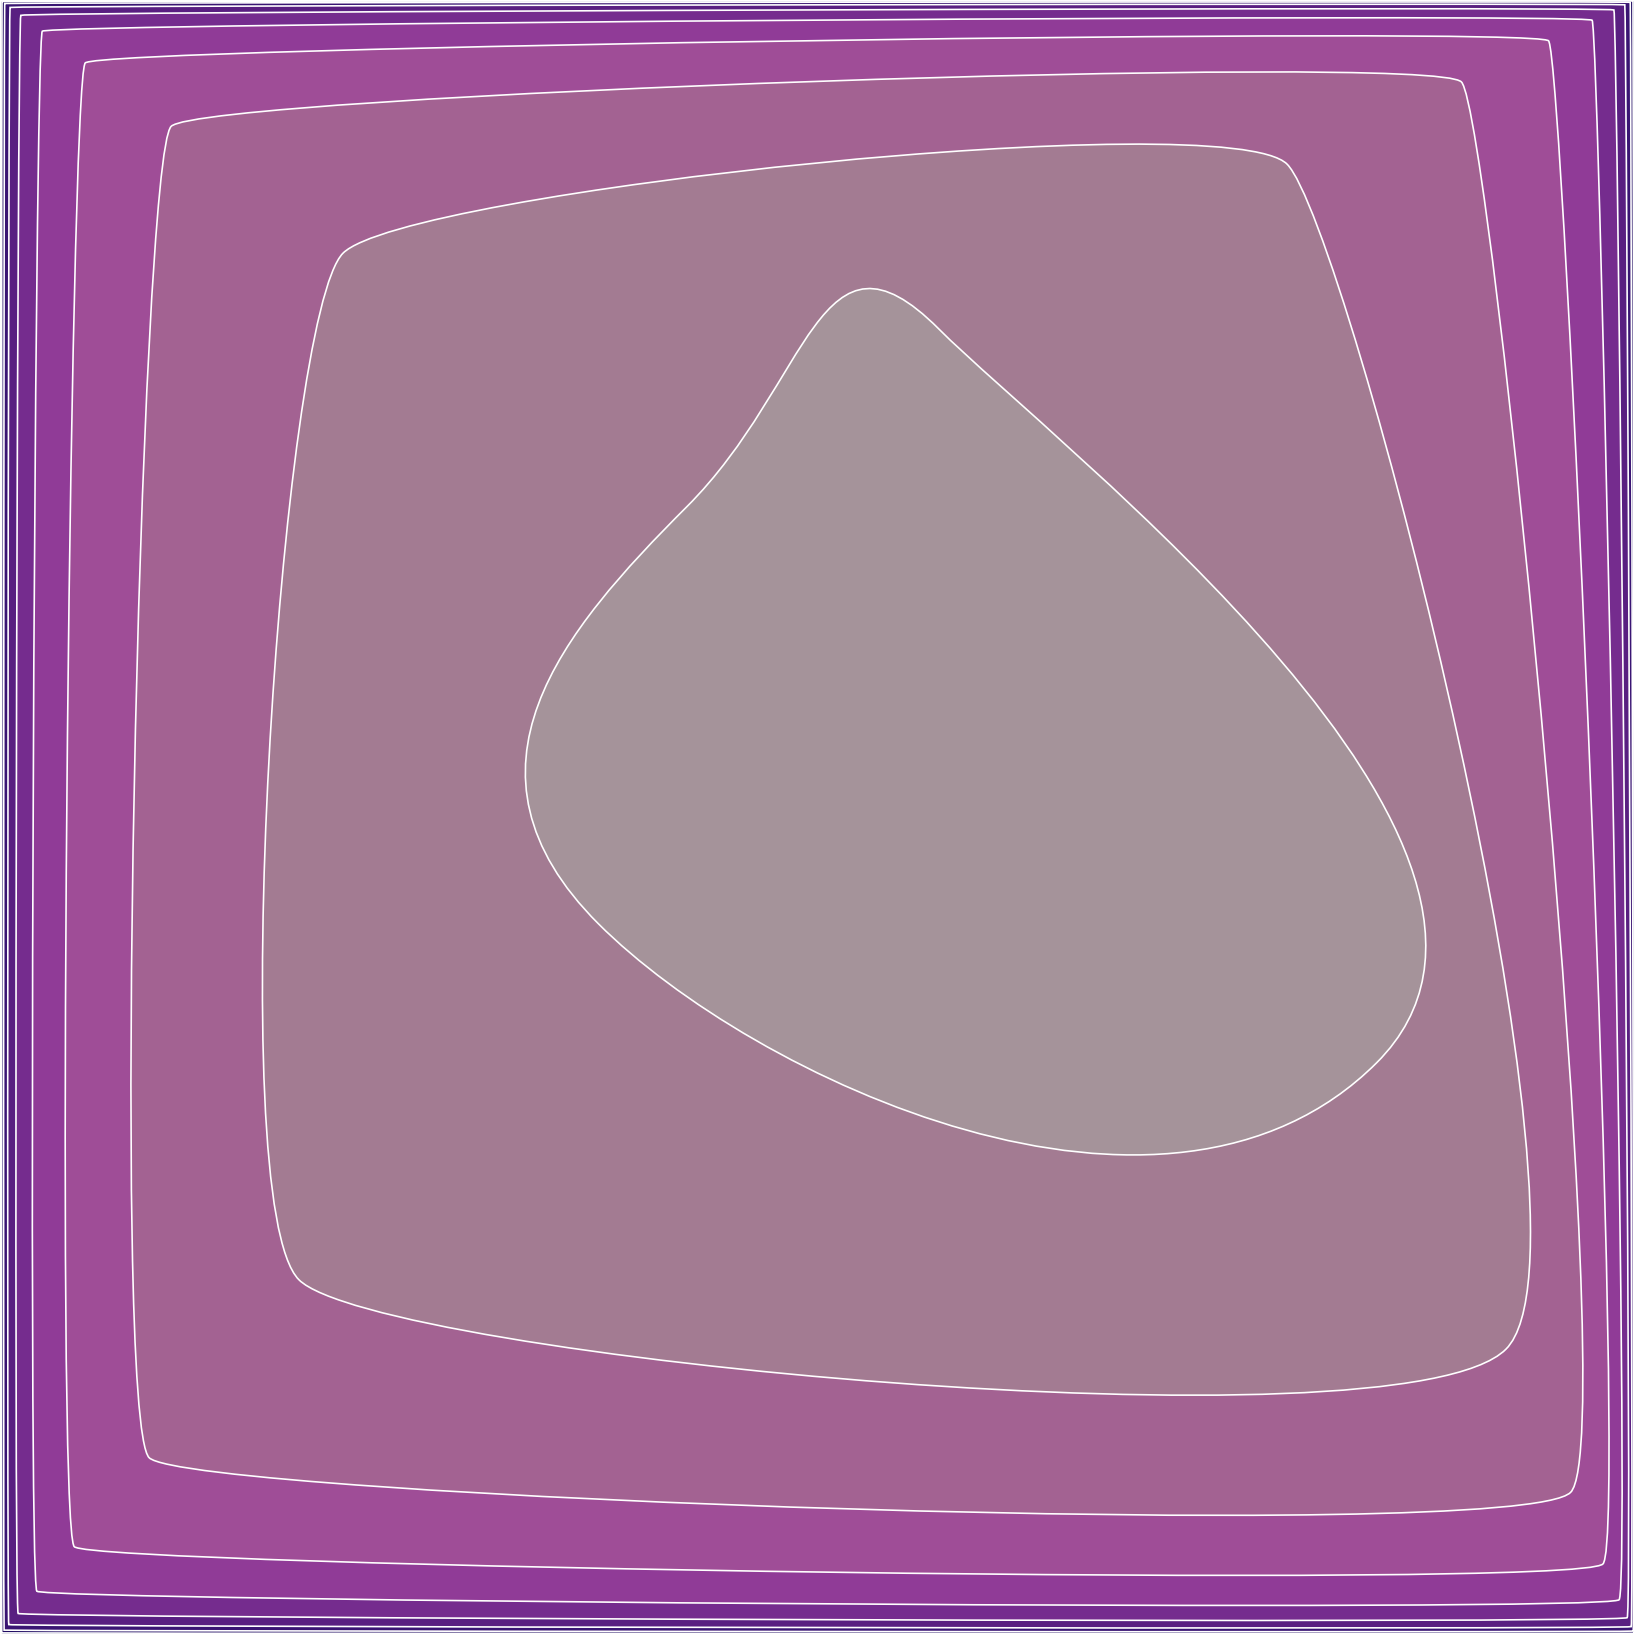

100 random blobs

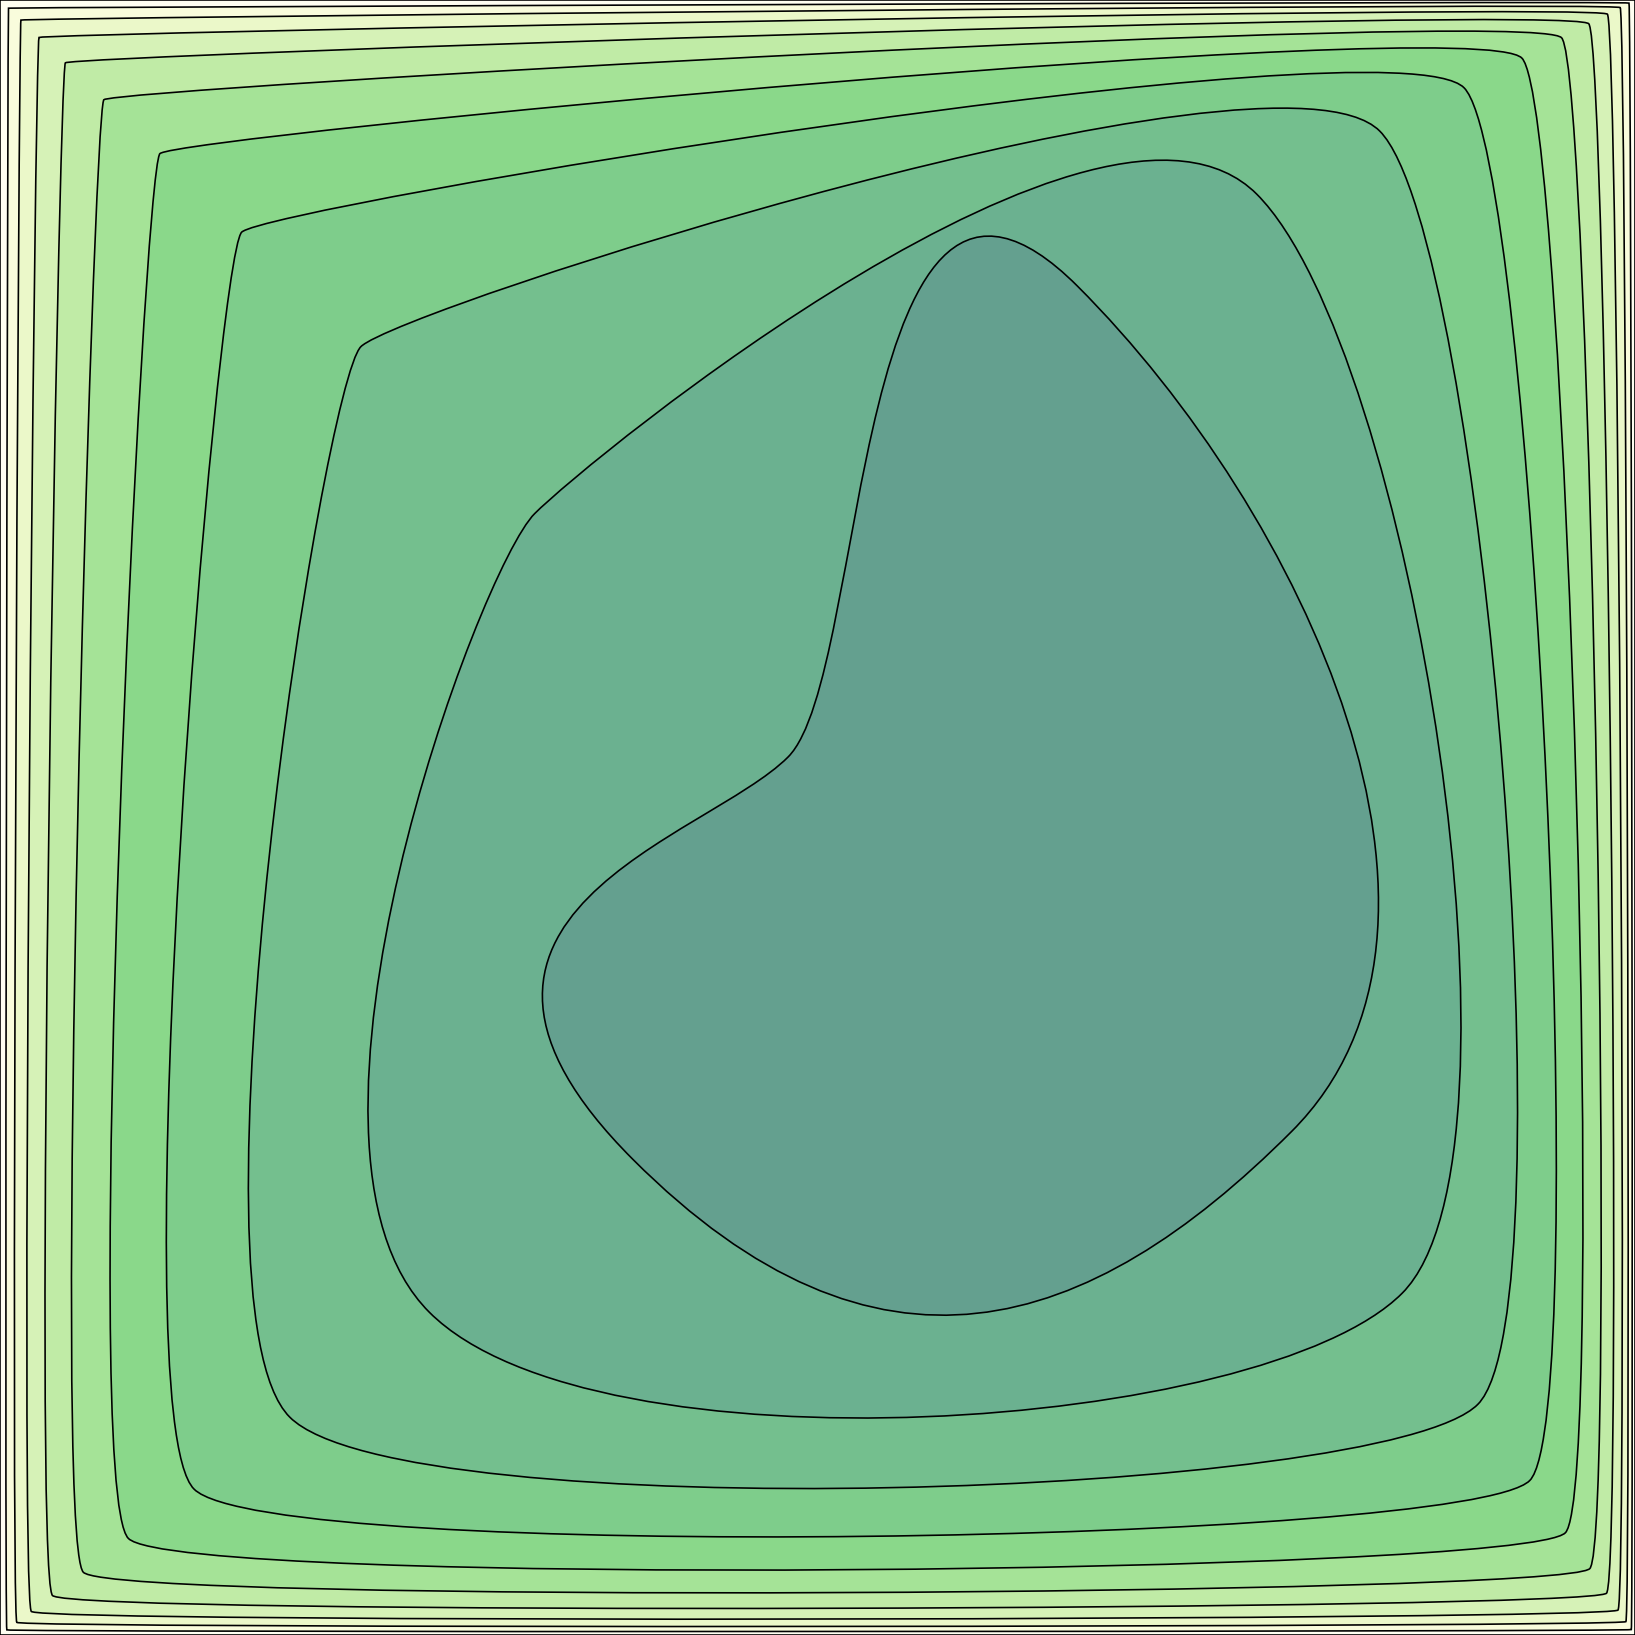

April the 2nd, 2016 — Vasilis van Gemert

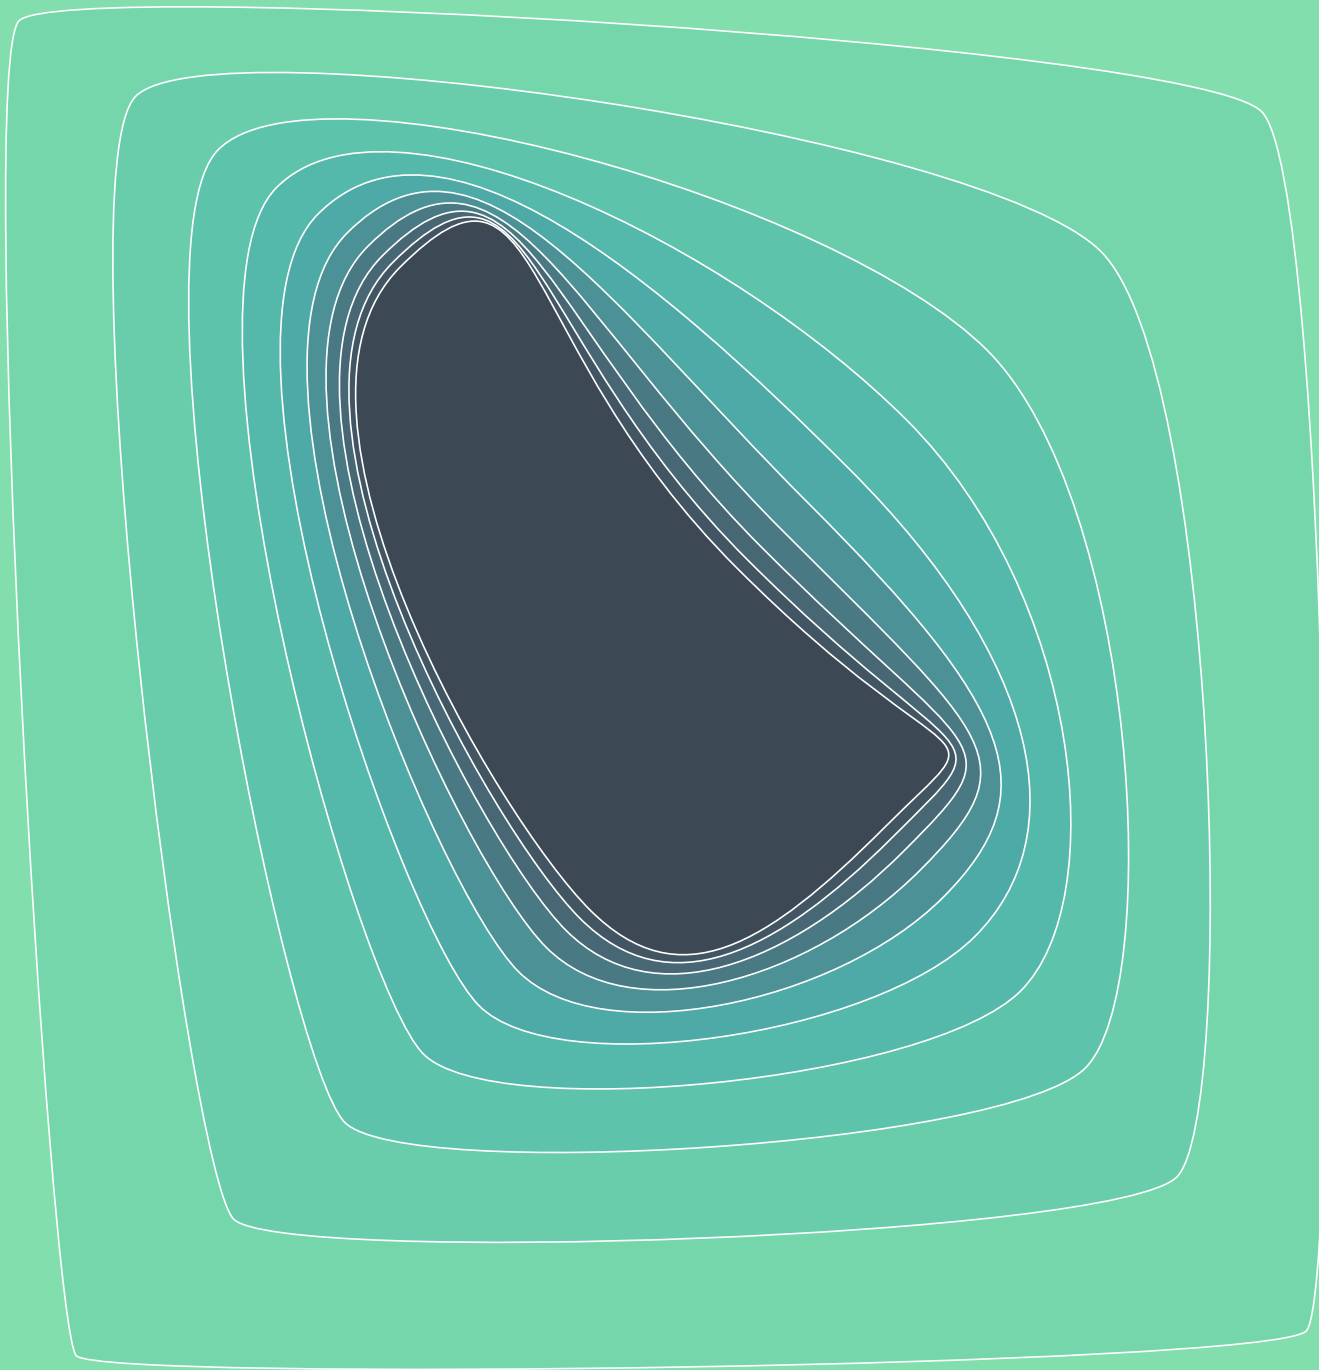

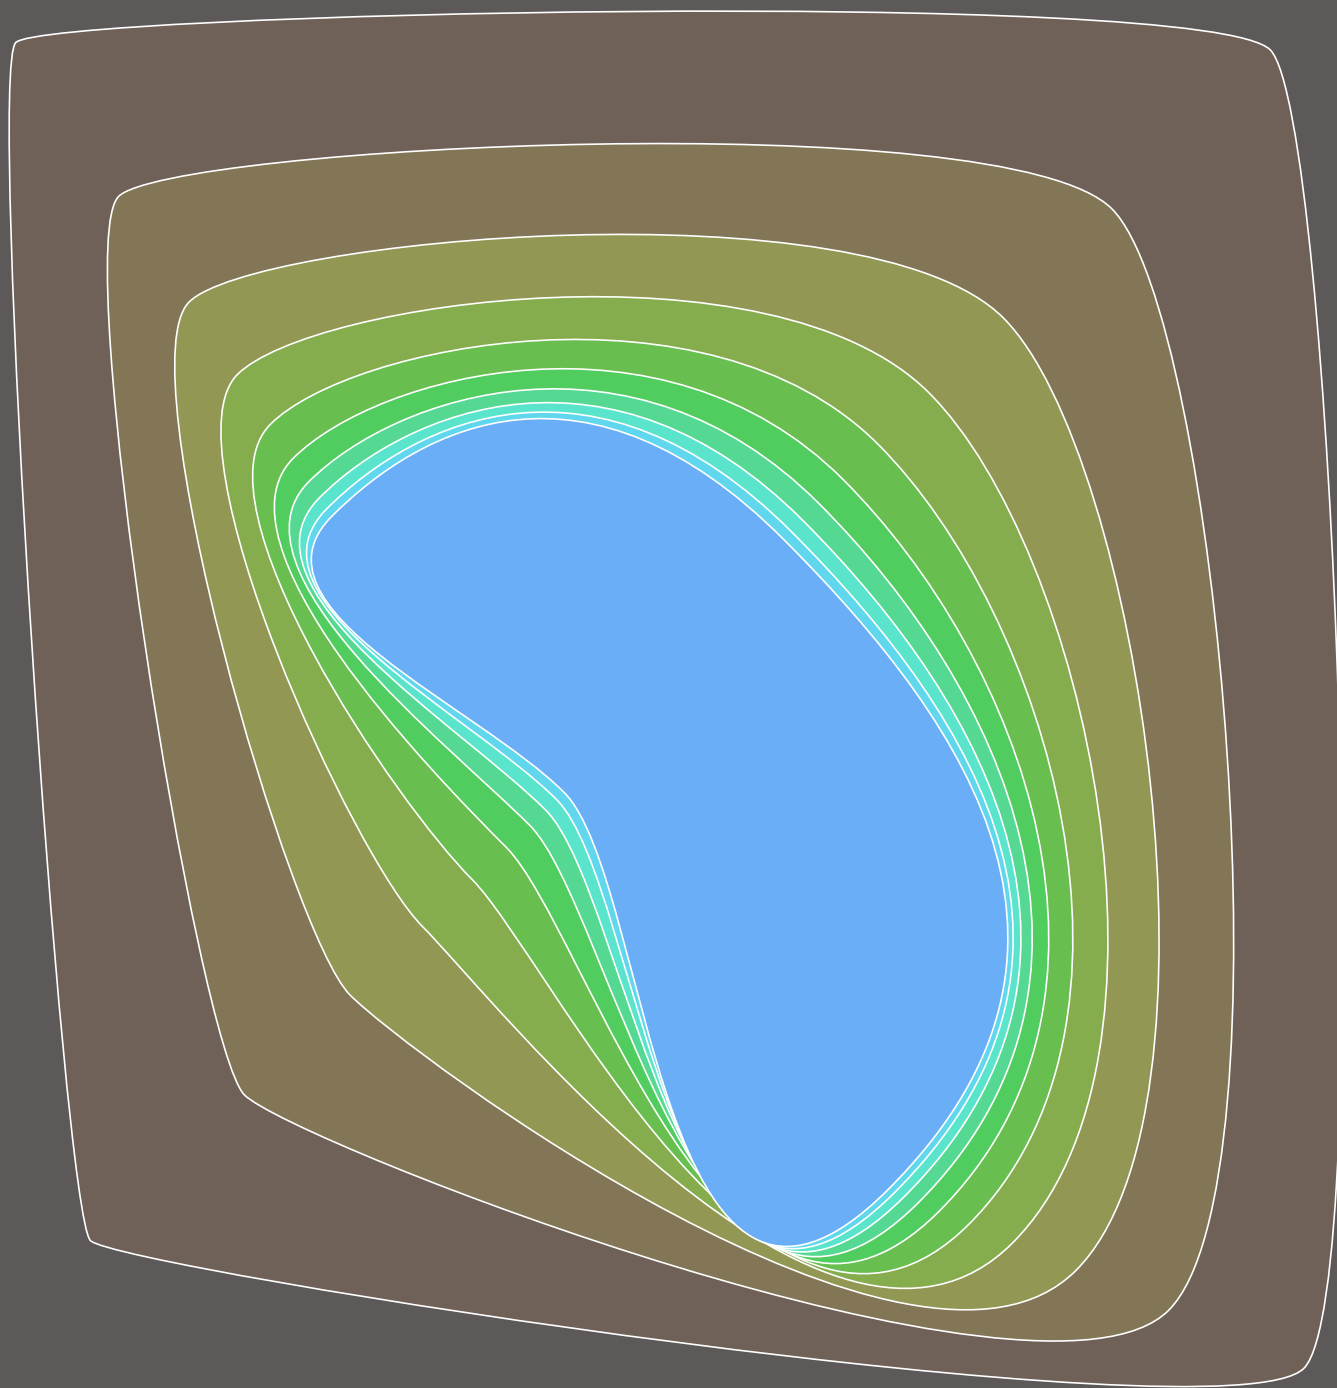

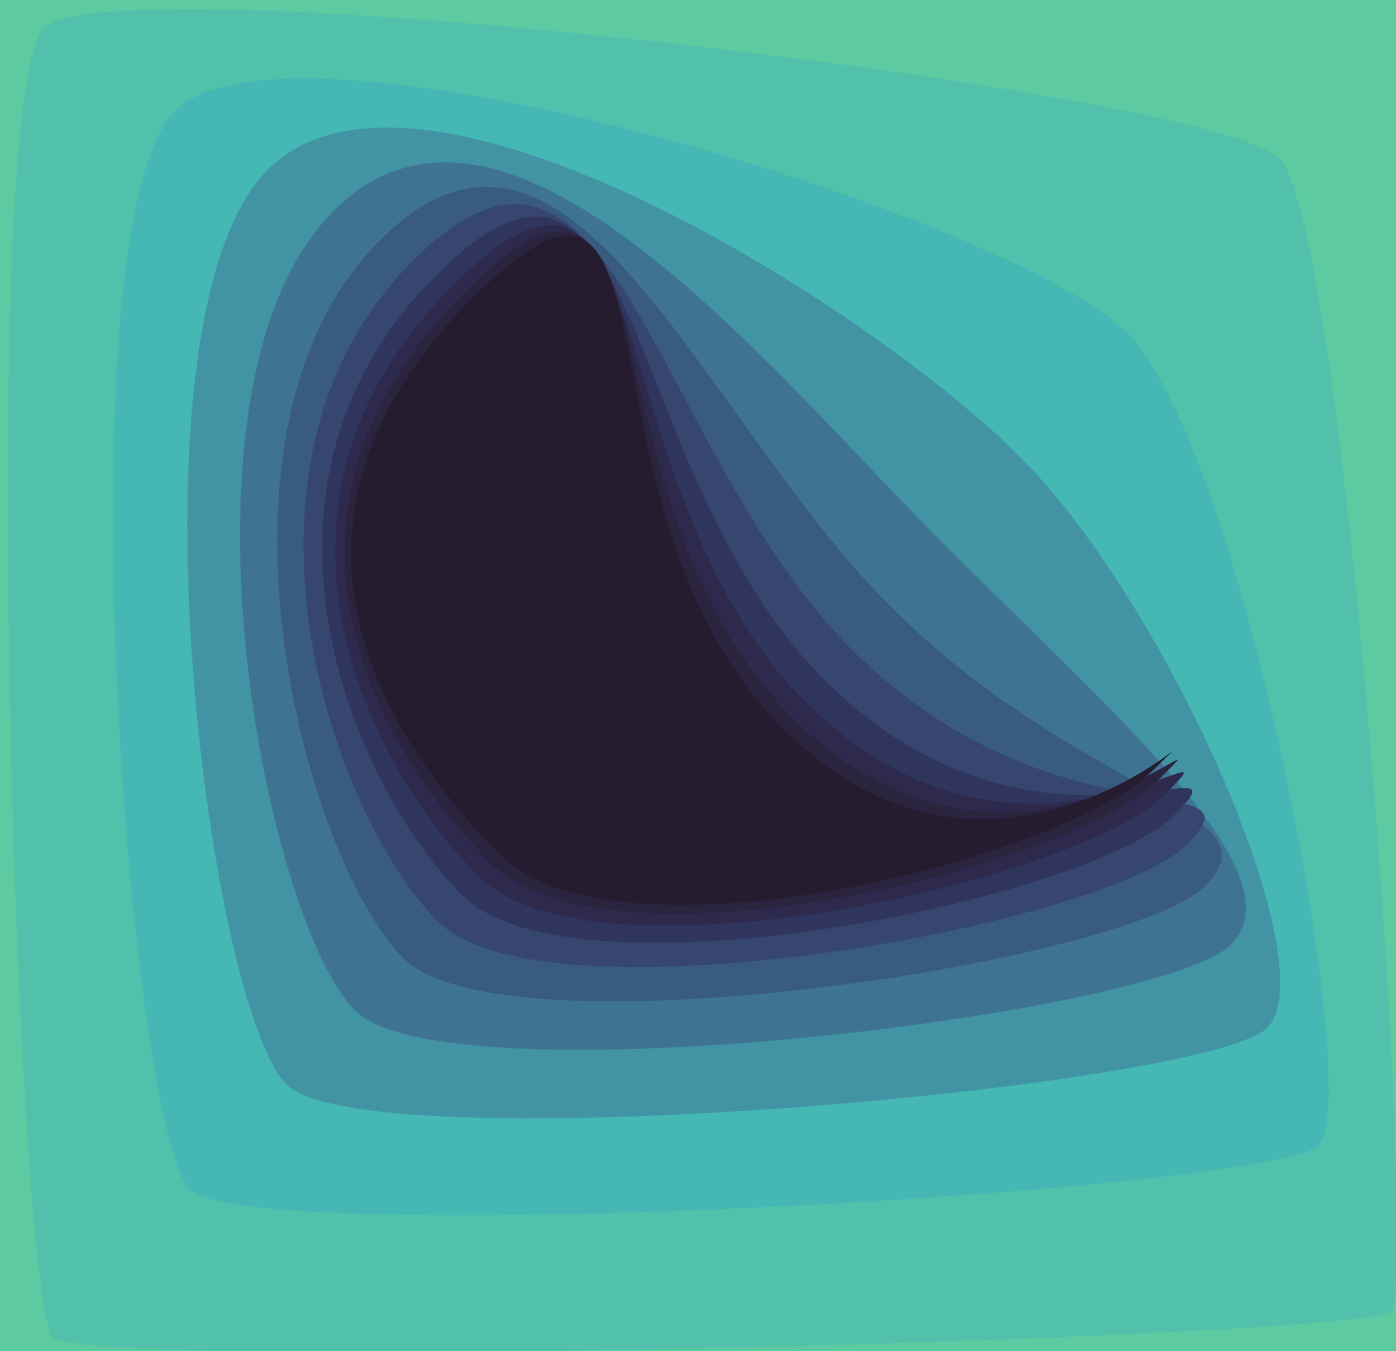

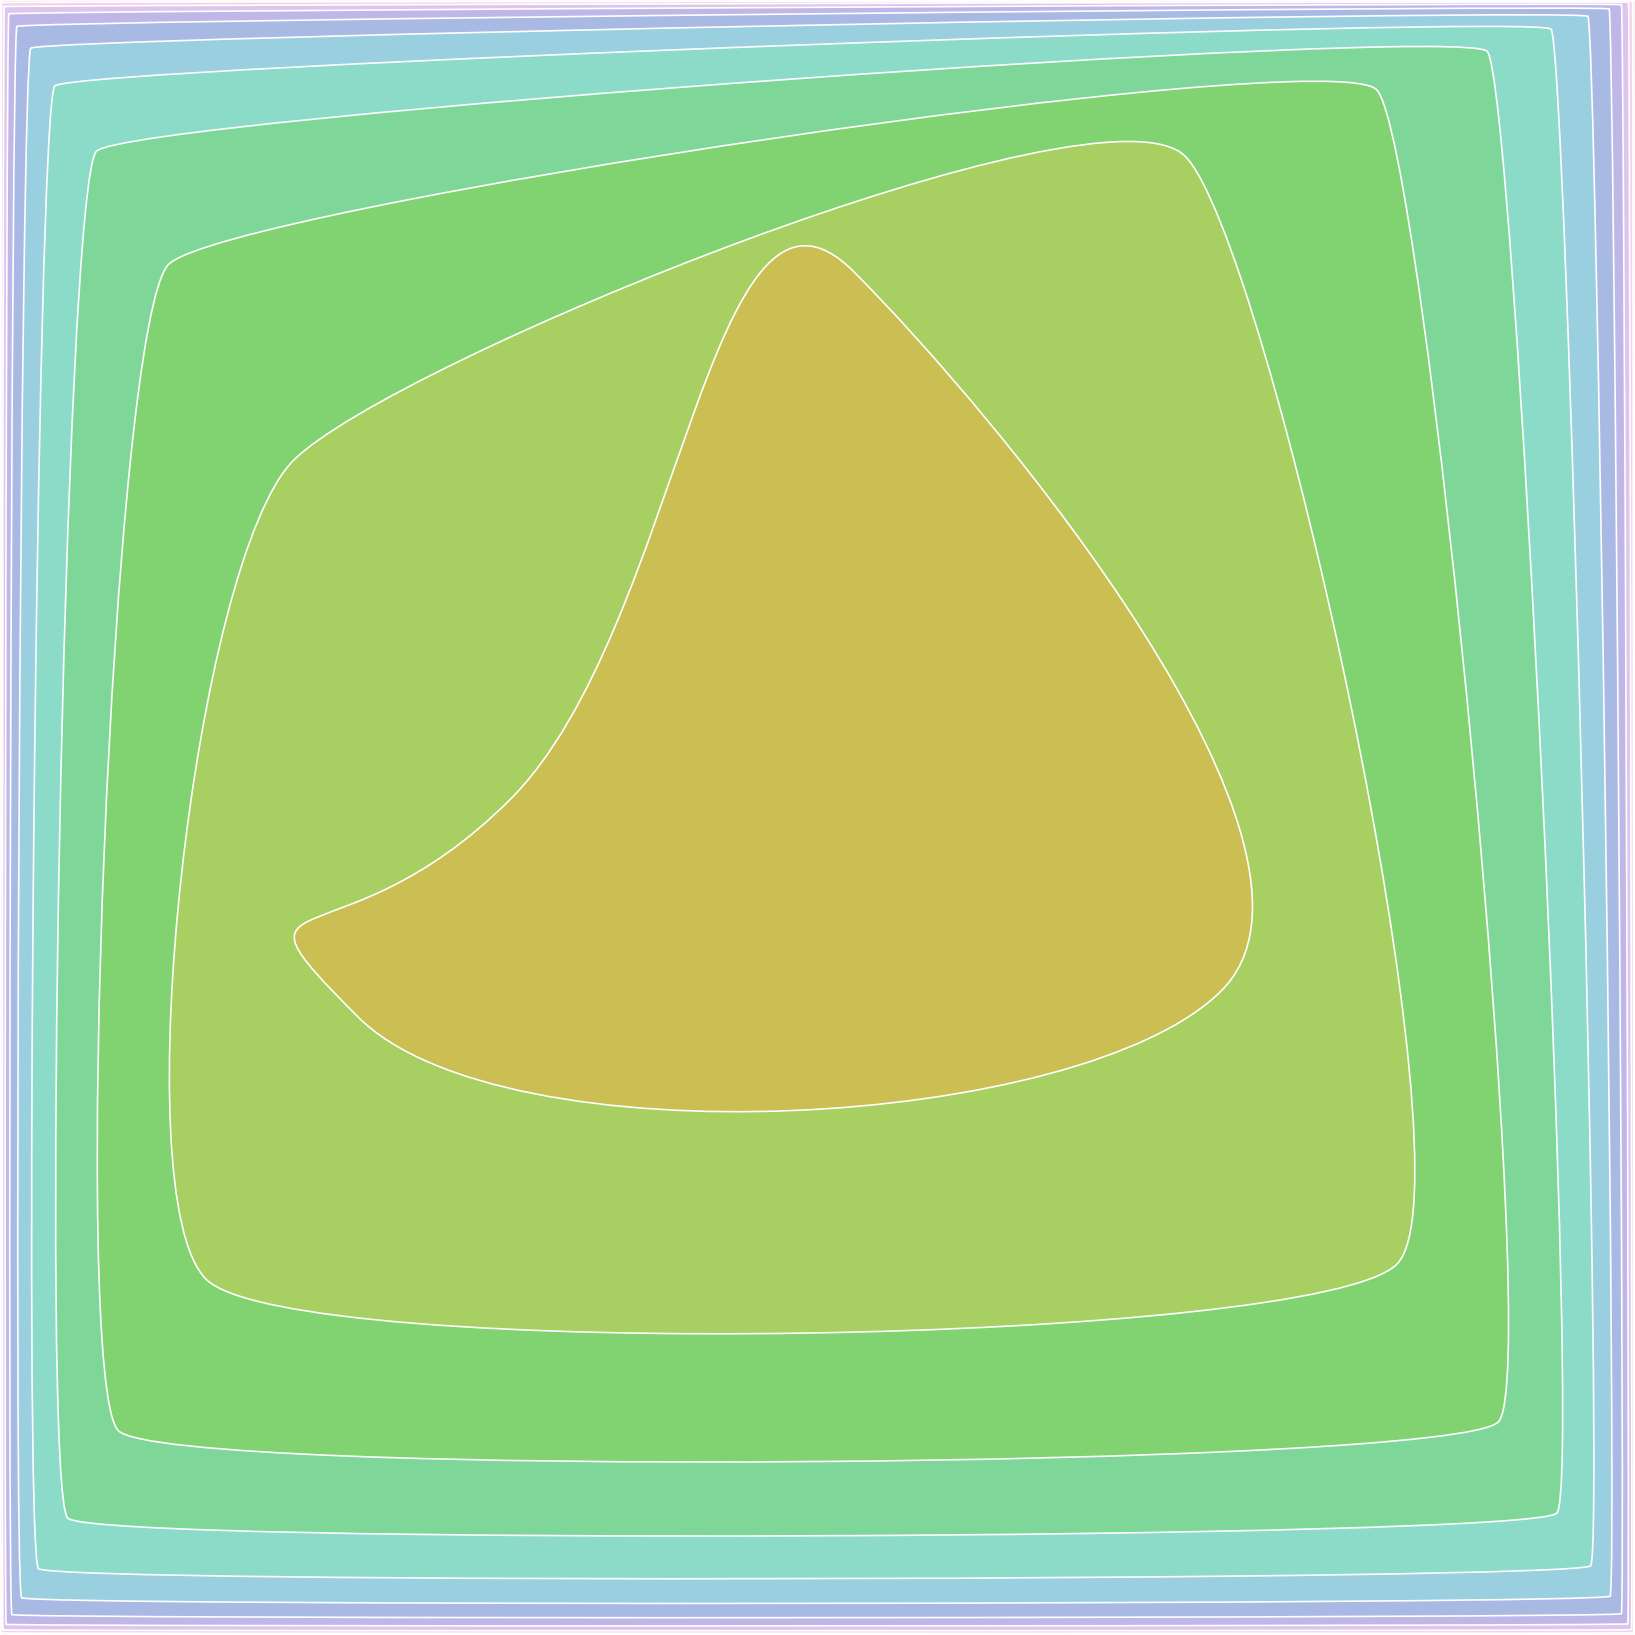

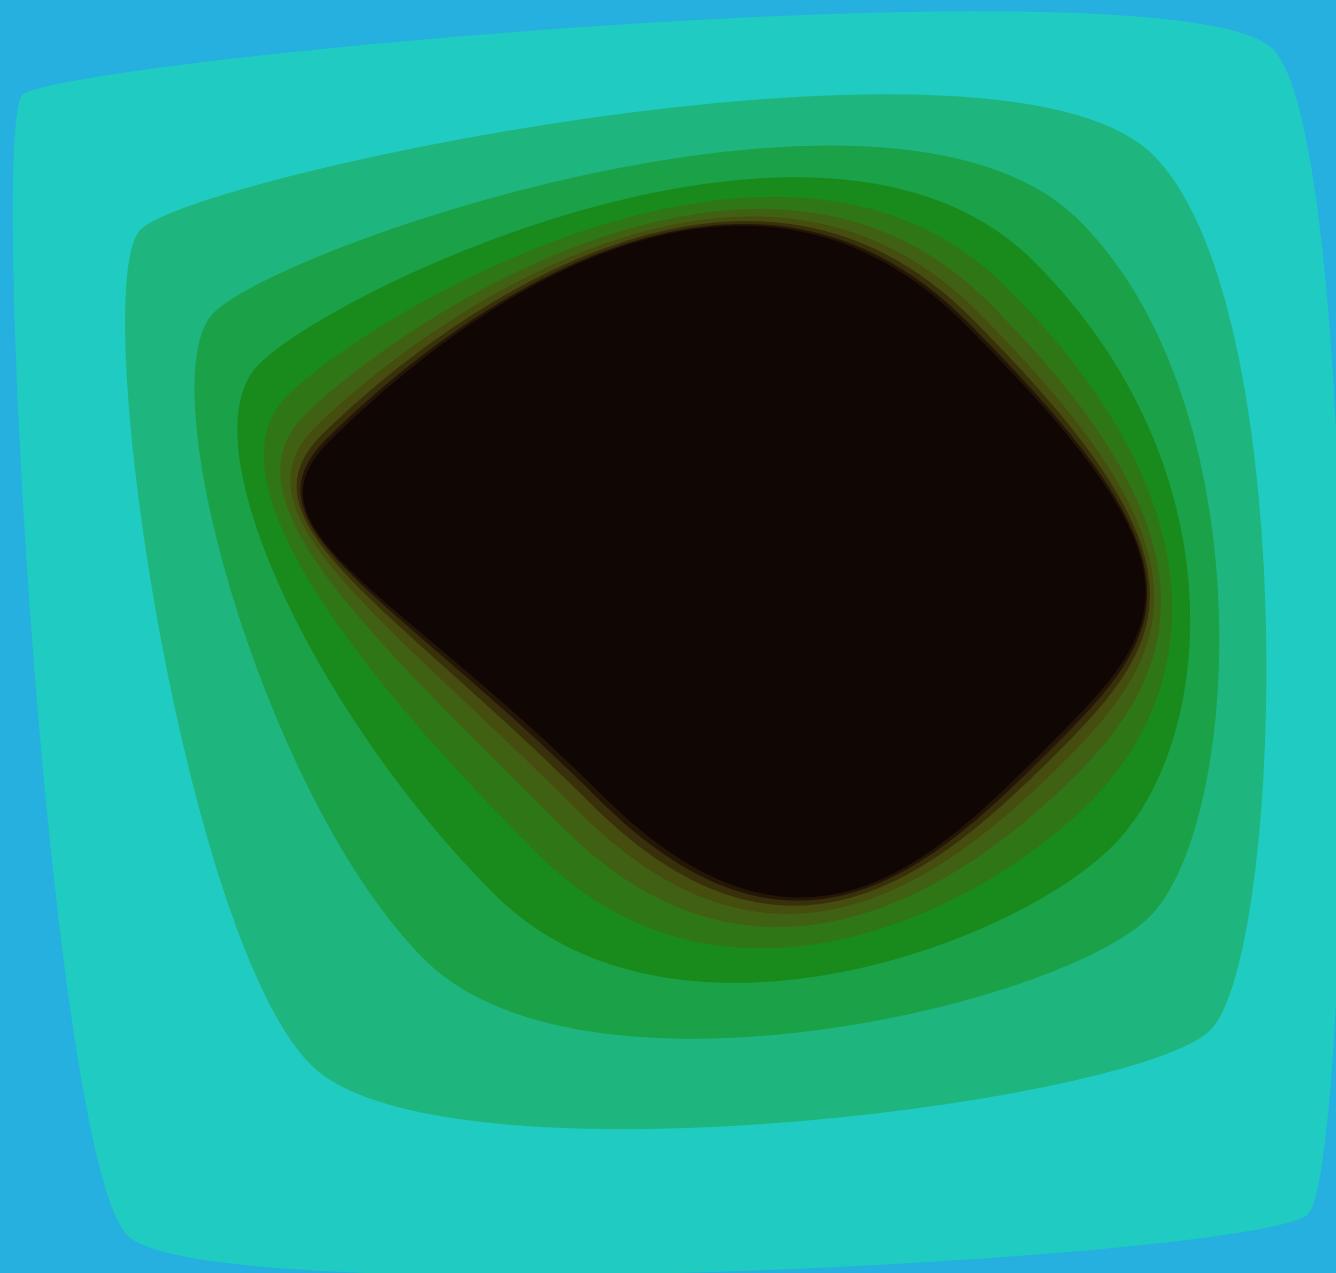

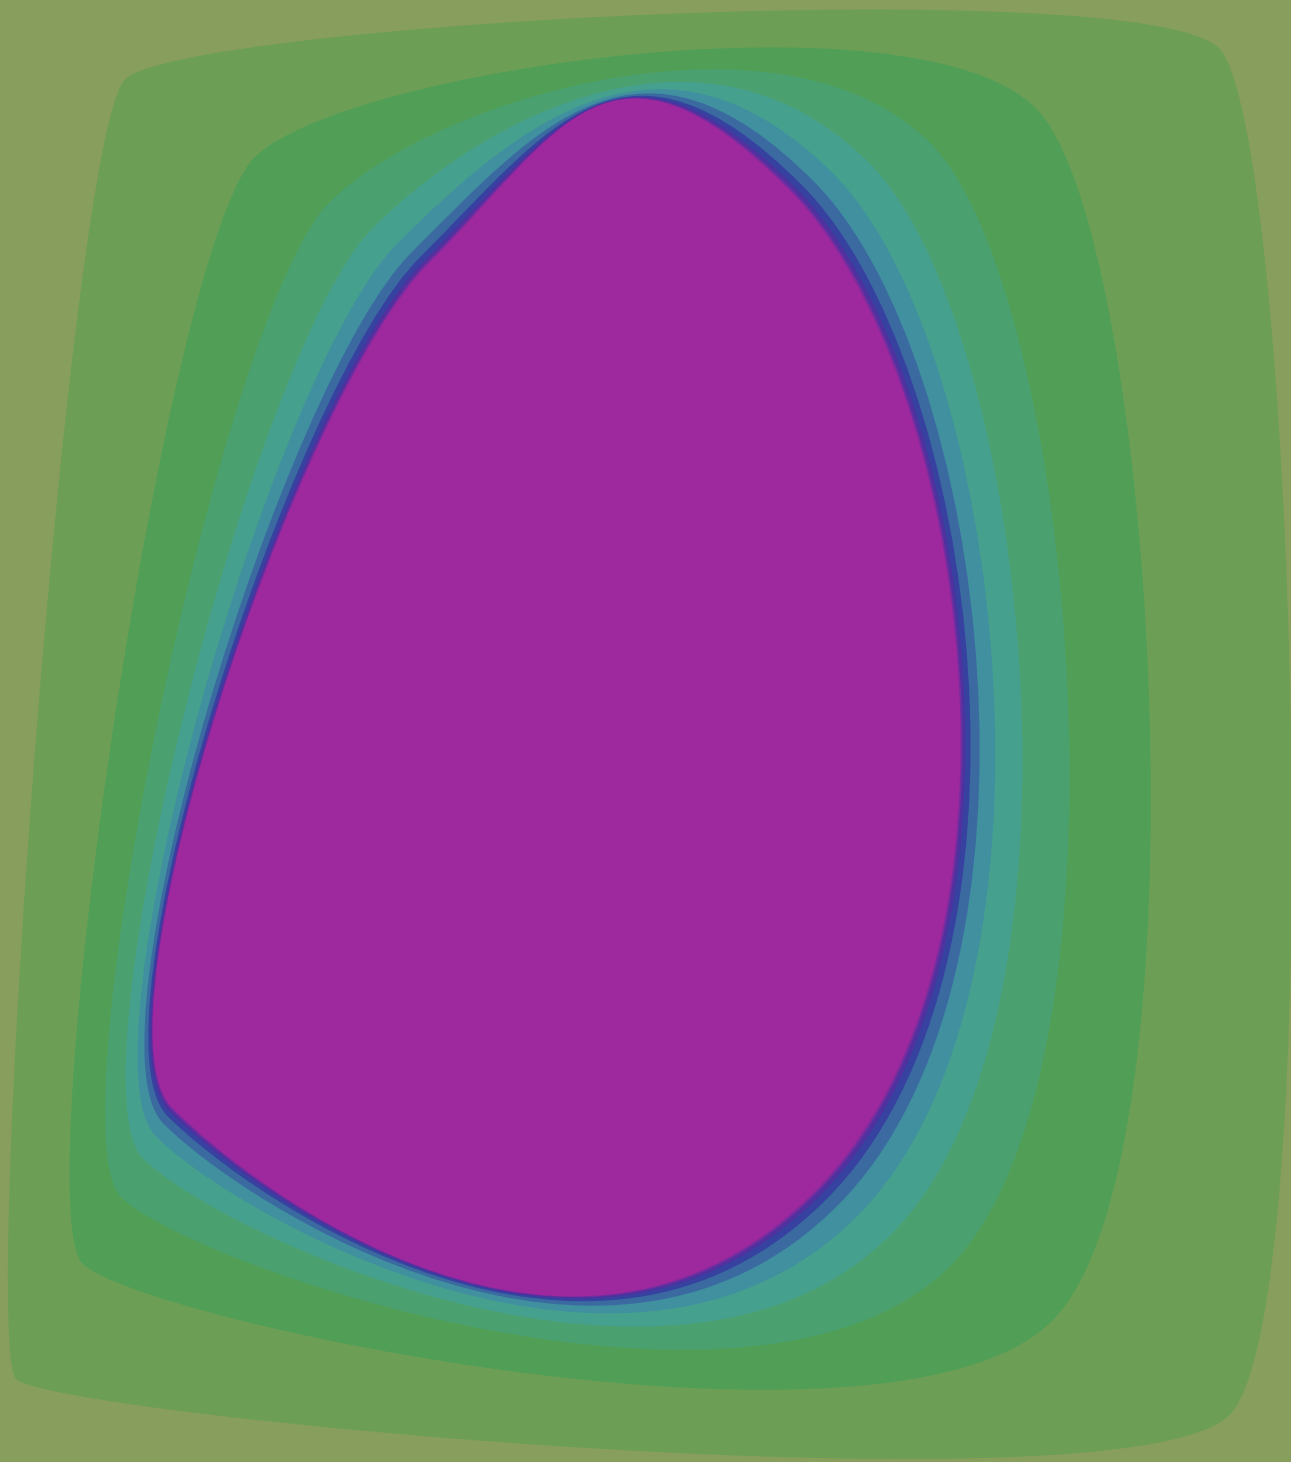

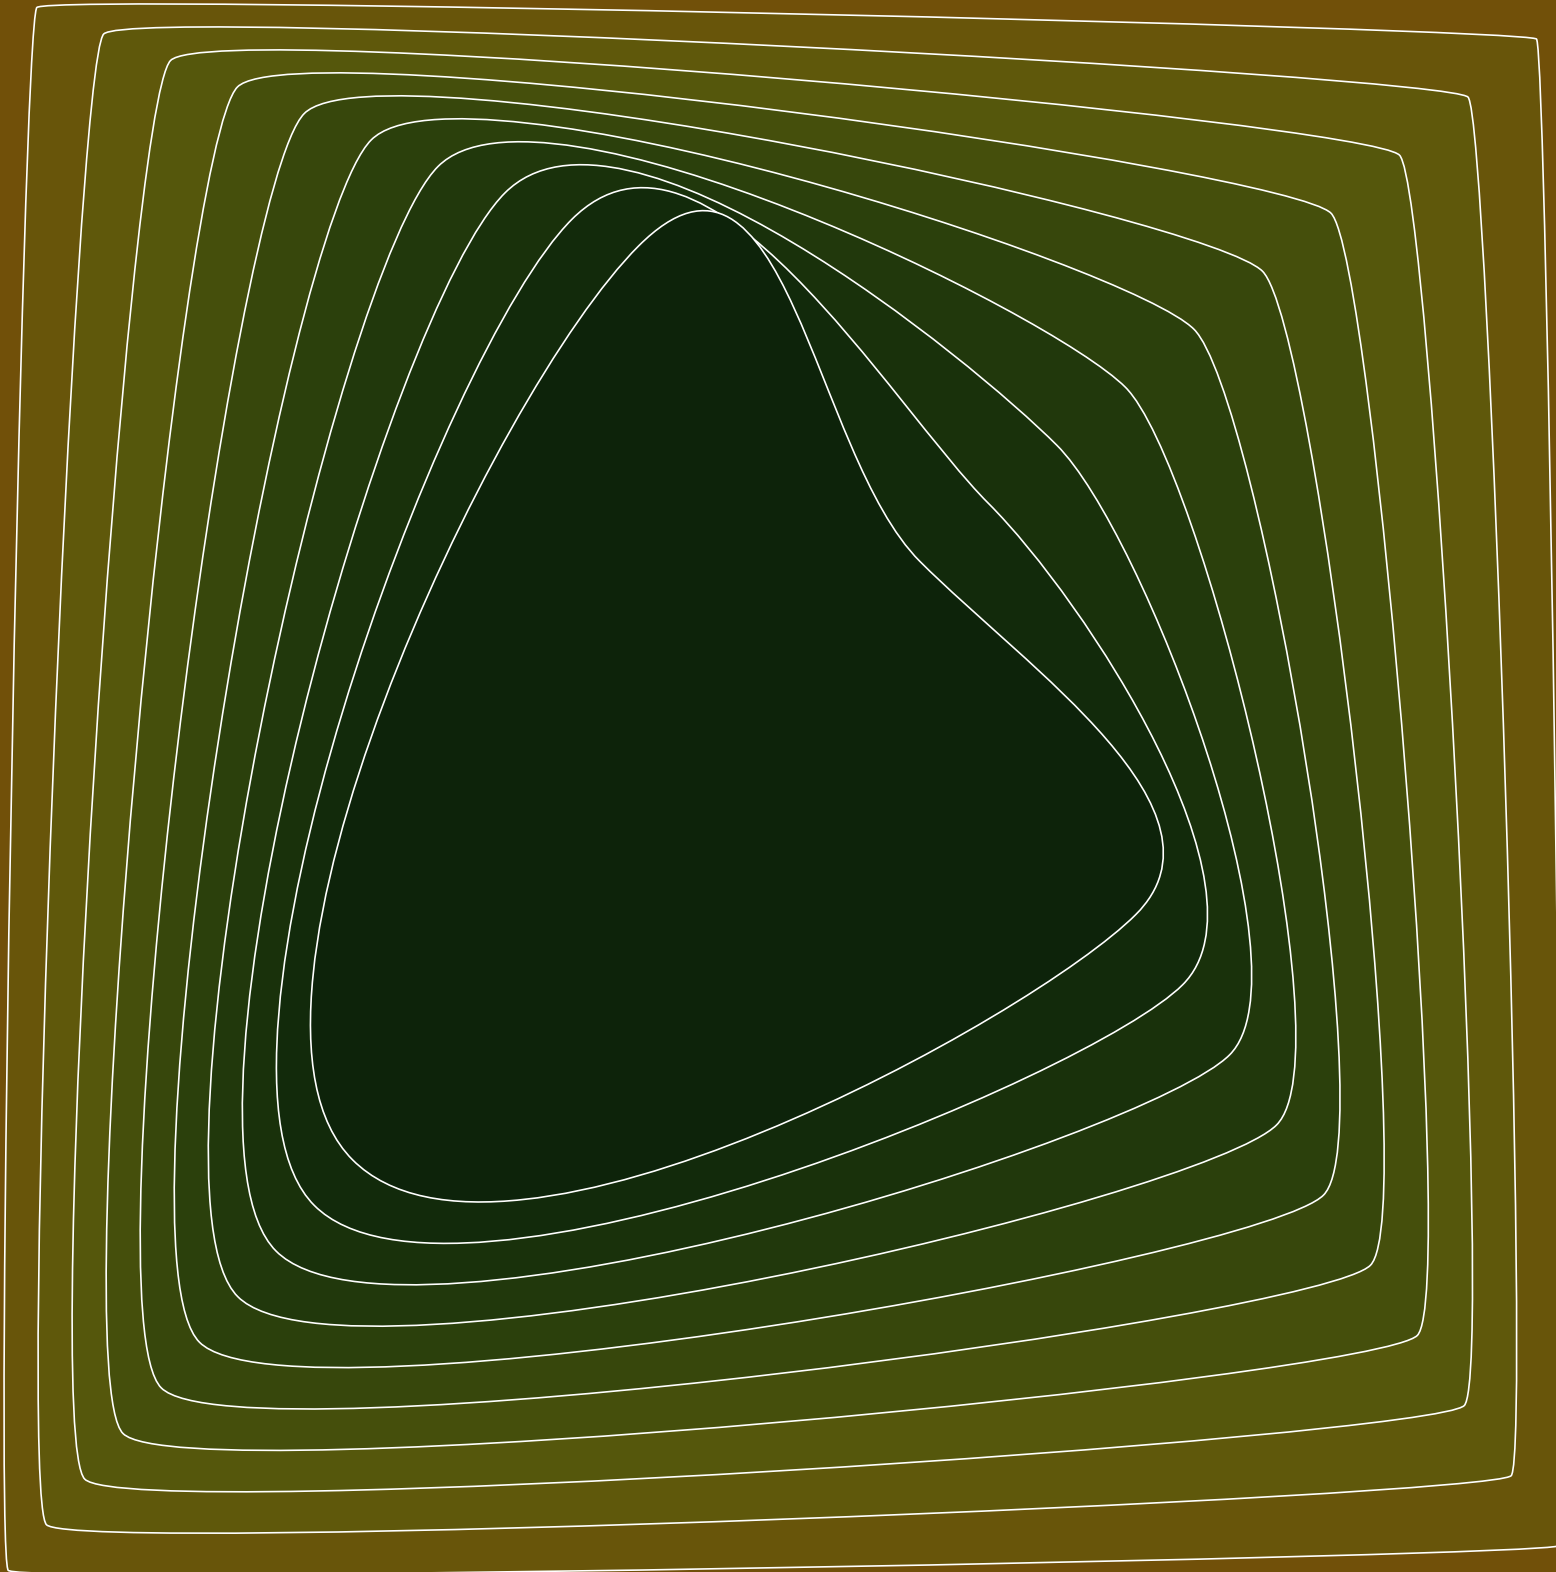

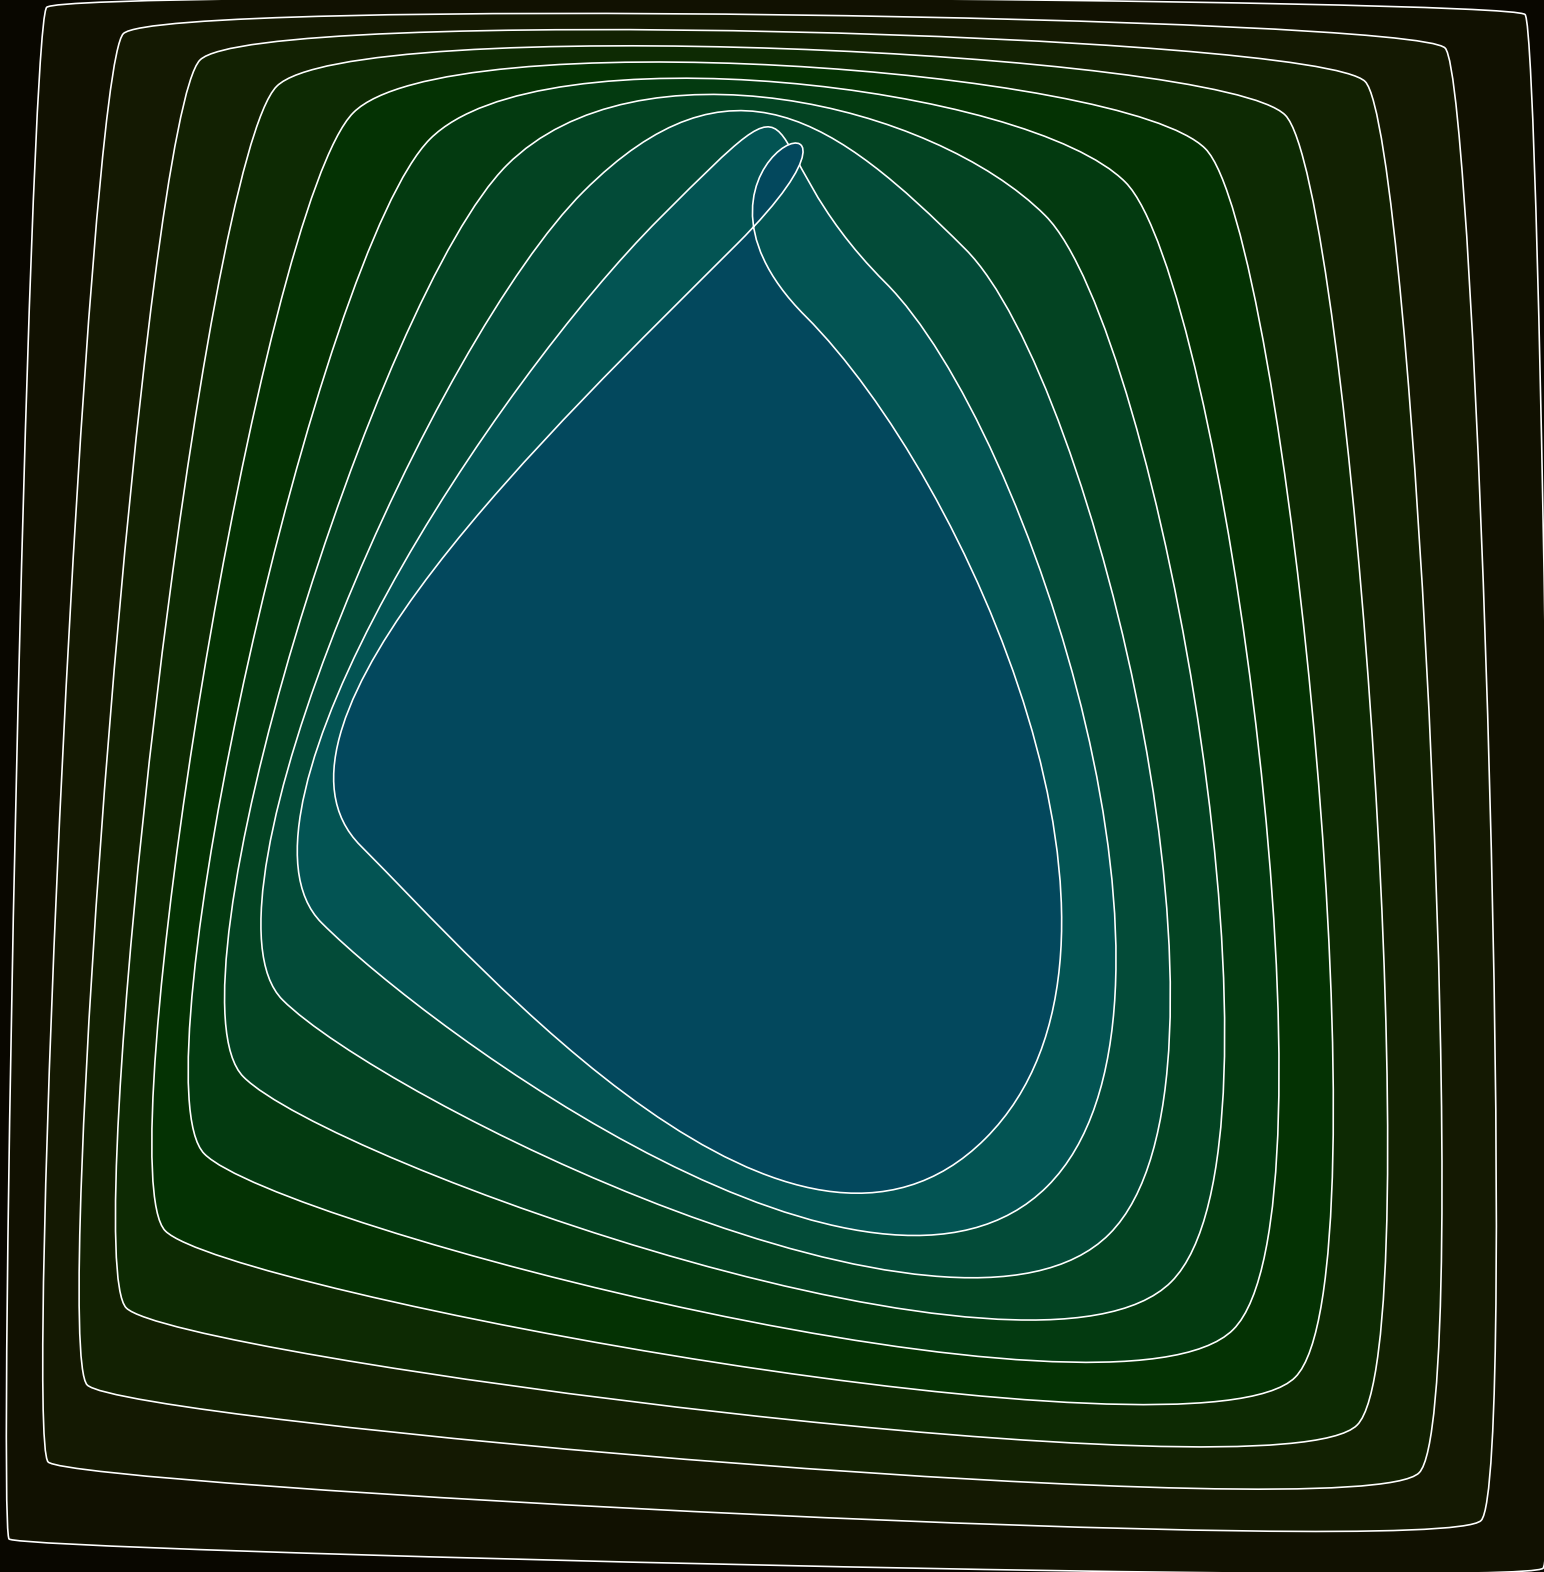

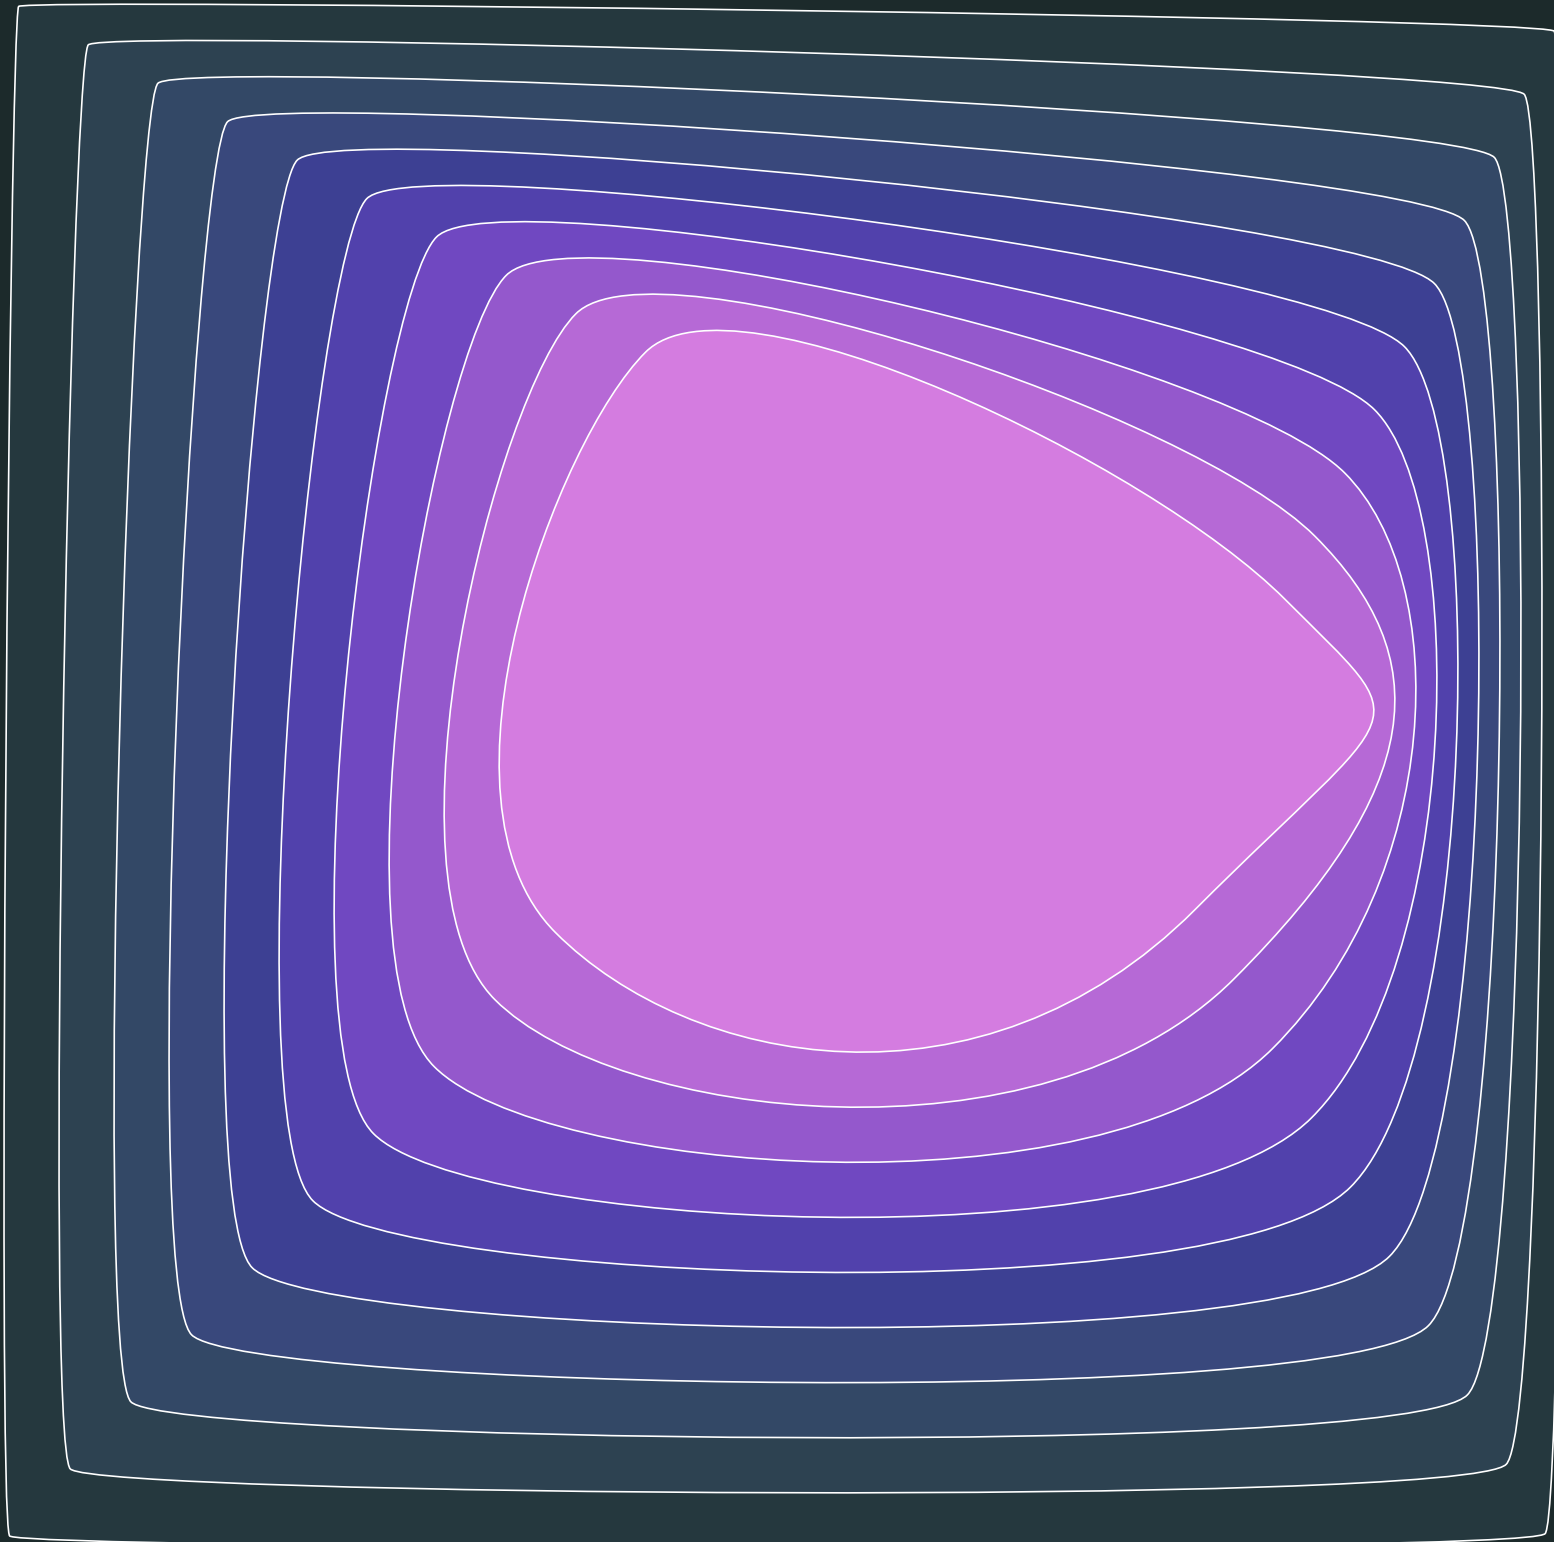

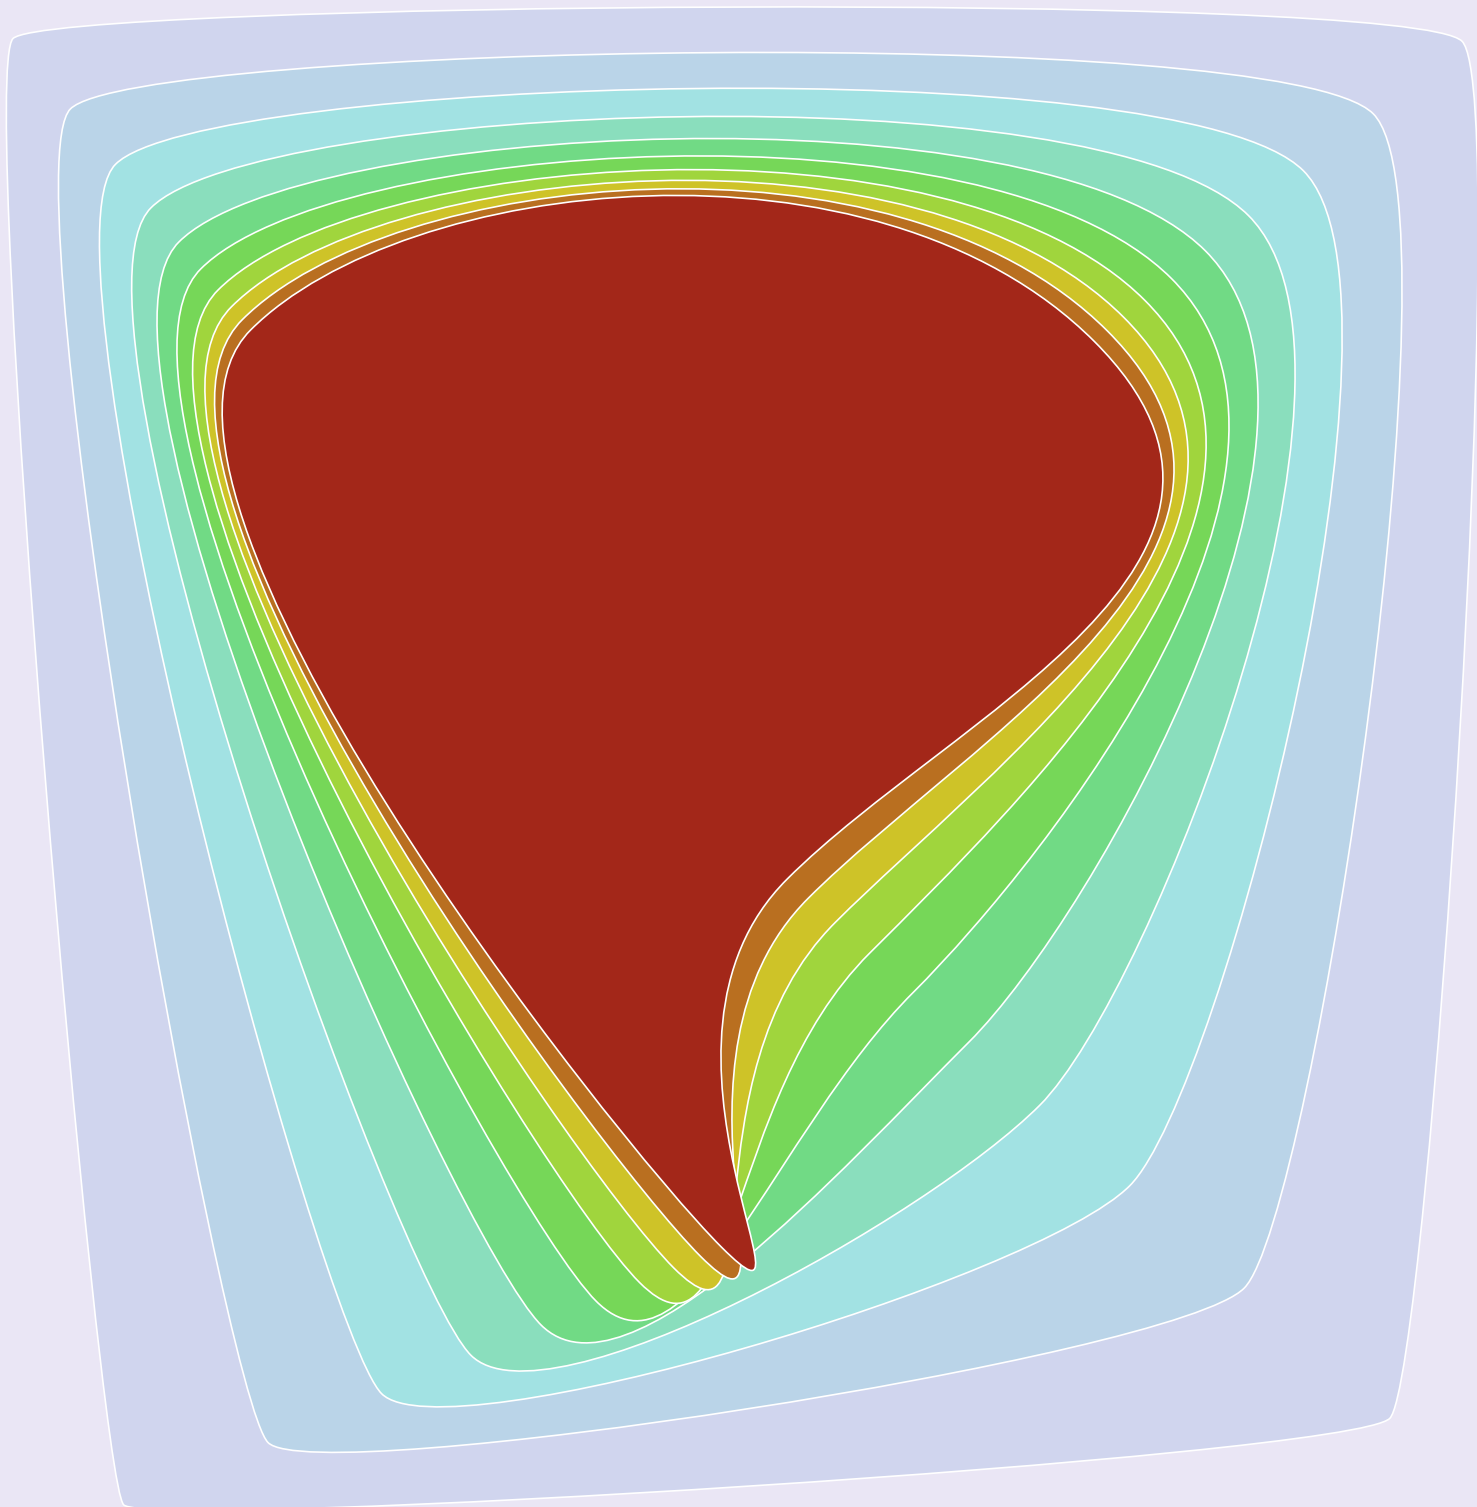

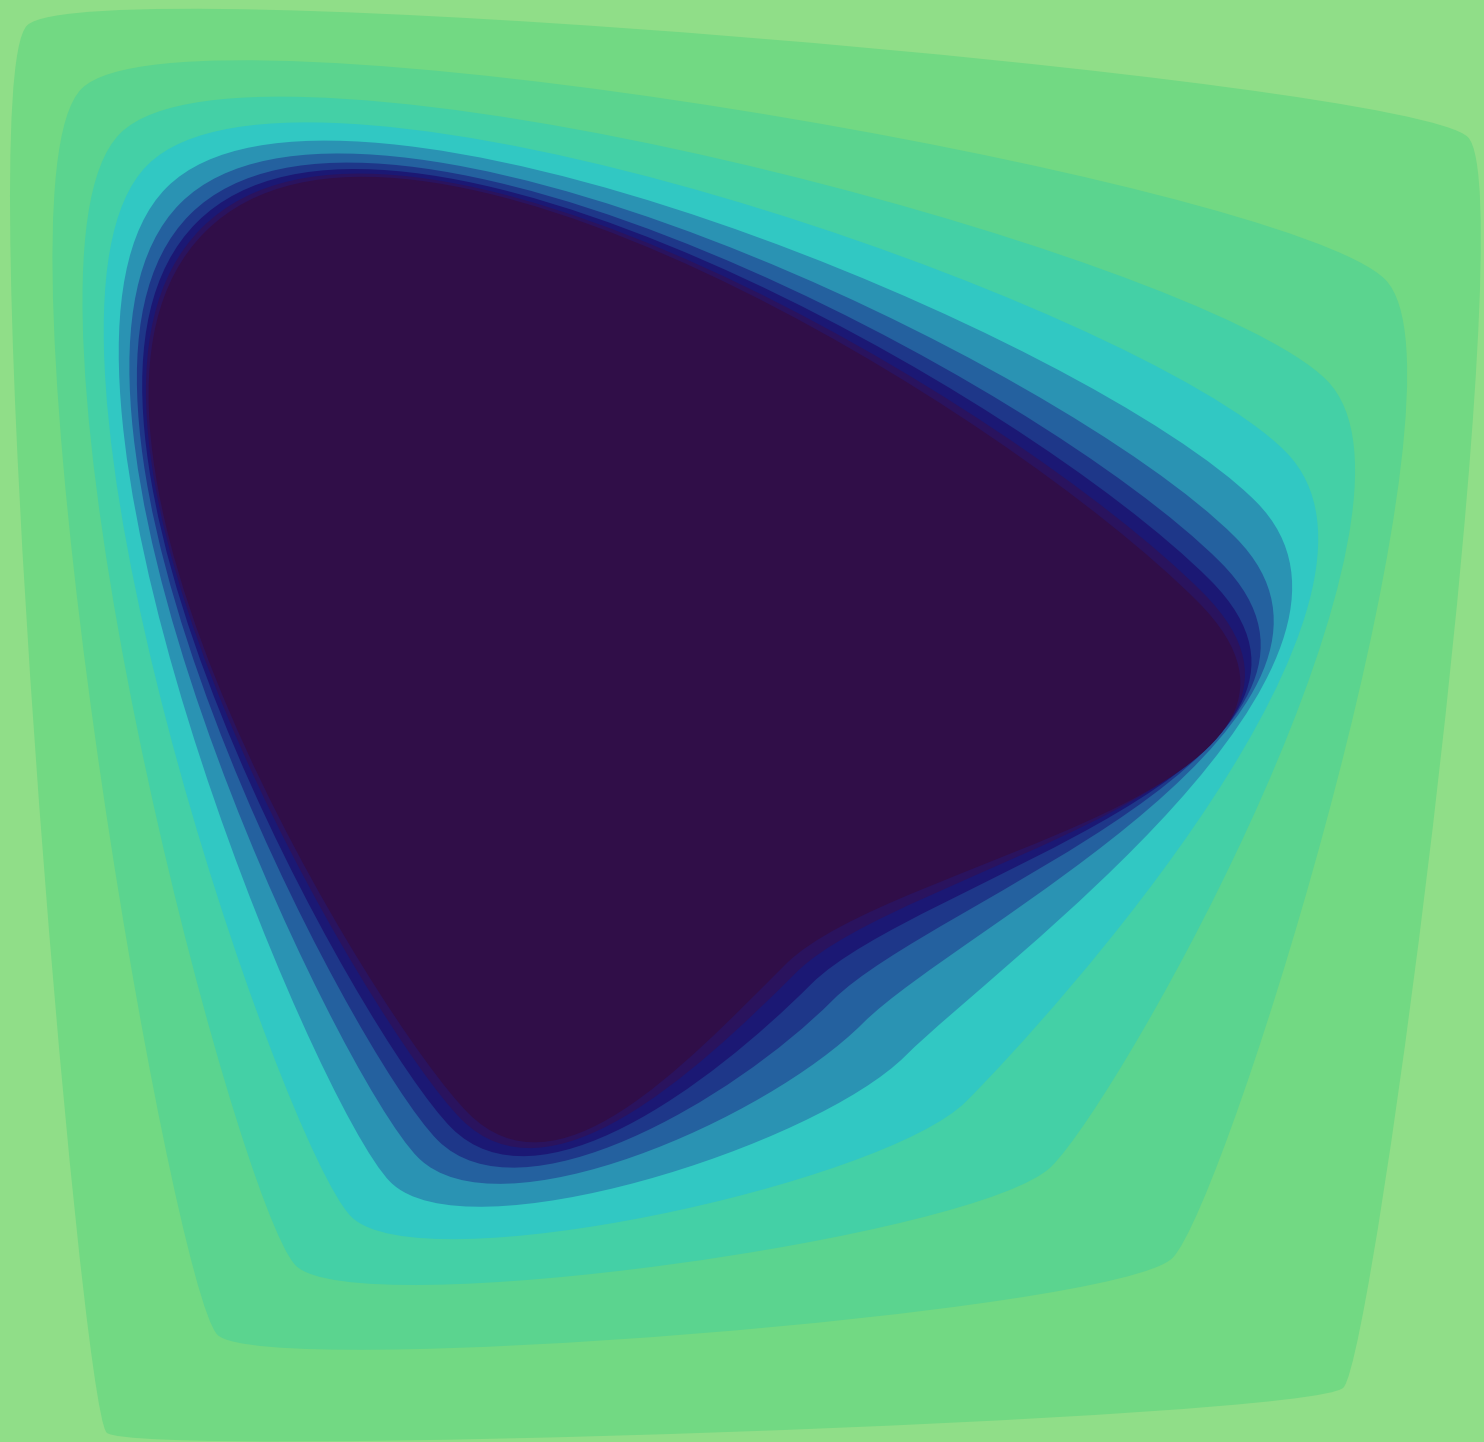

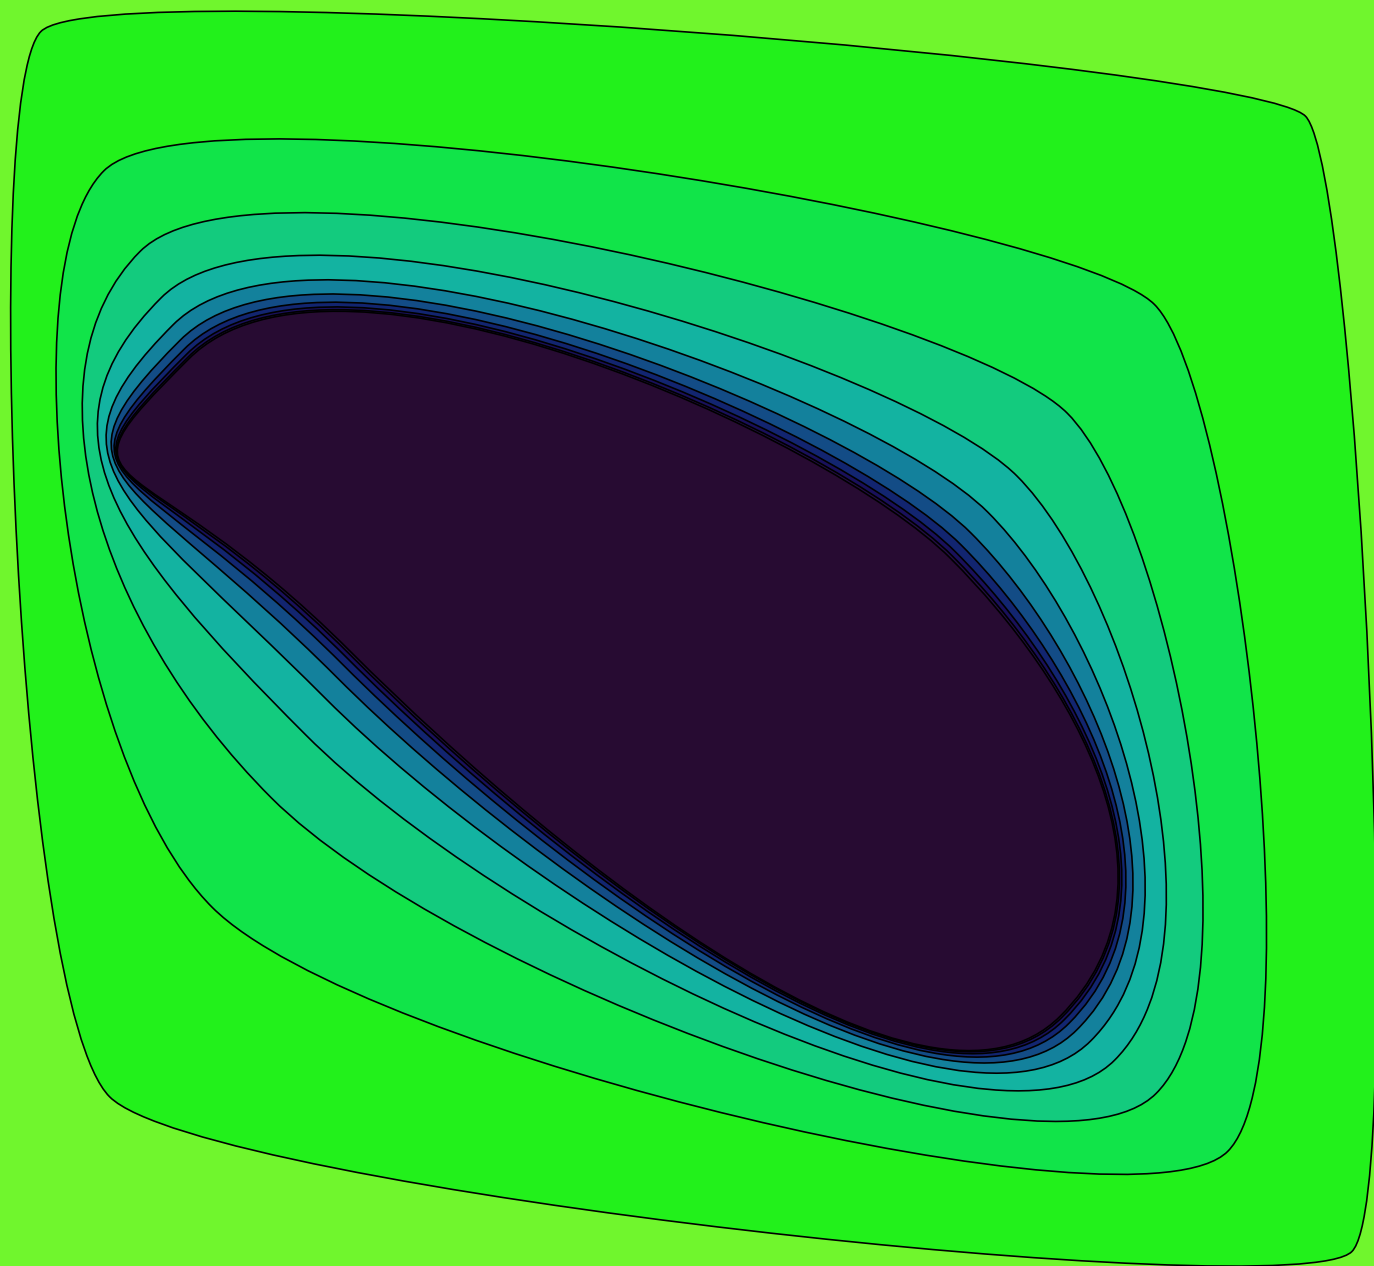

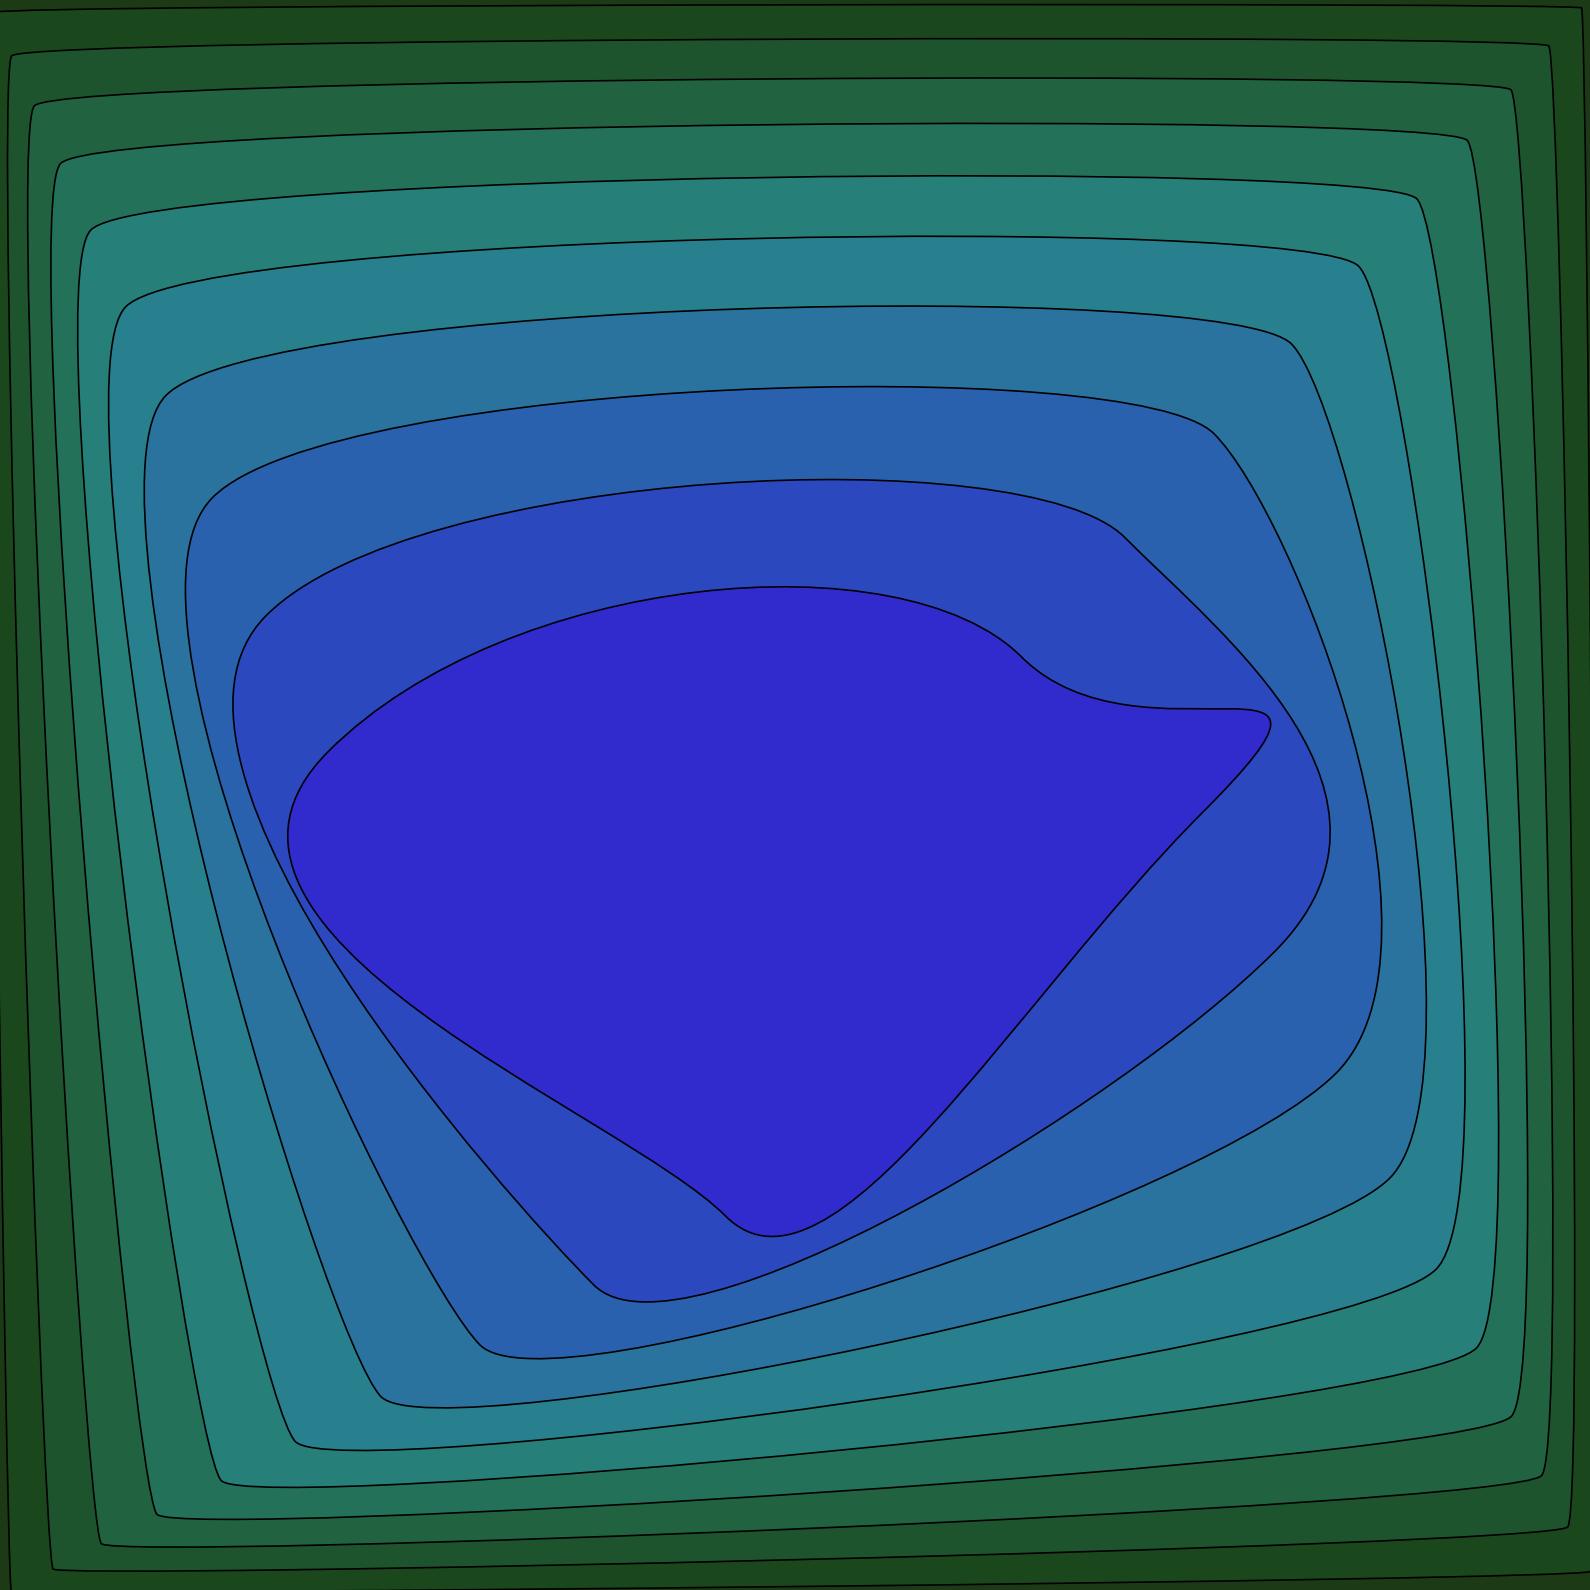

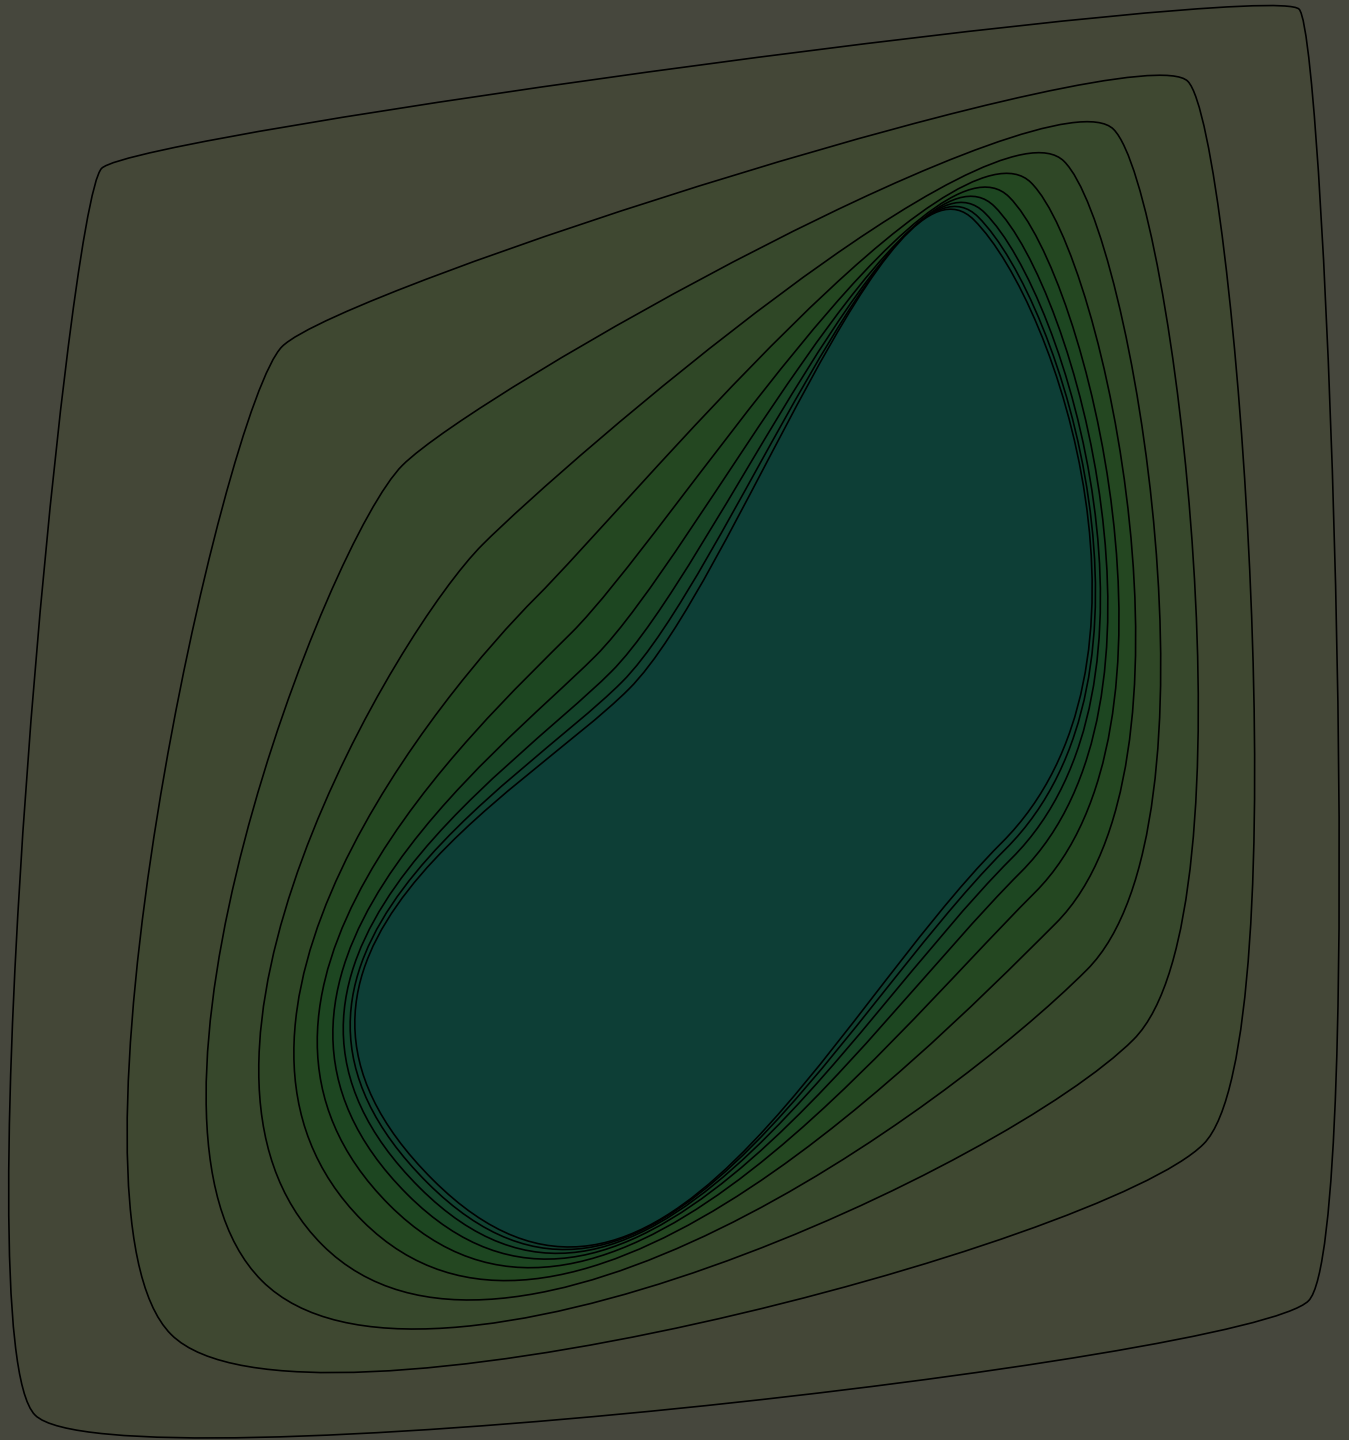

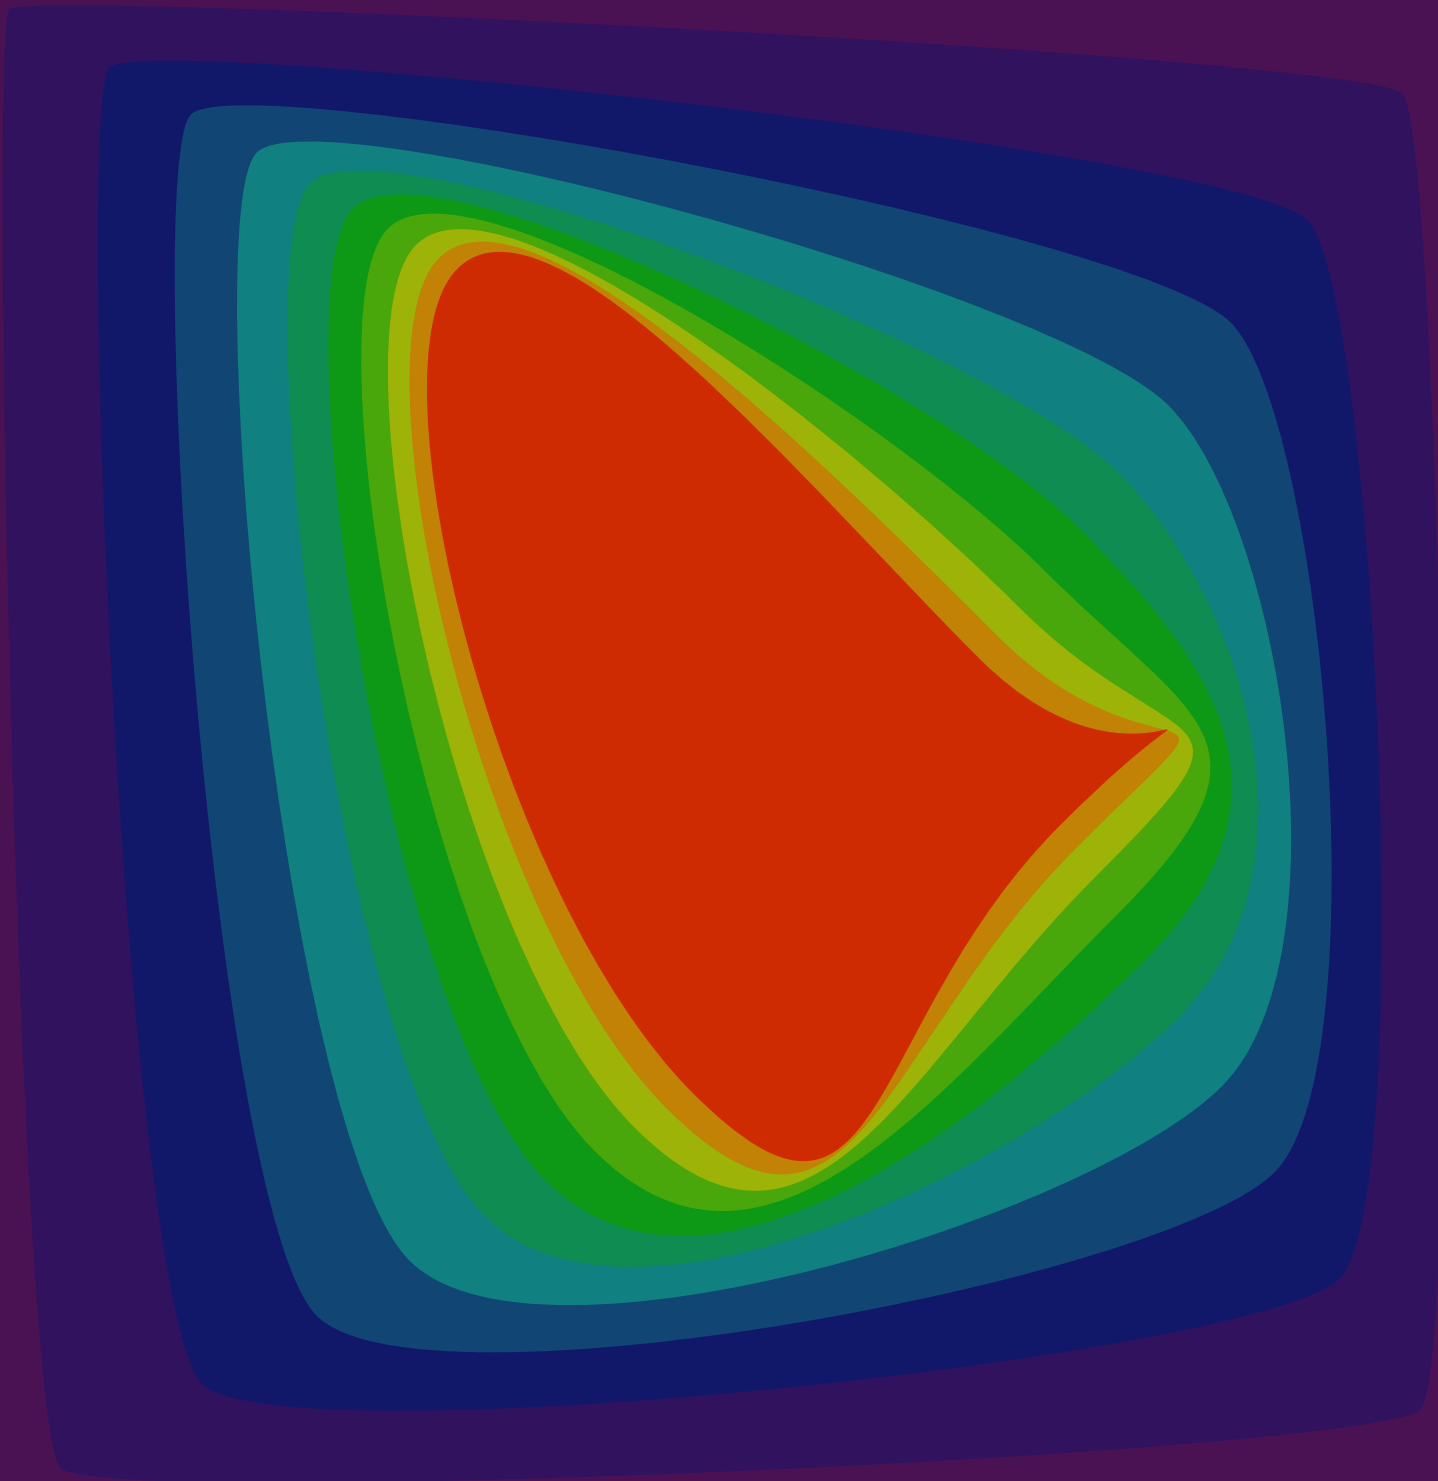

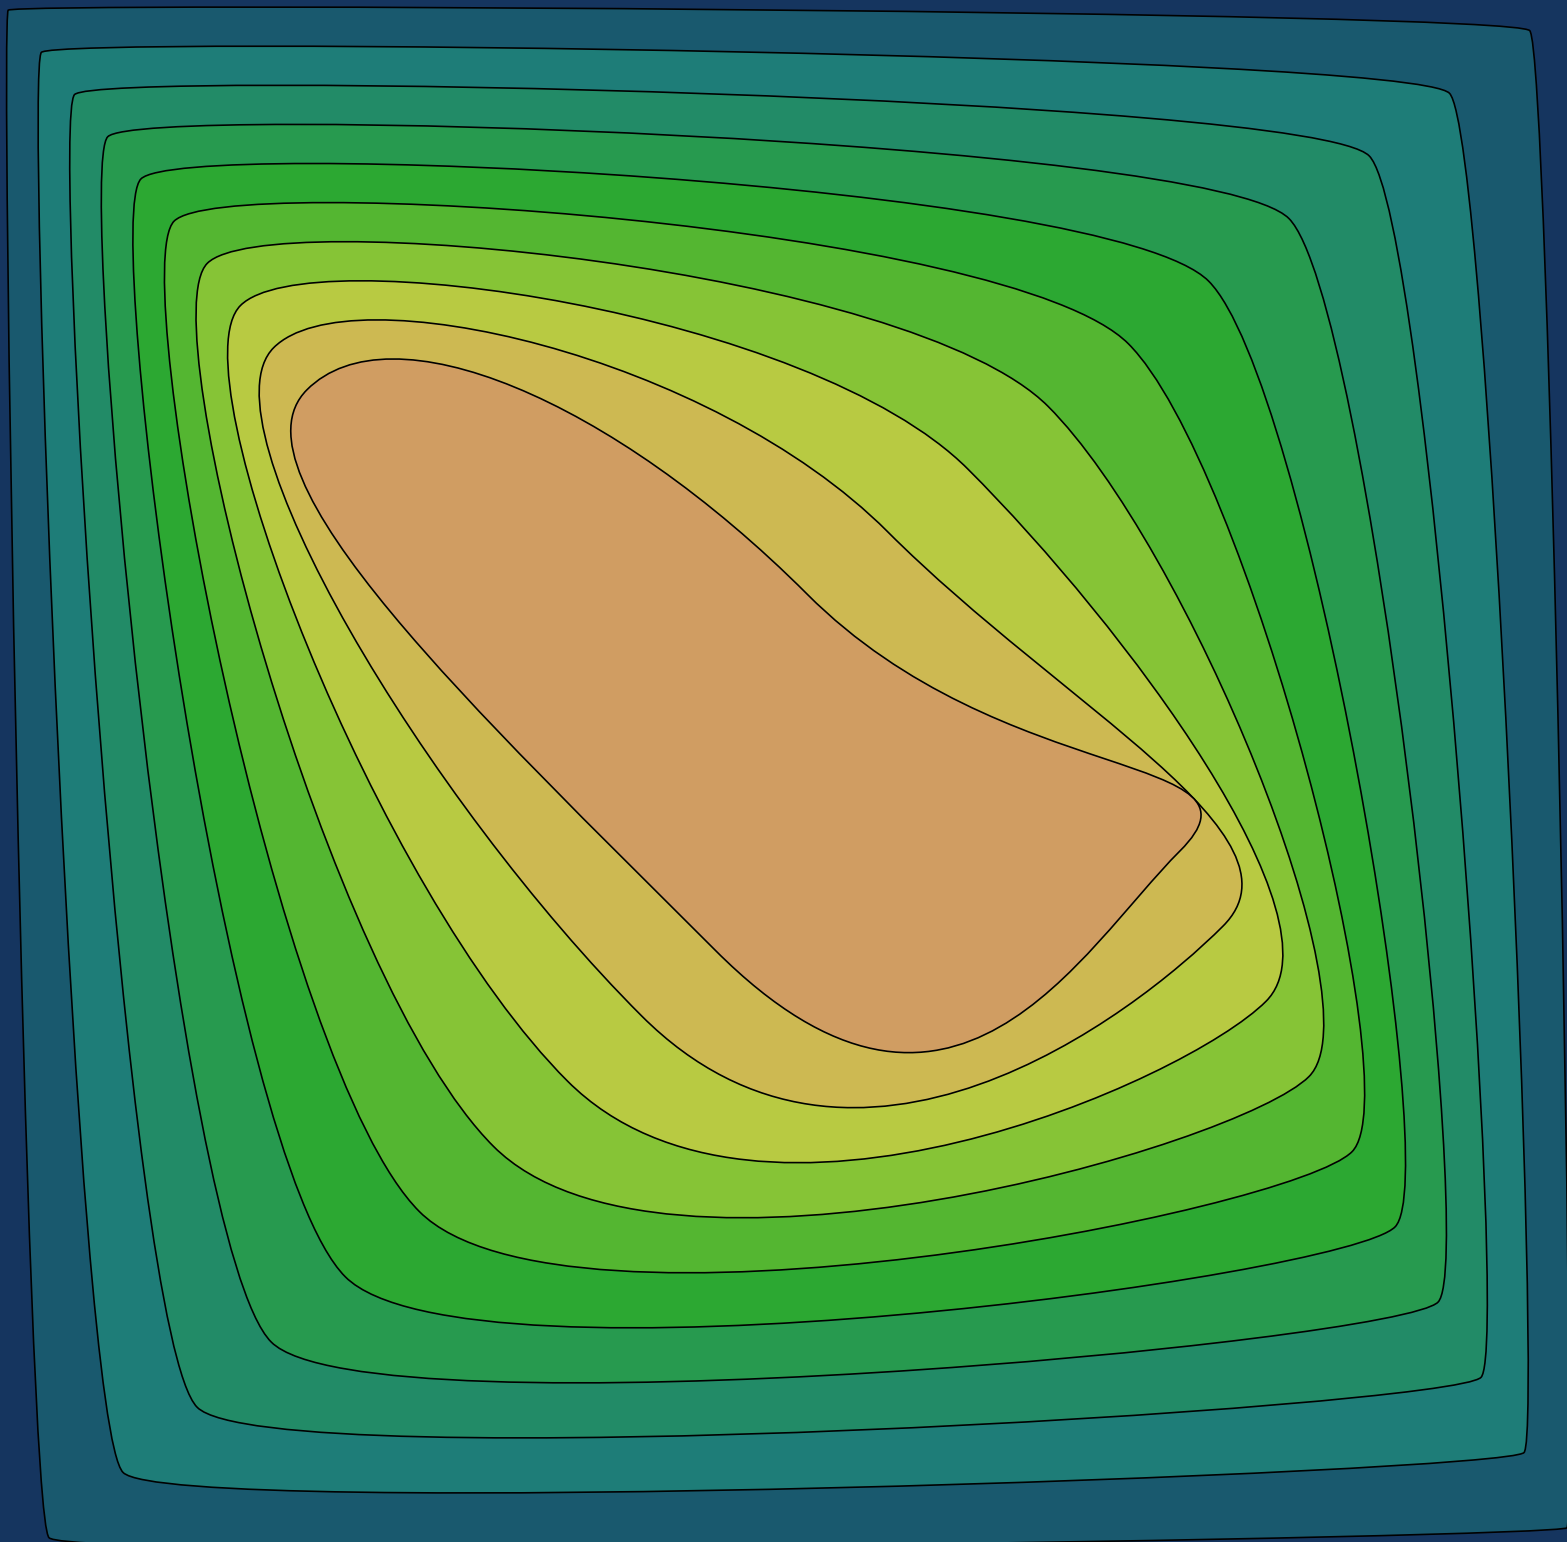

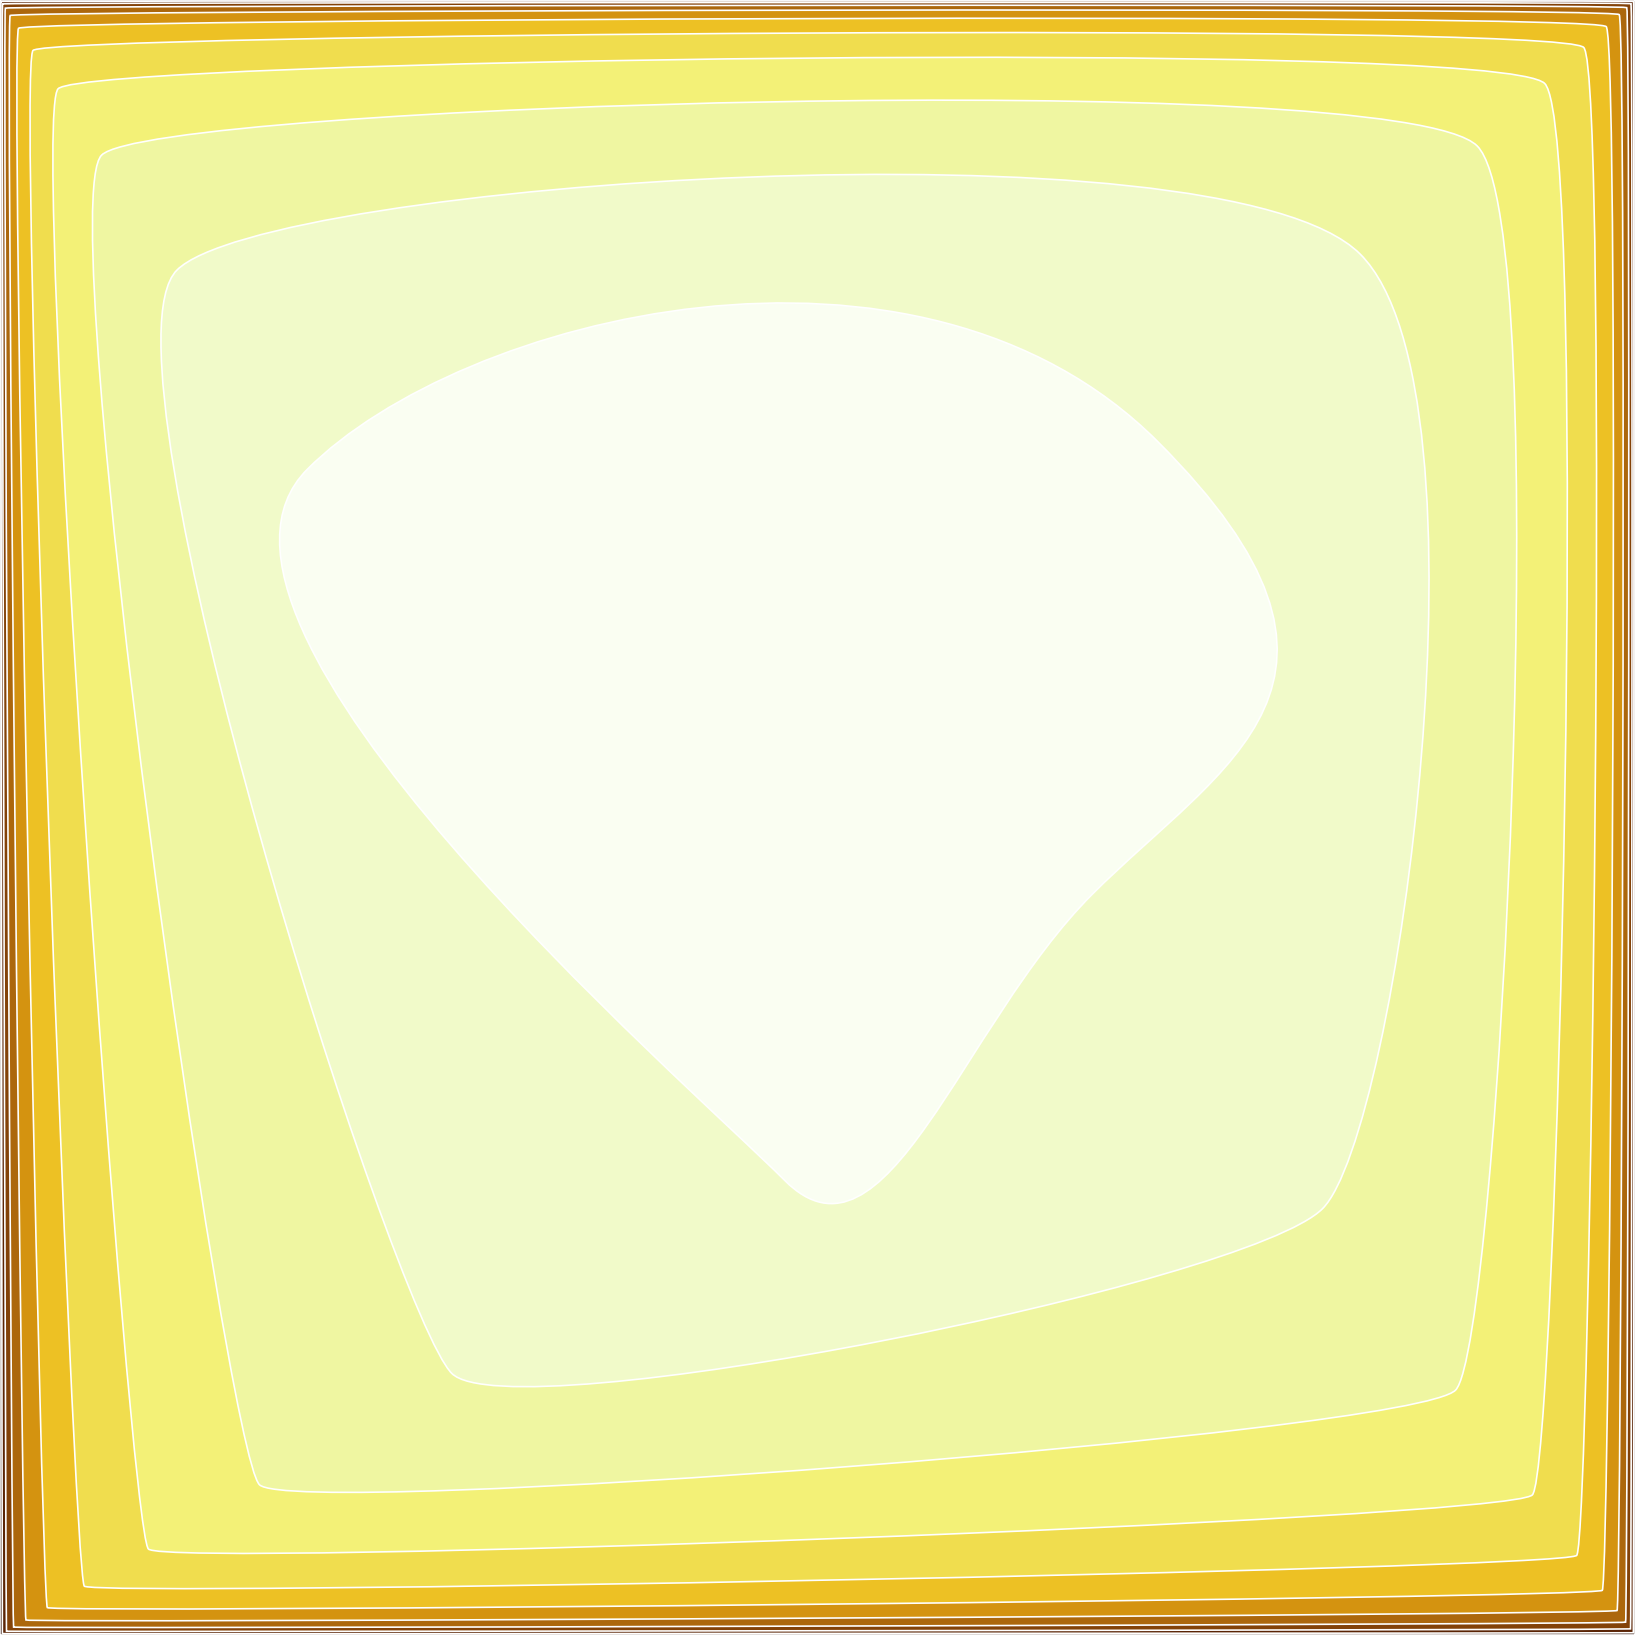

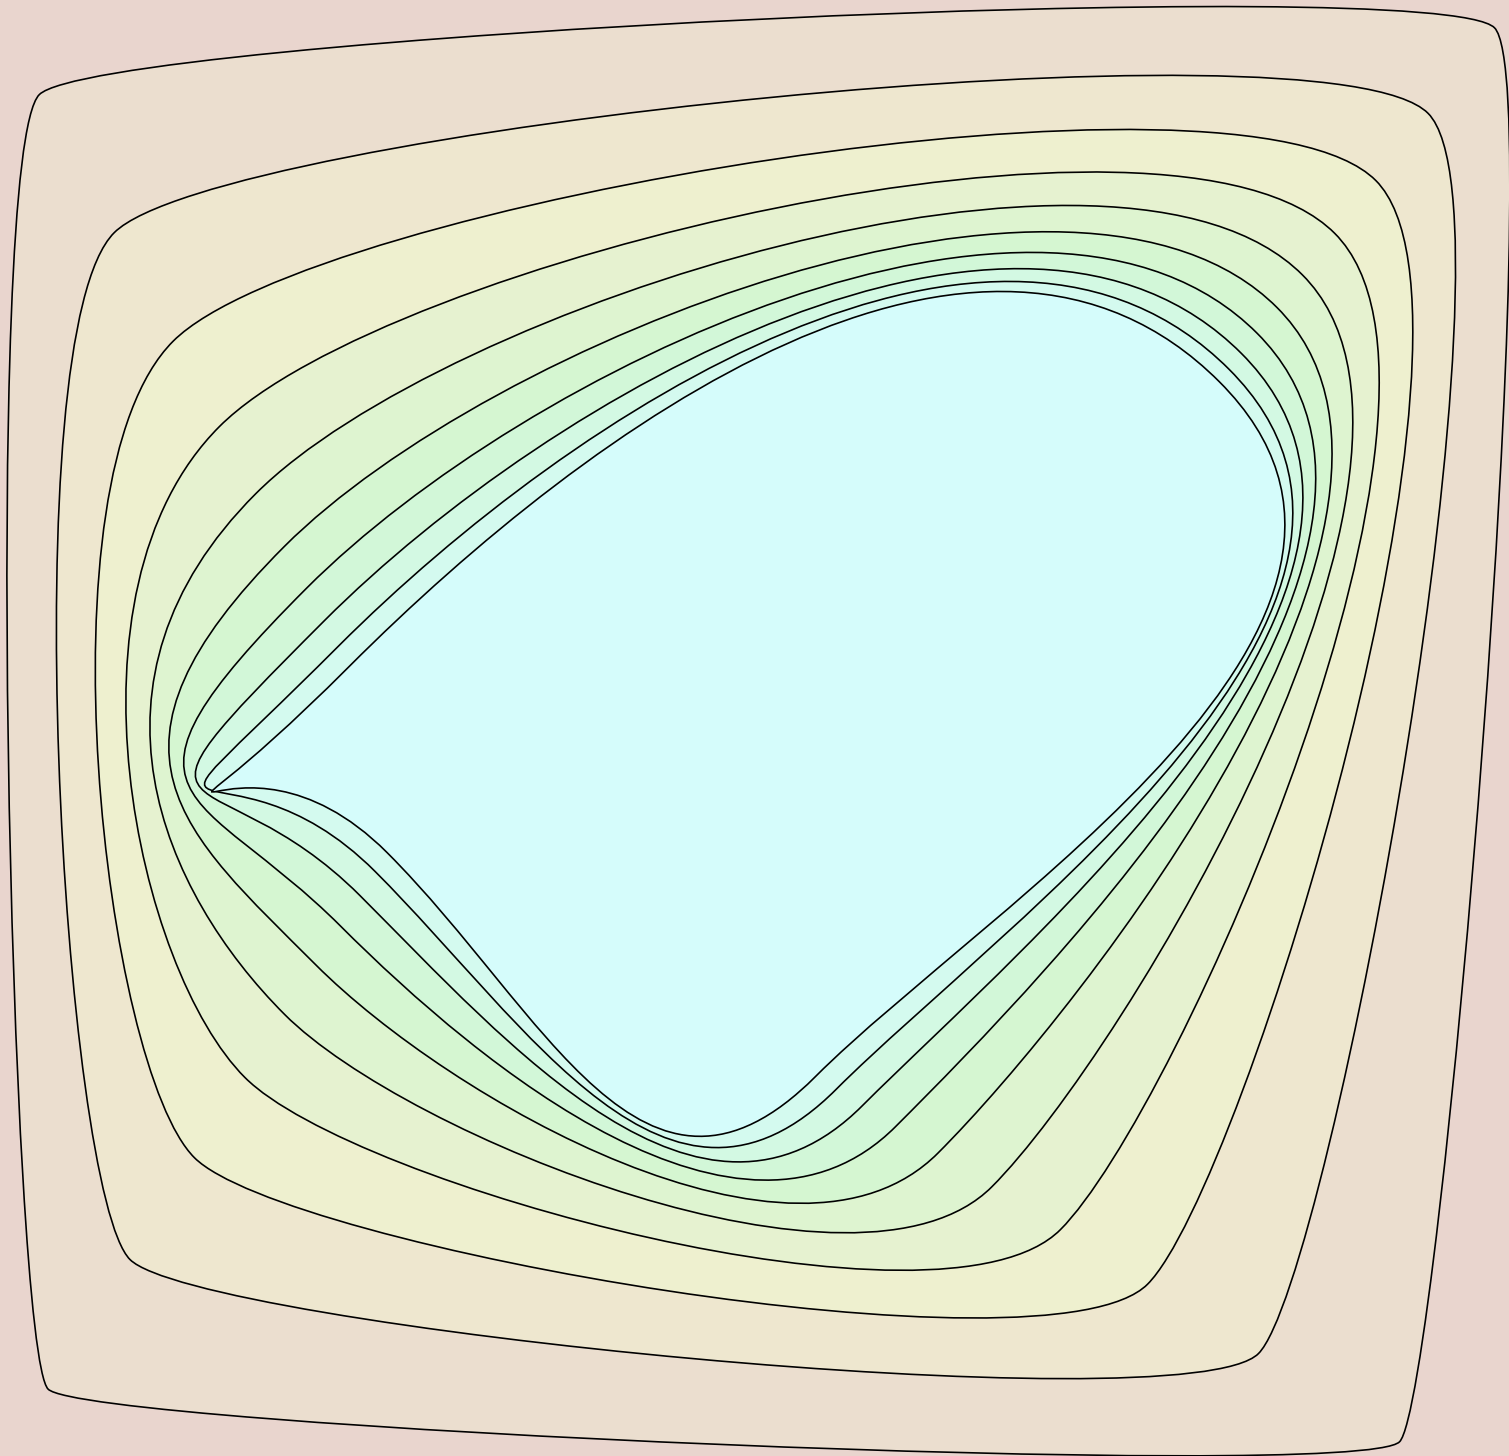

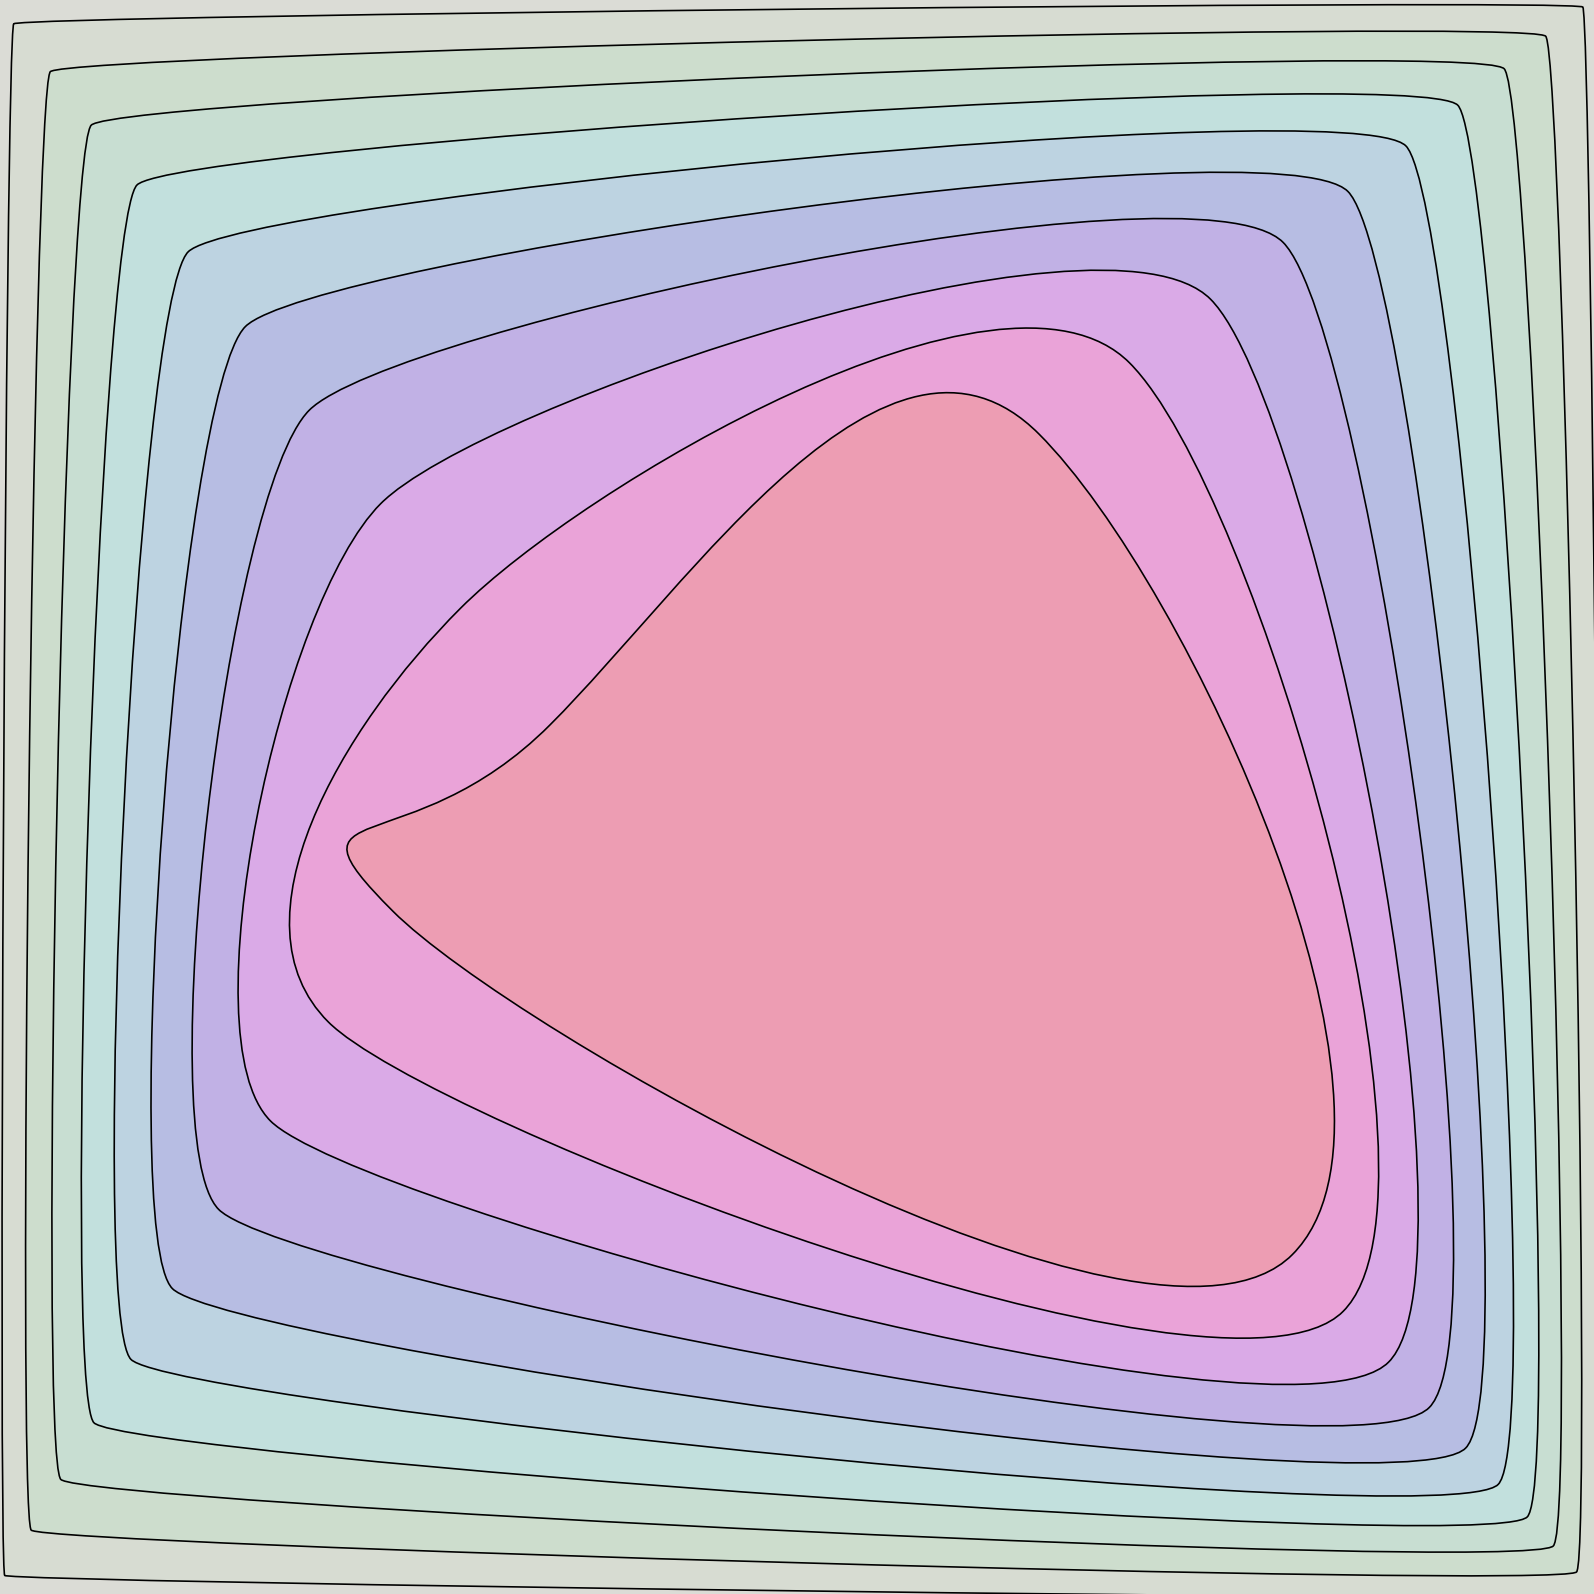

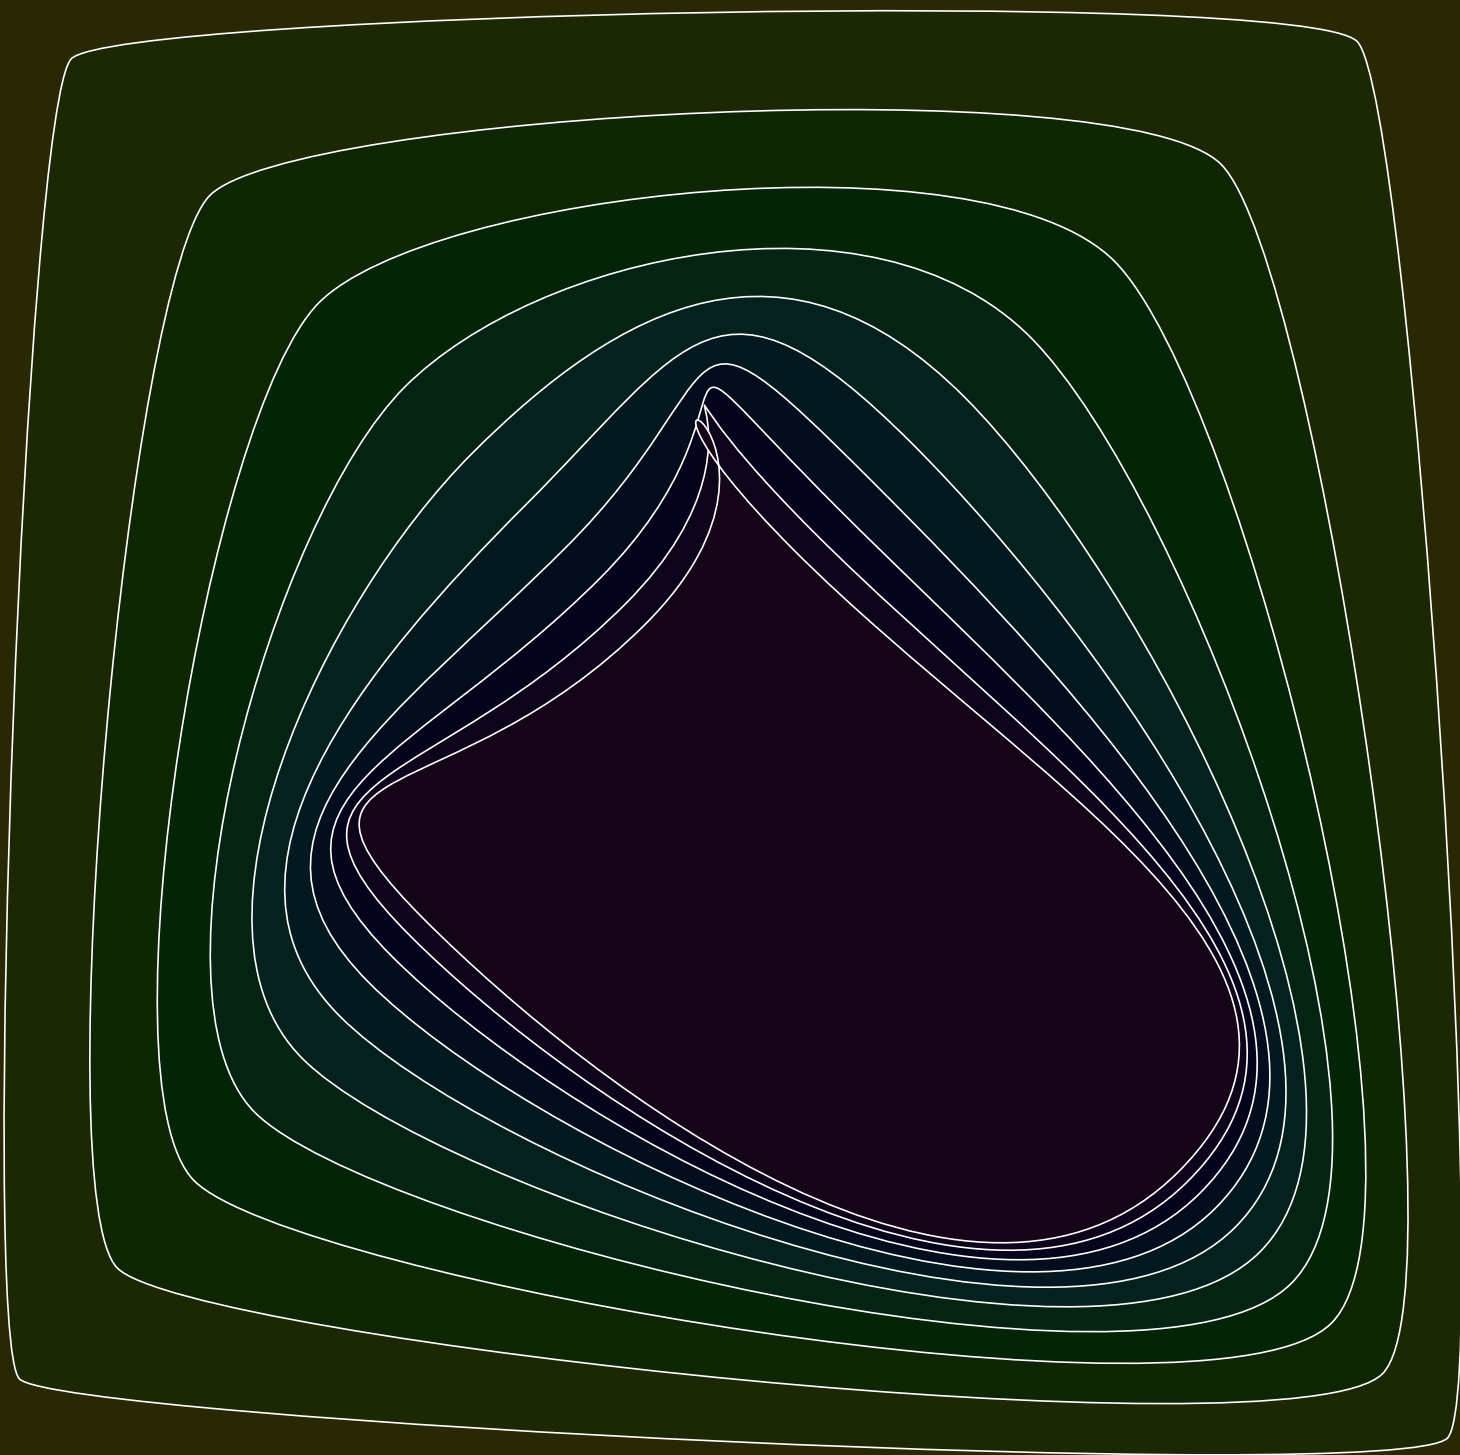

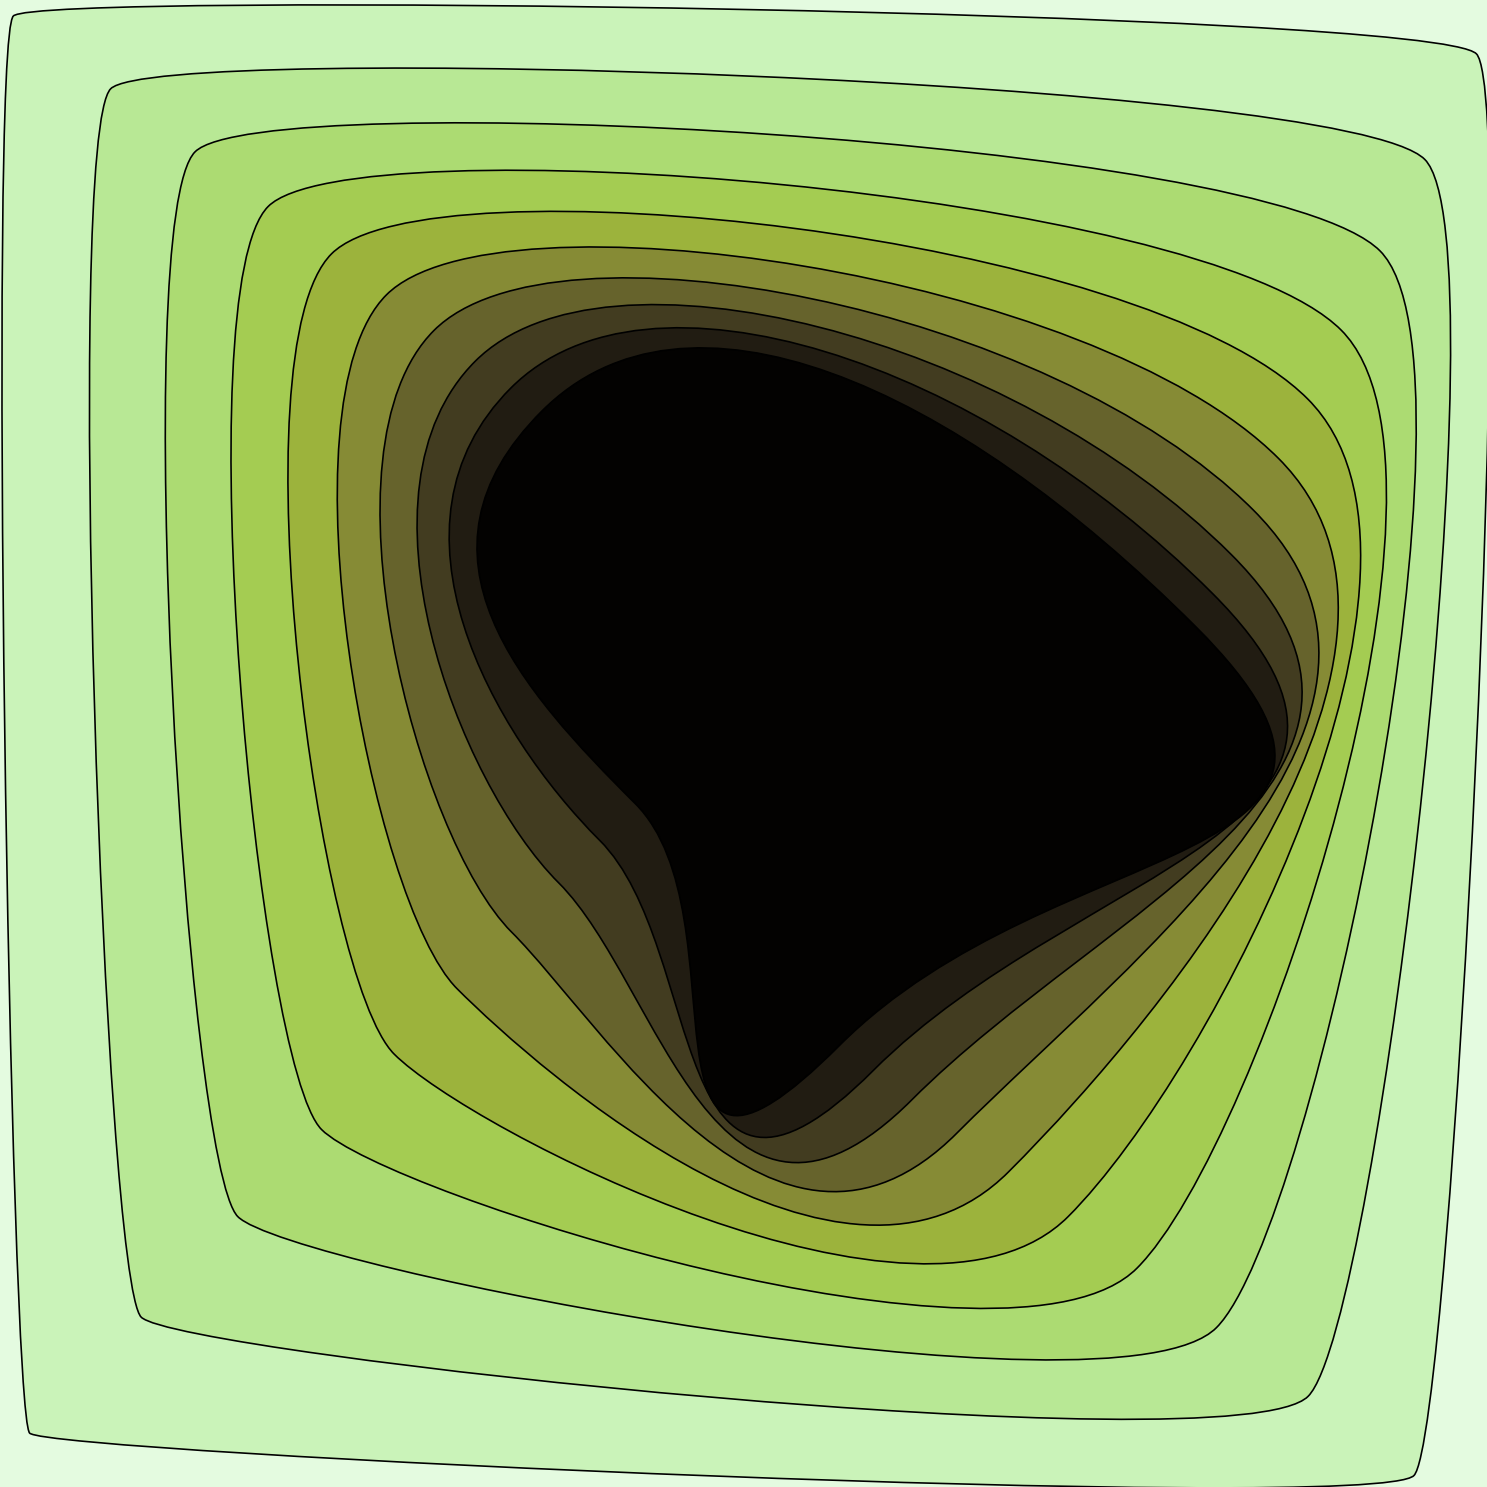

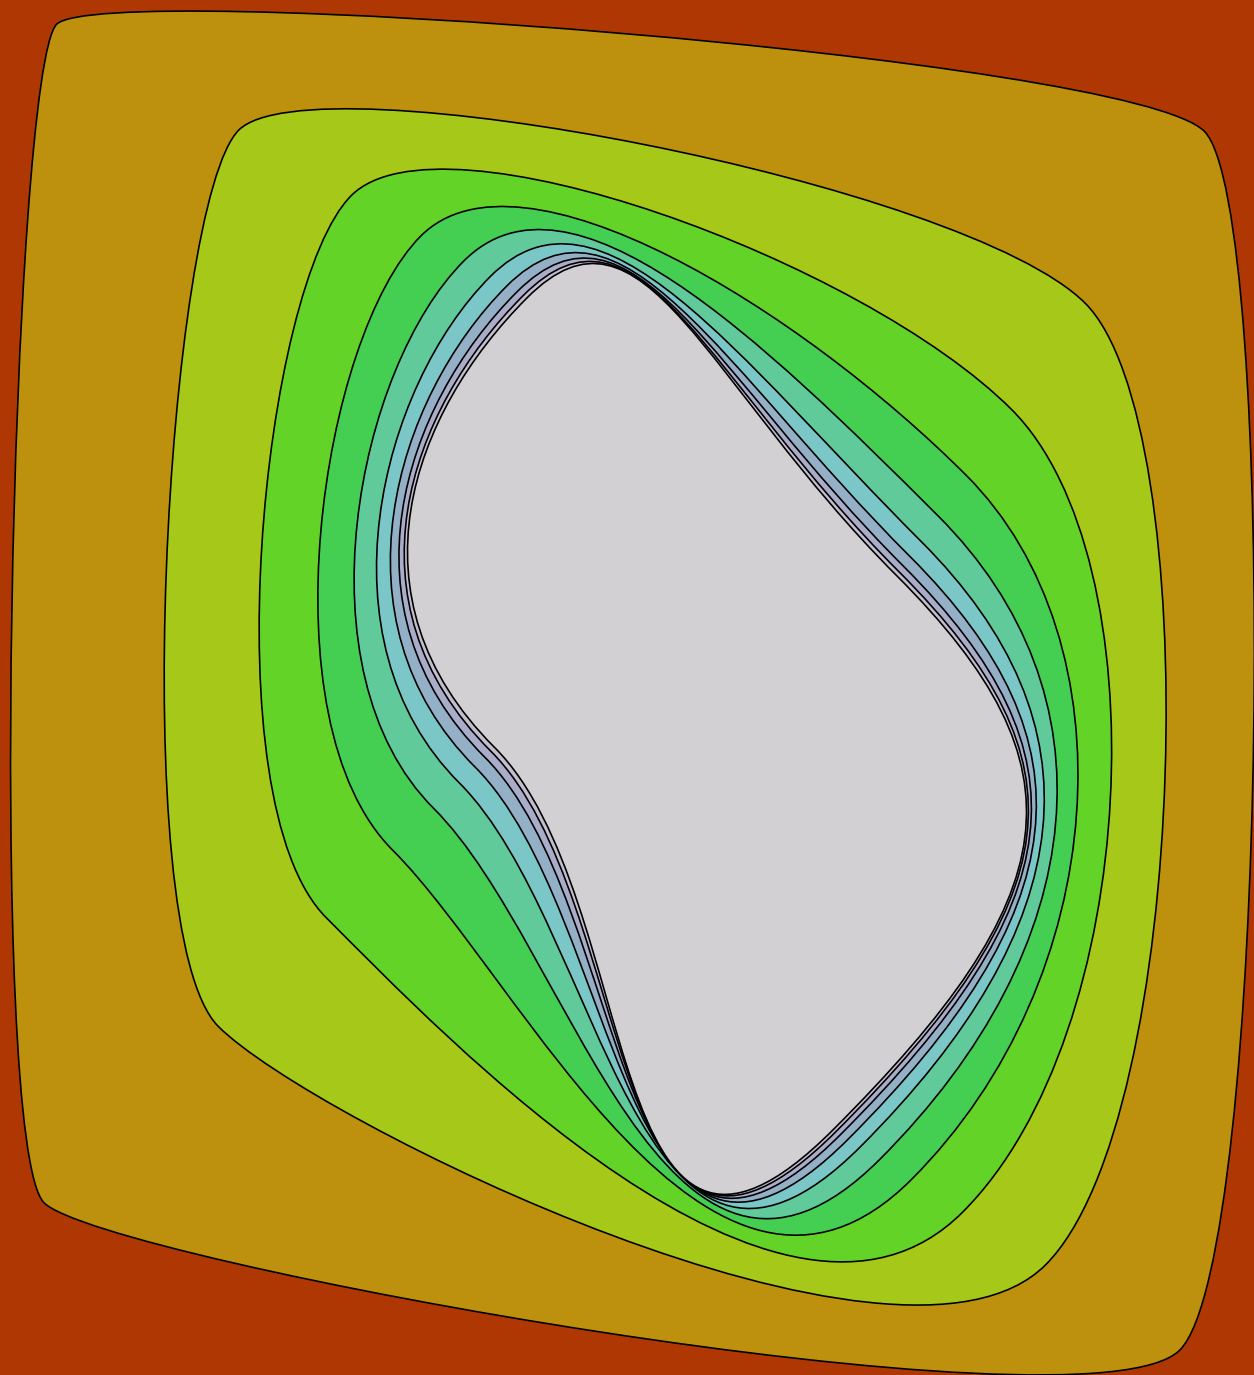

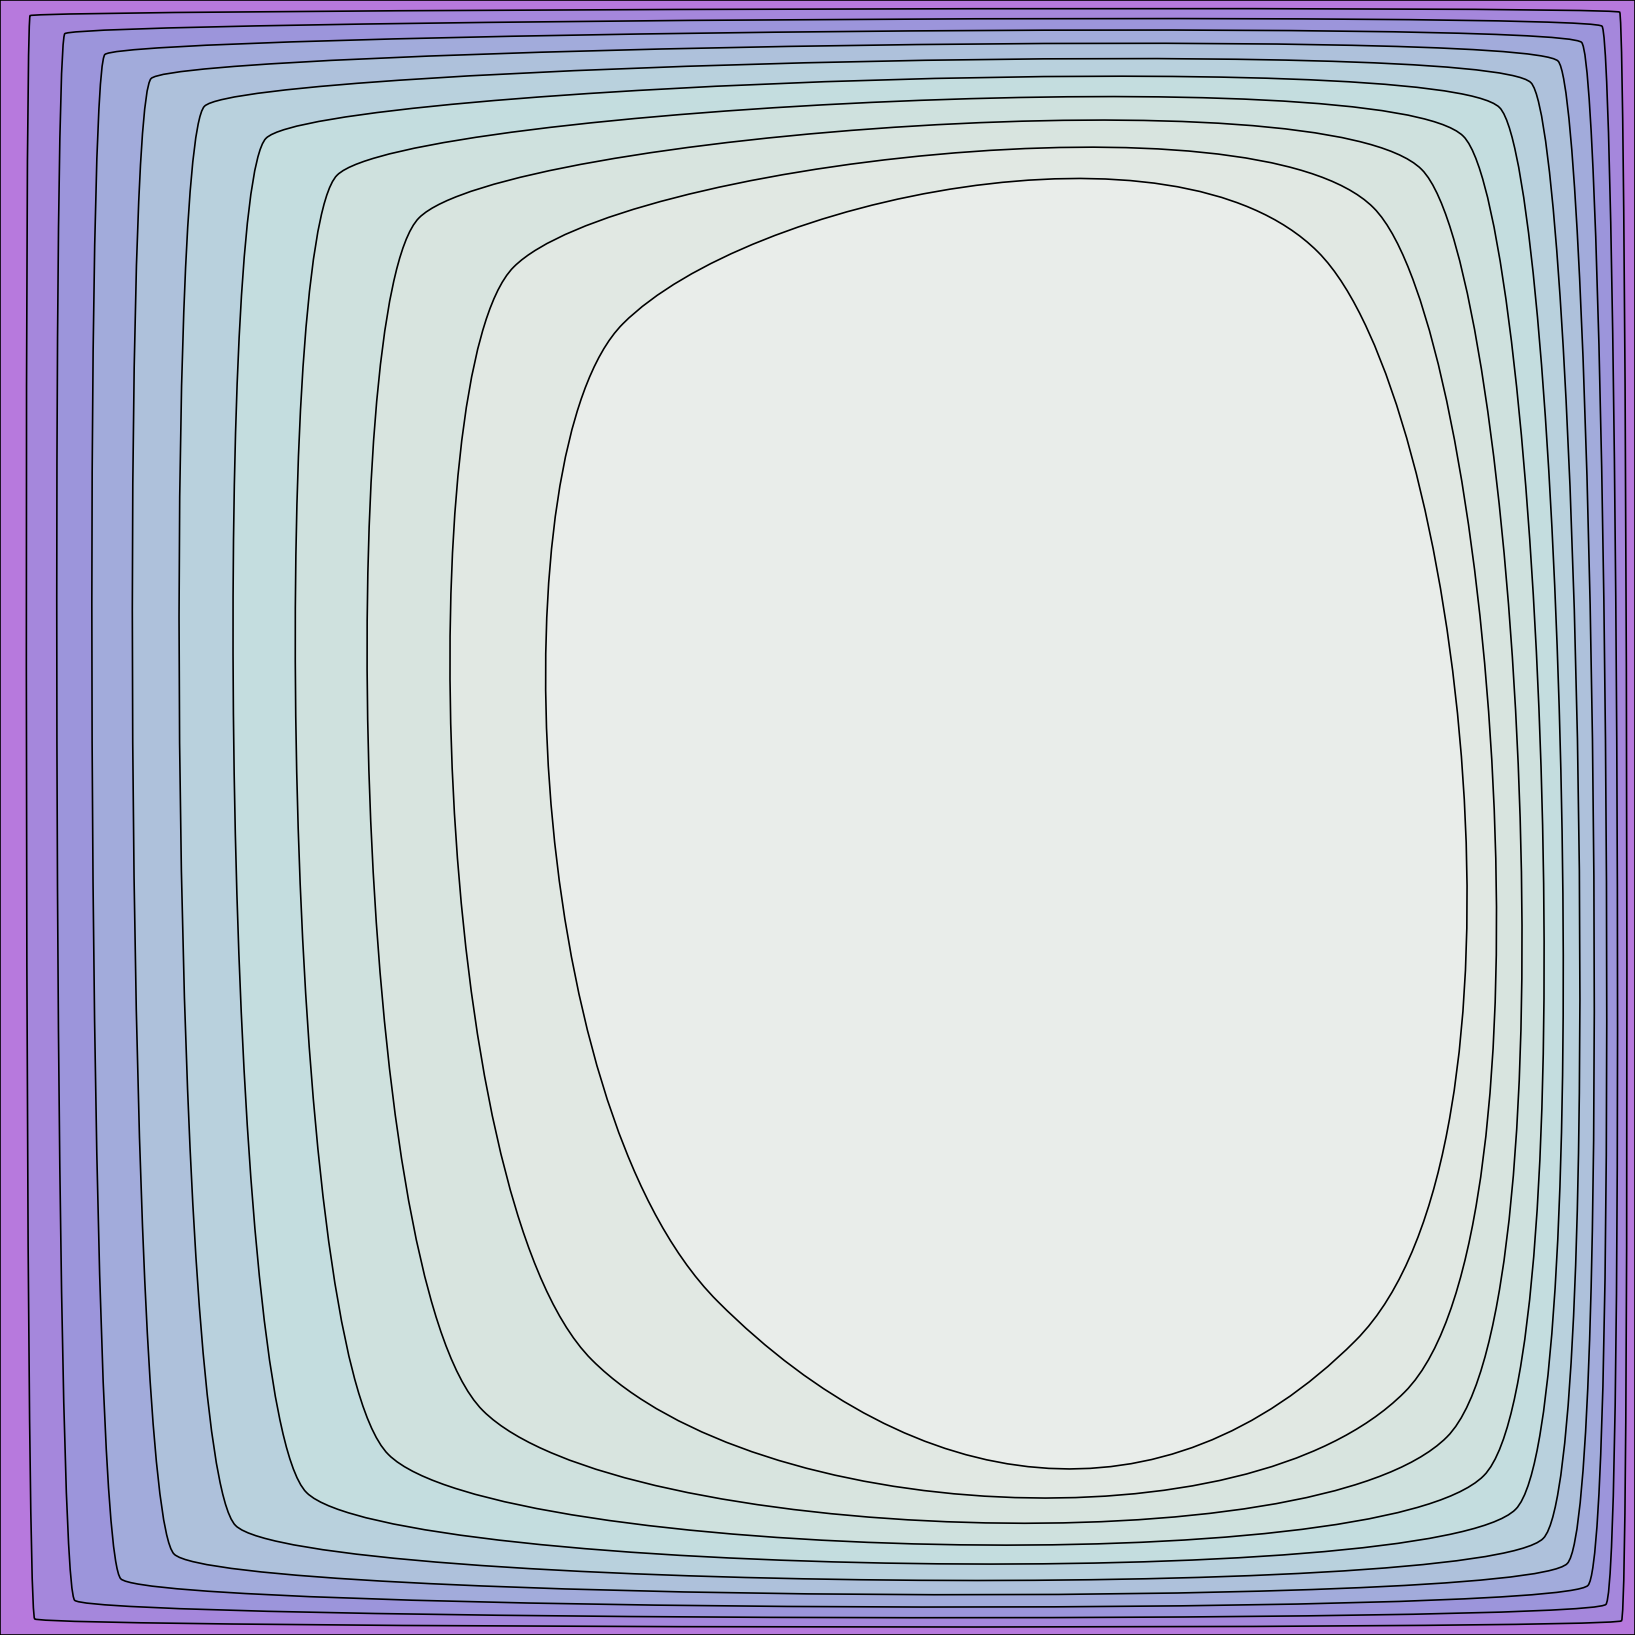

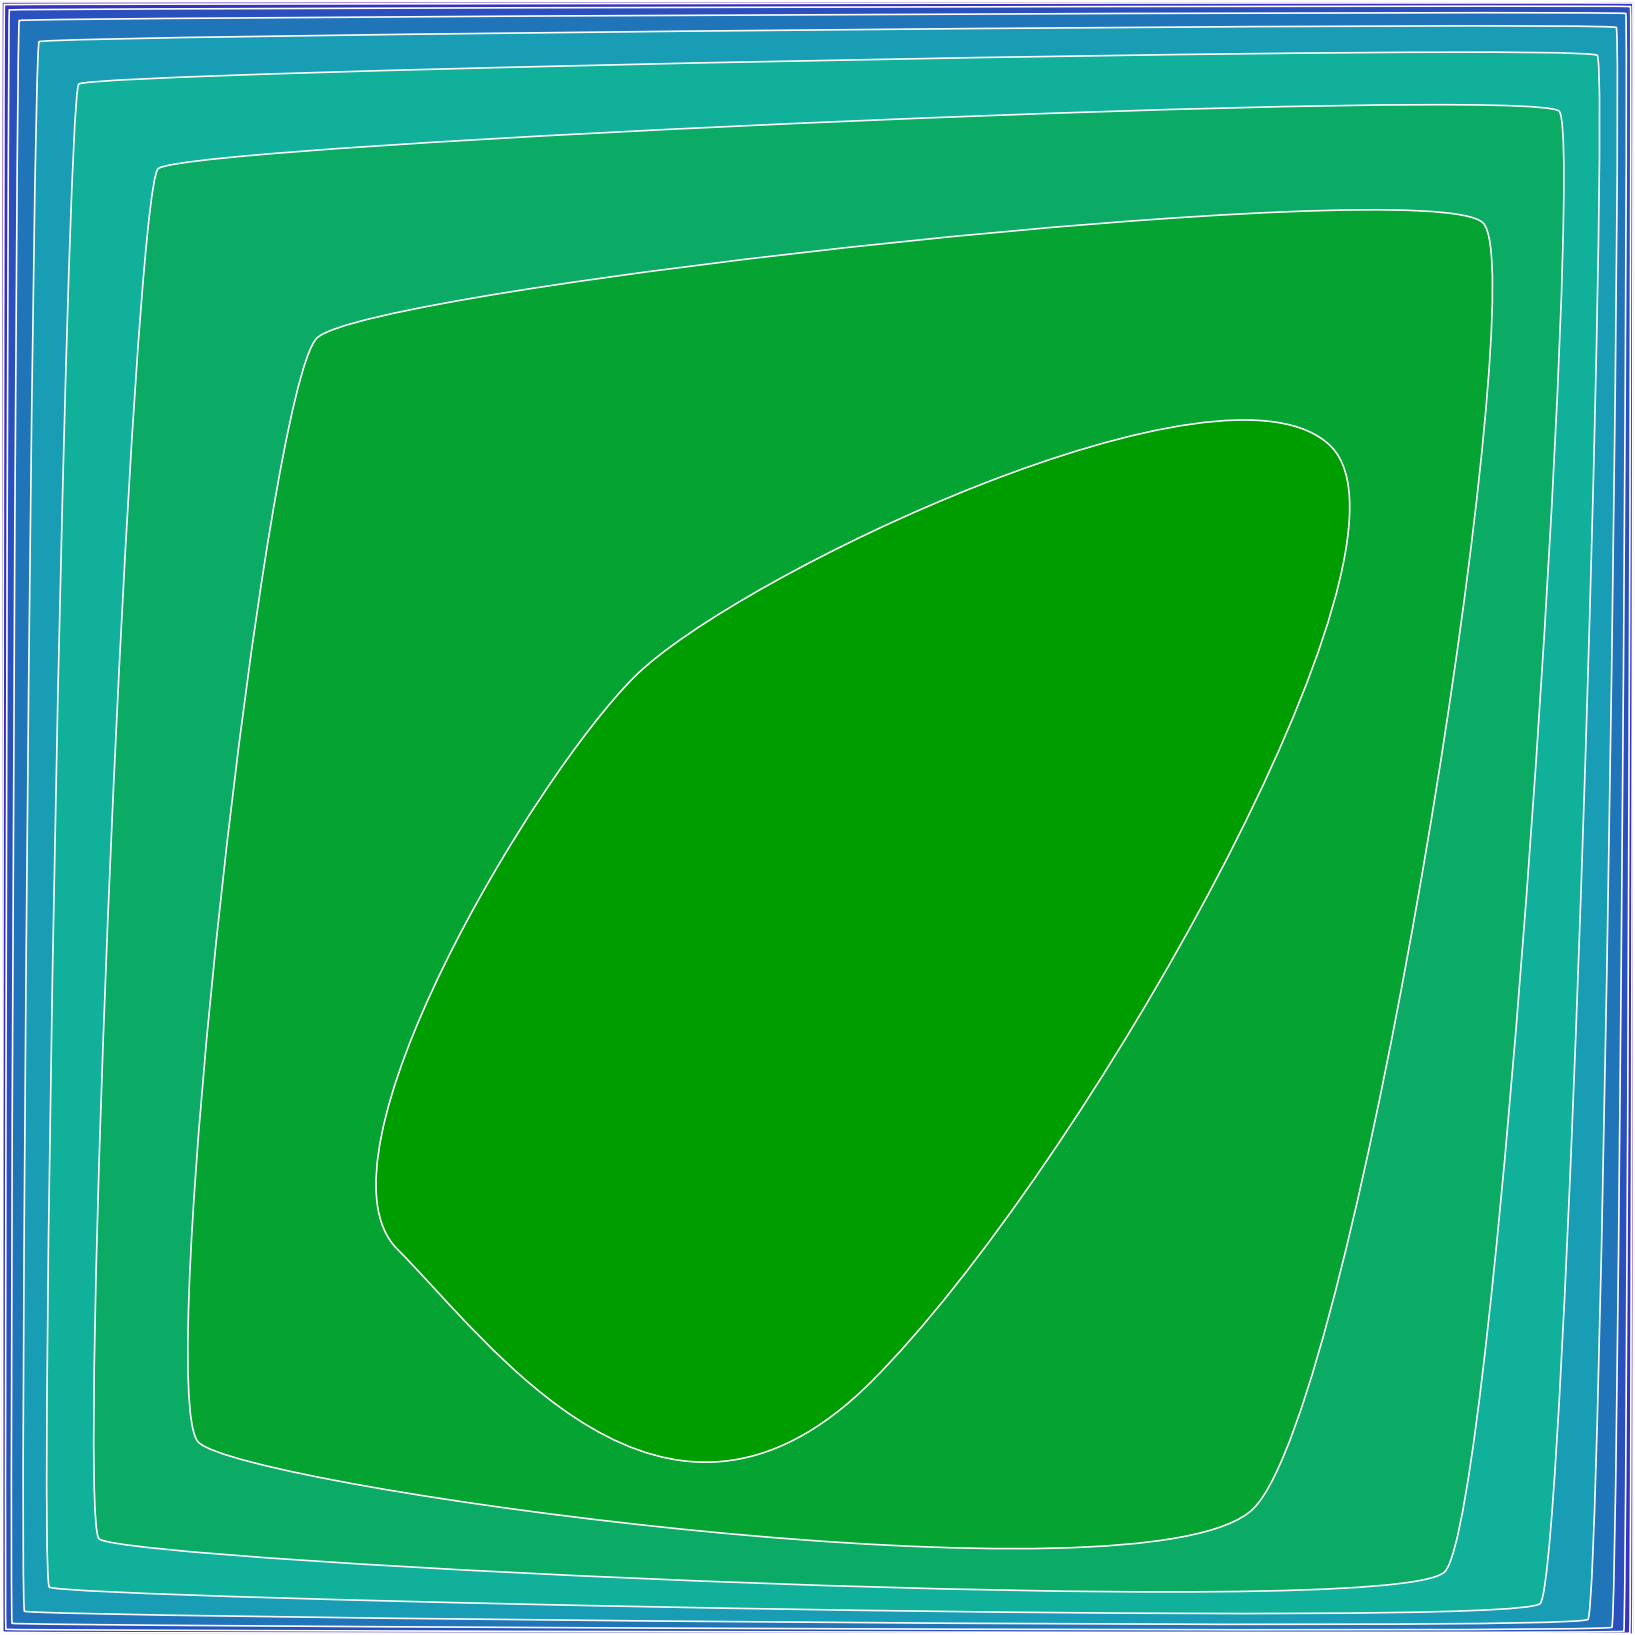

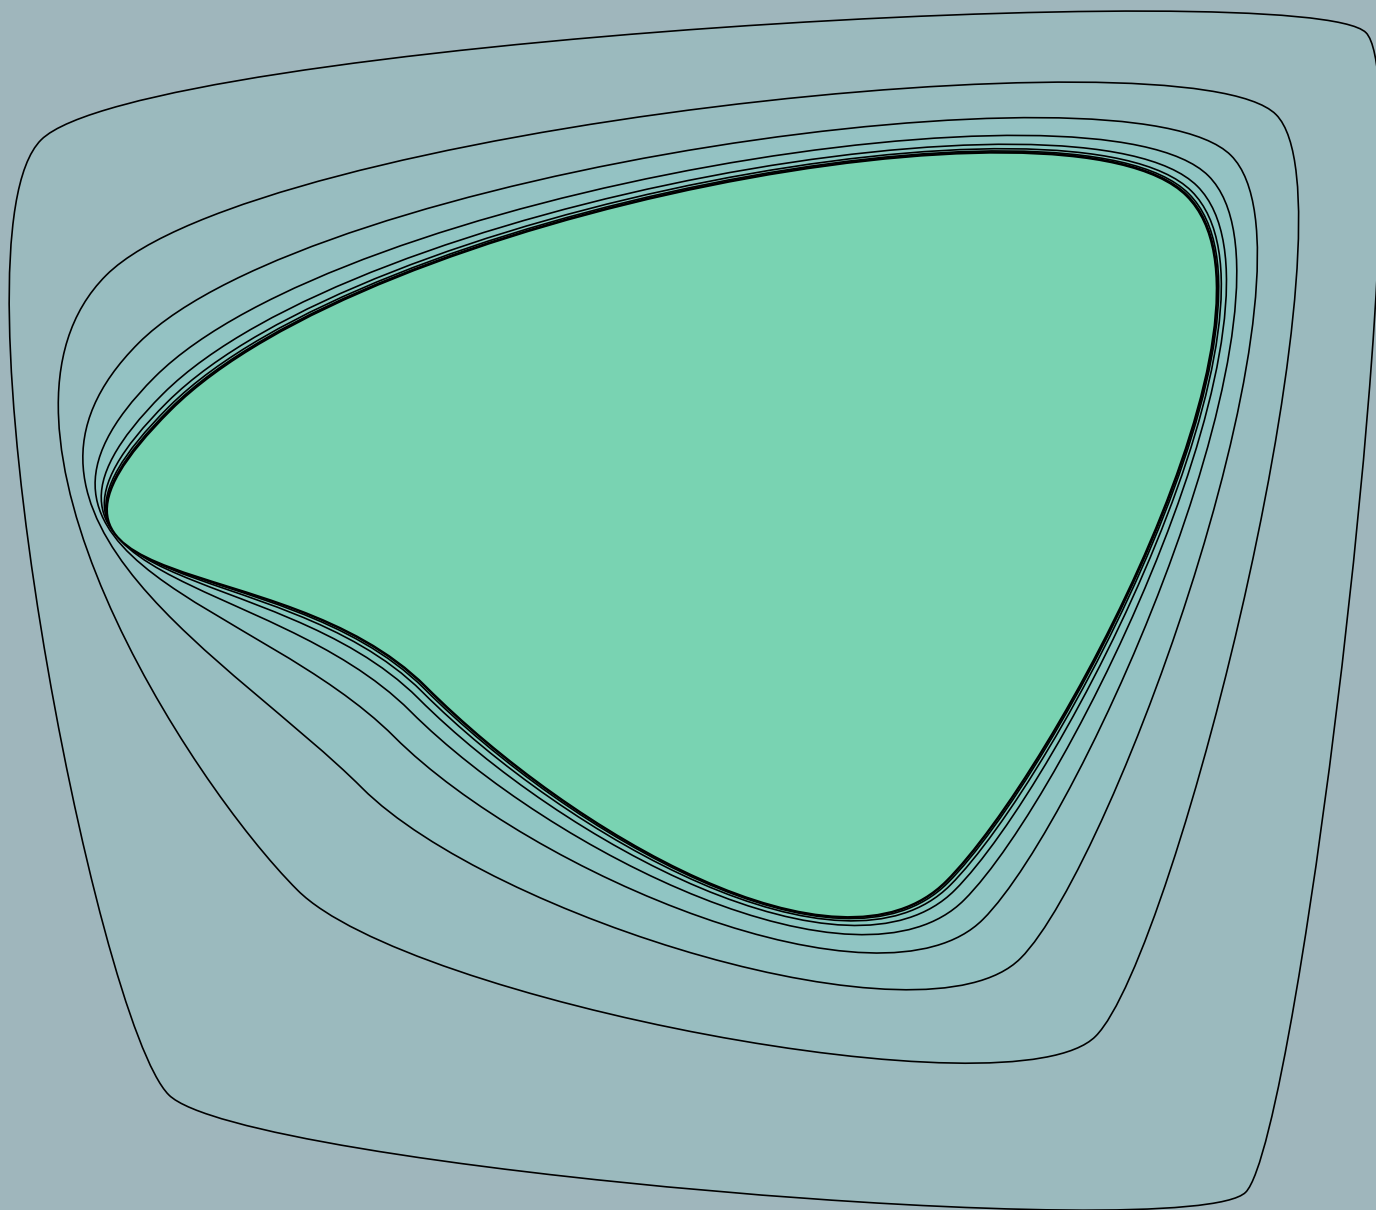

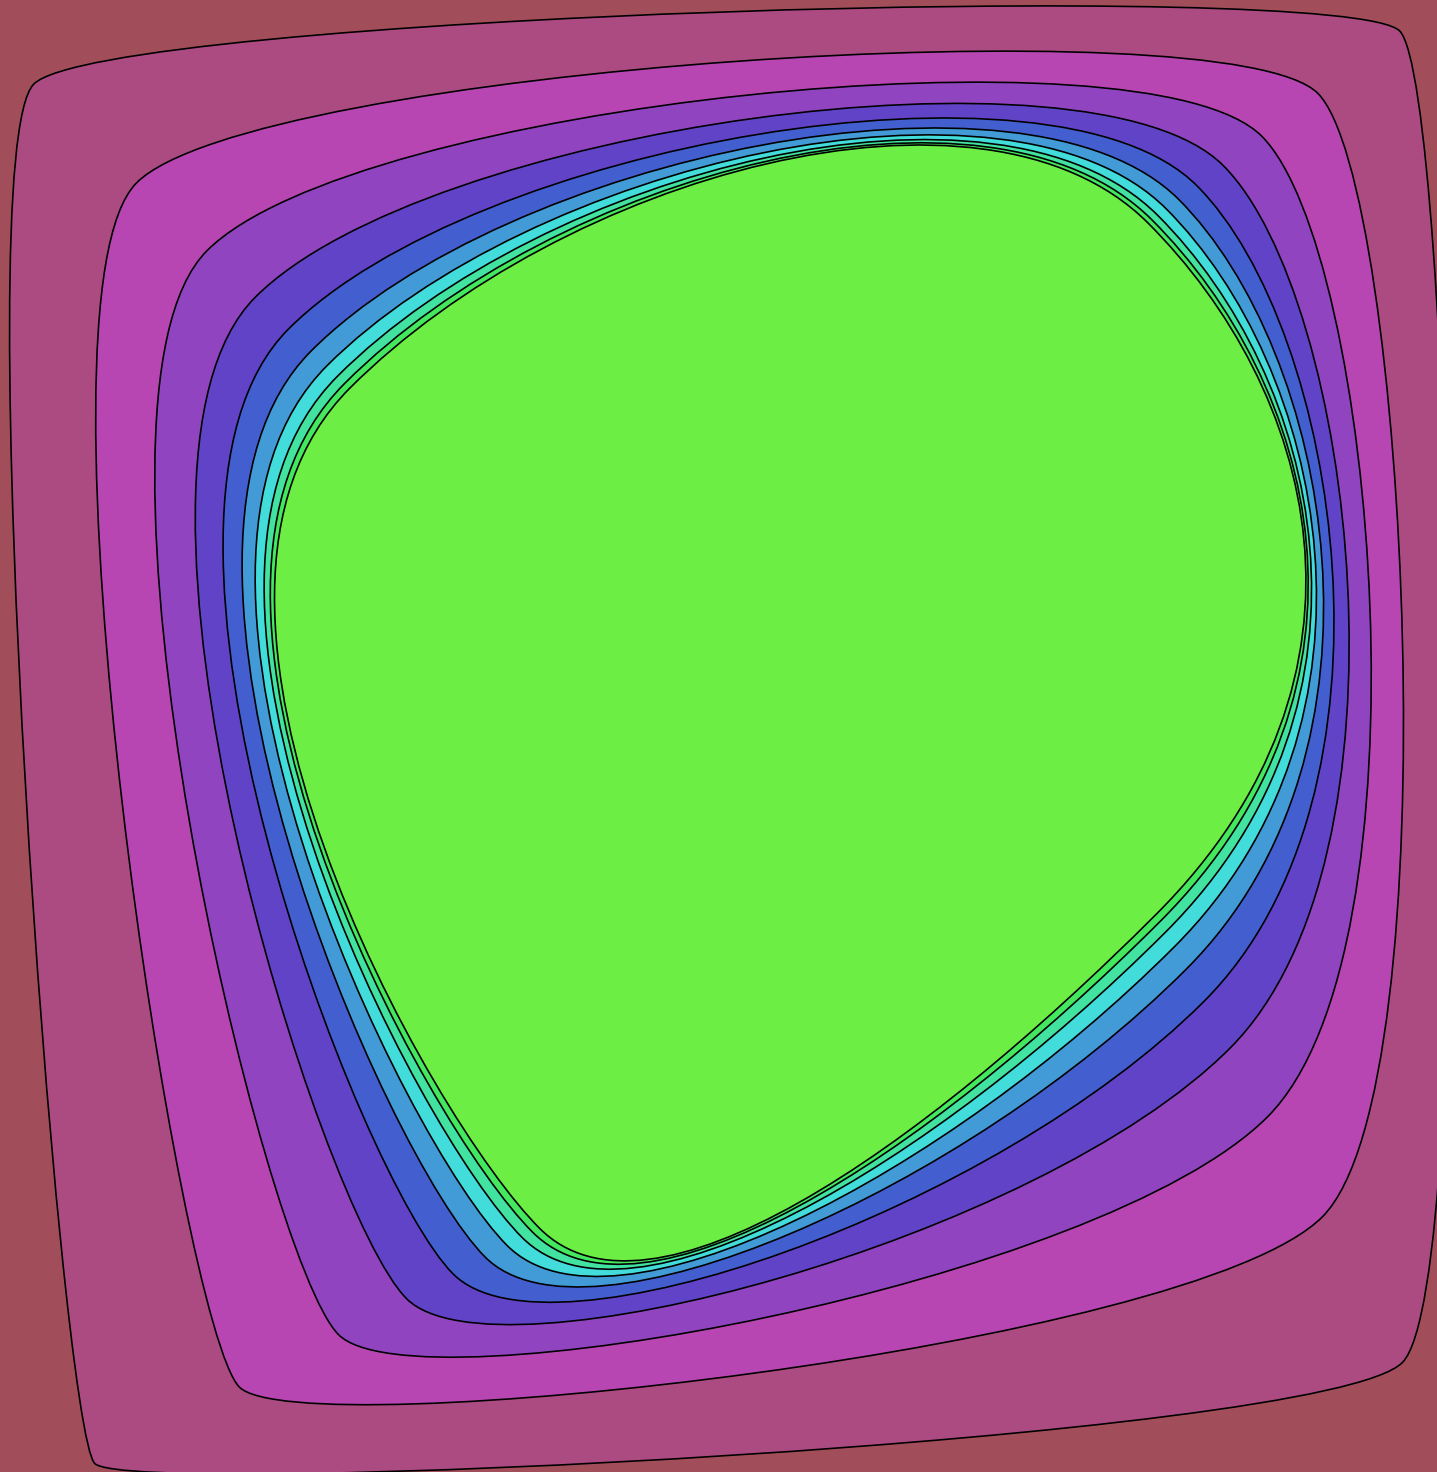

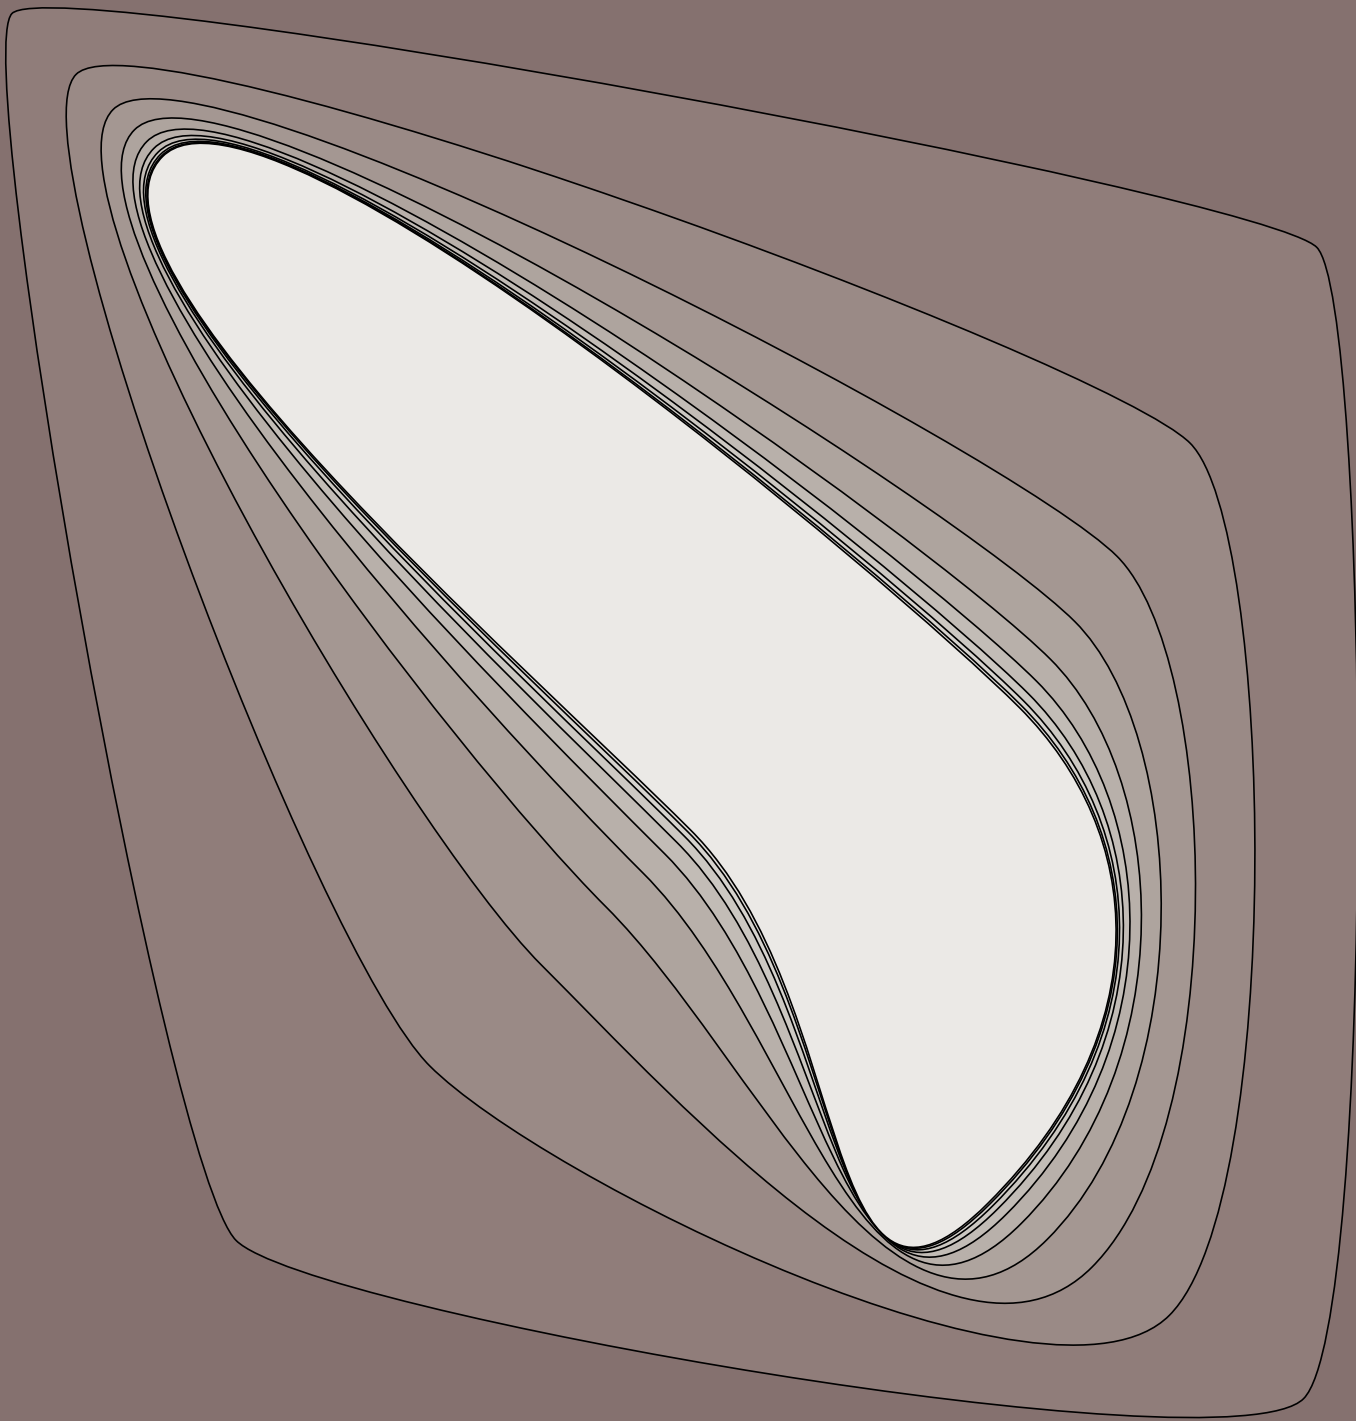

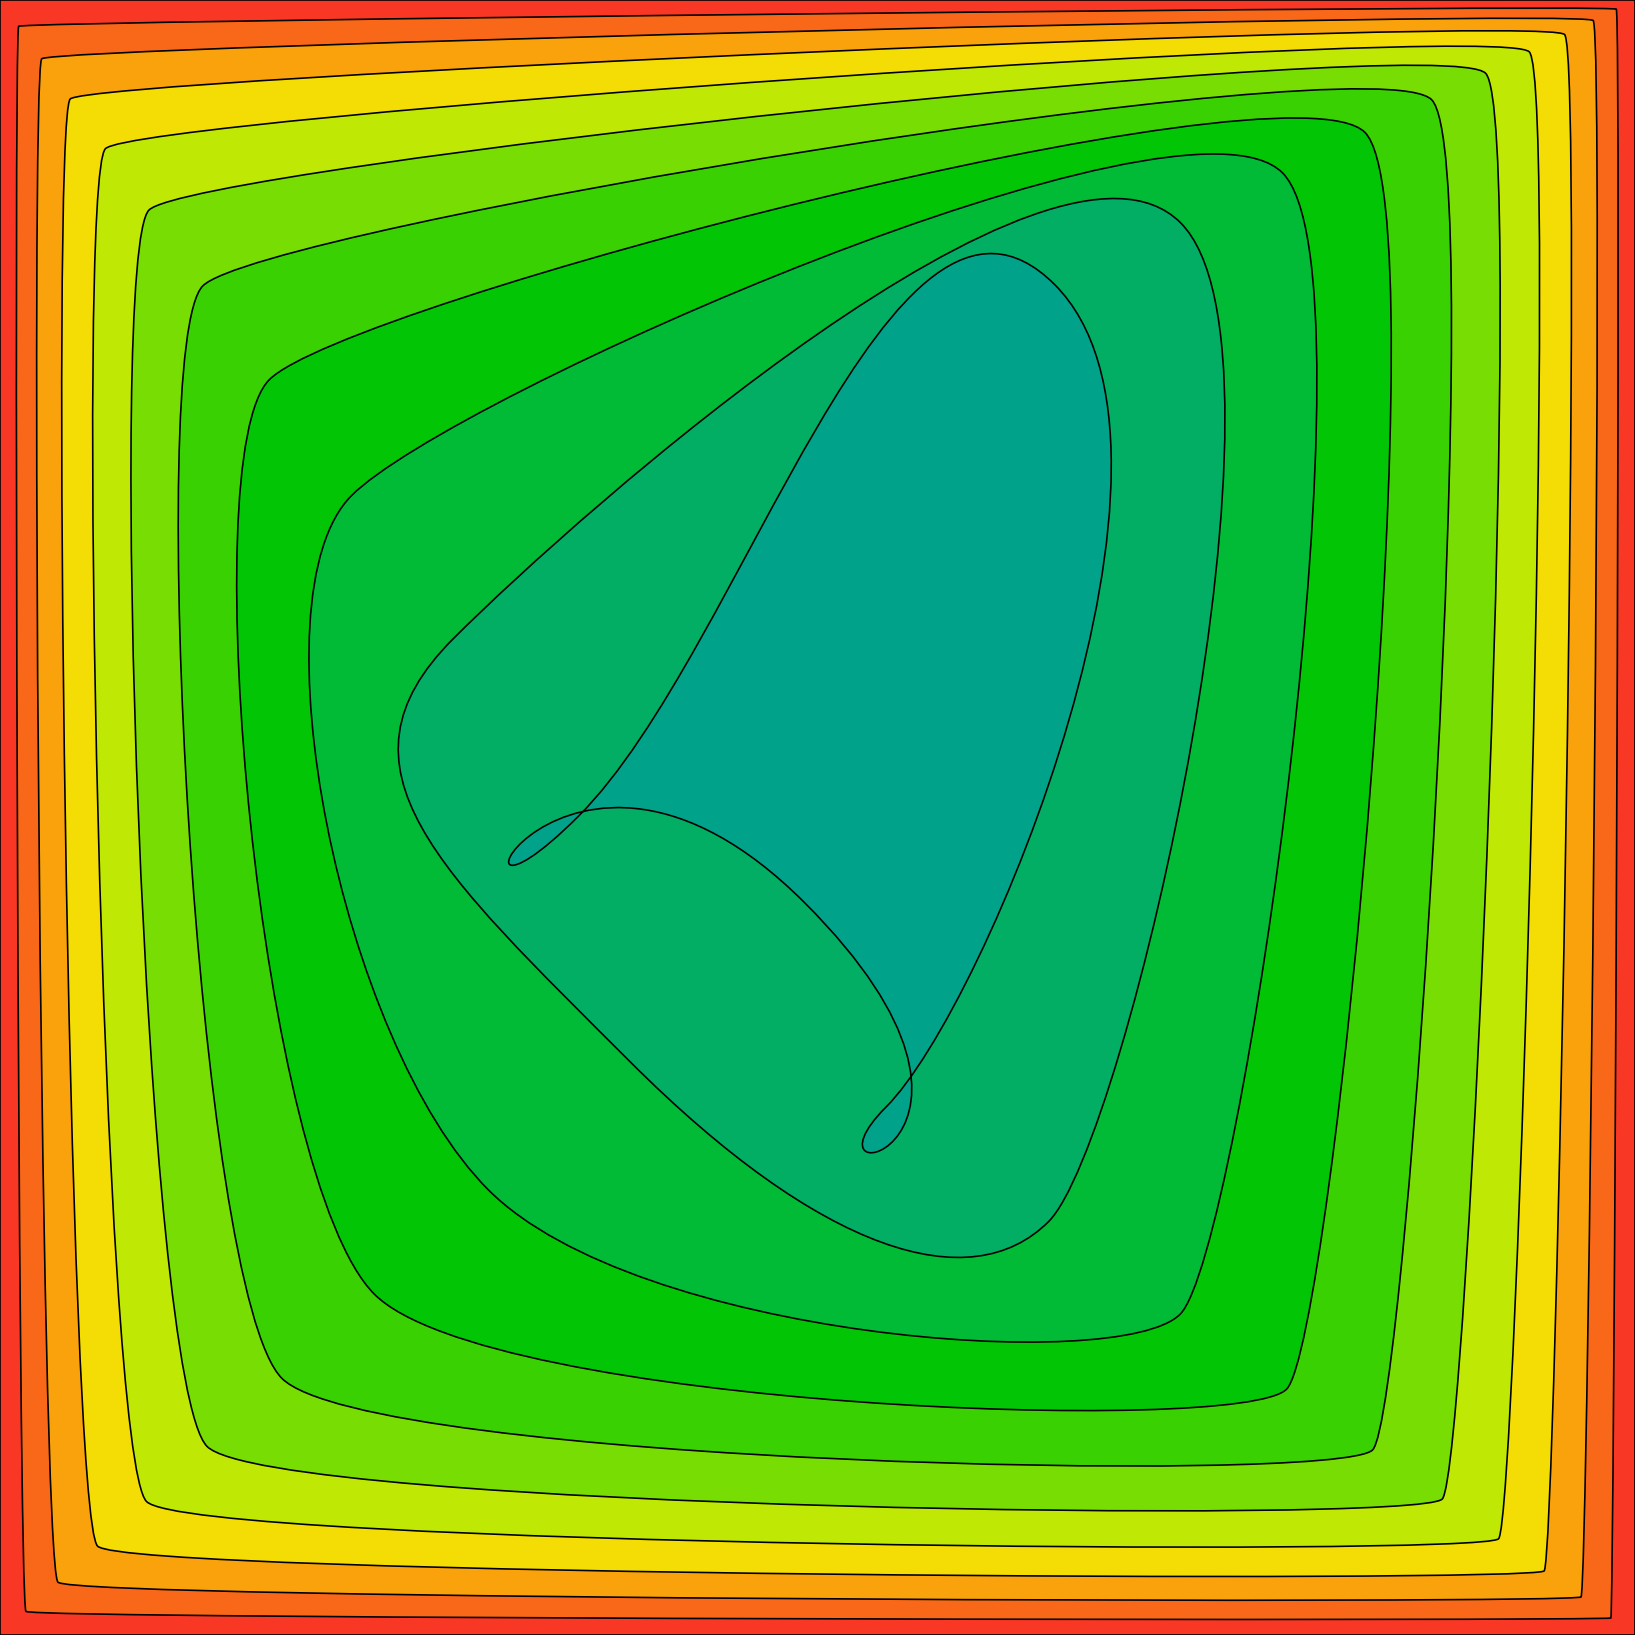

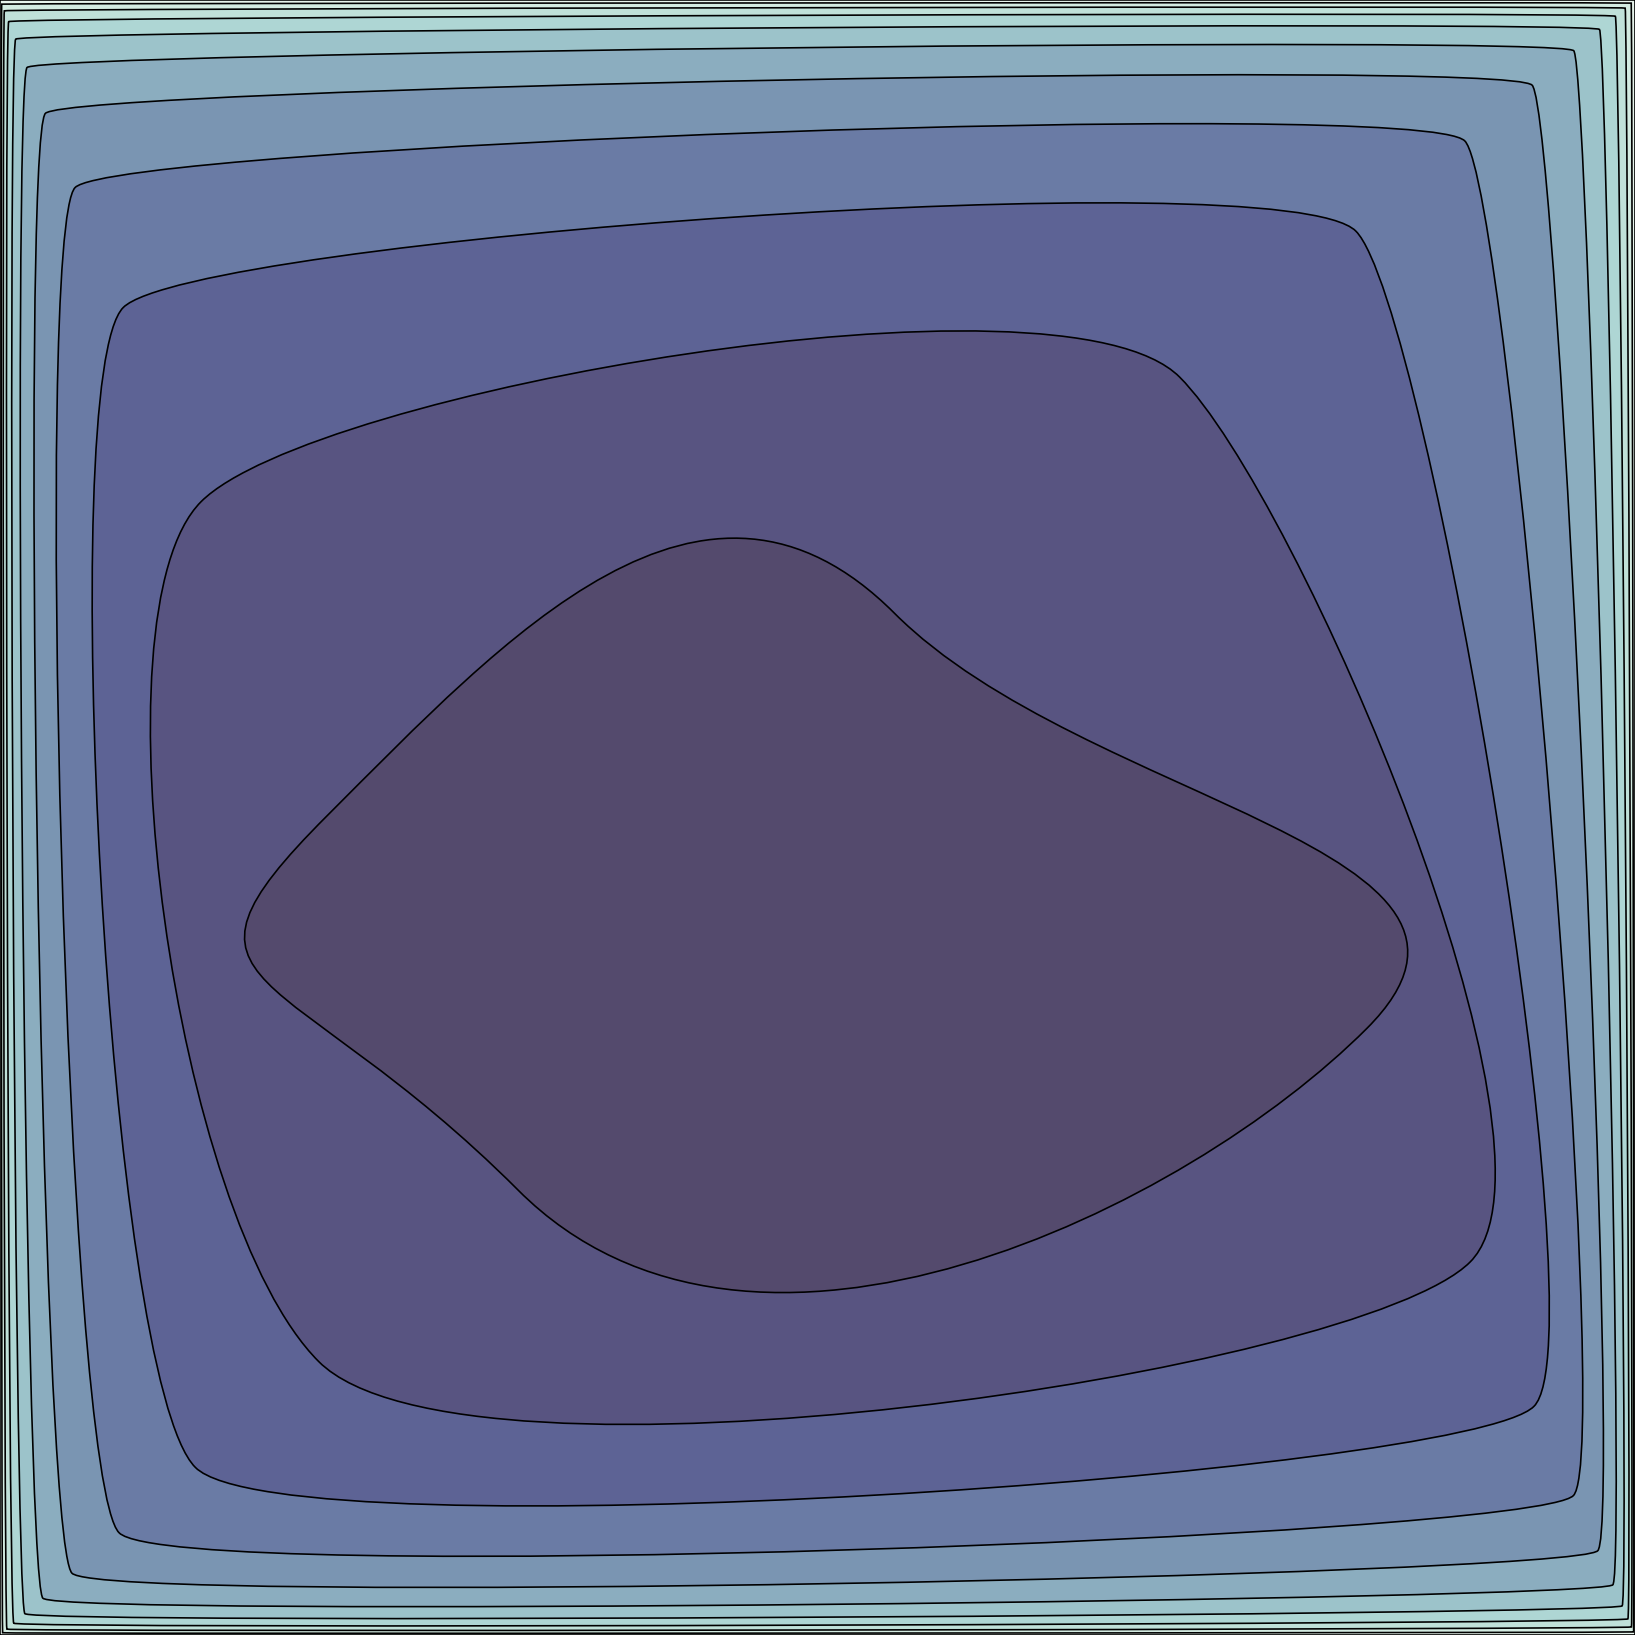

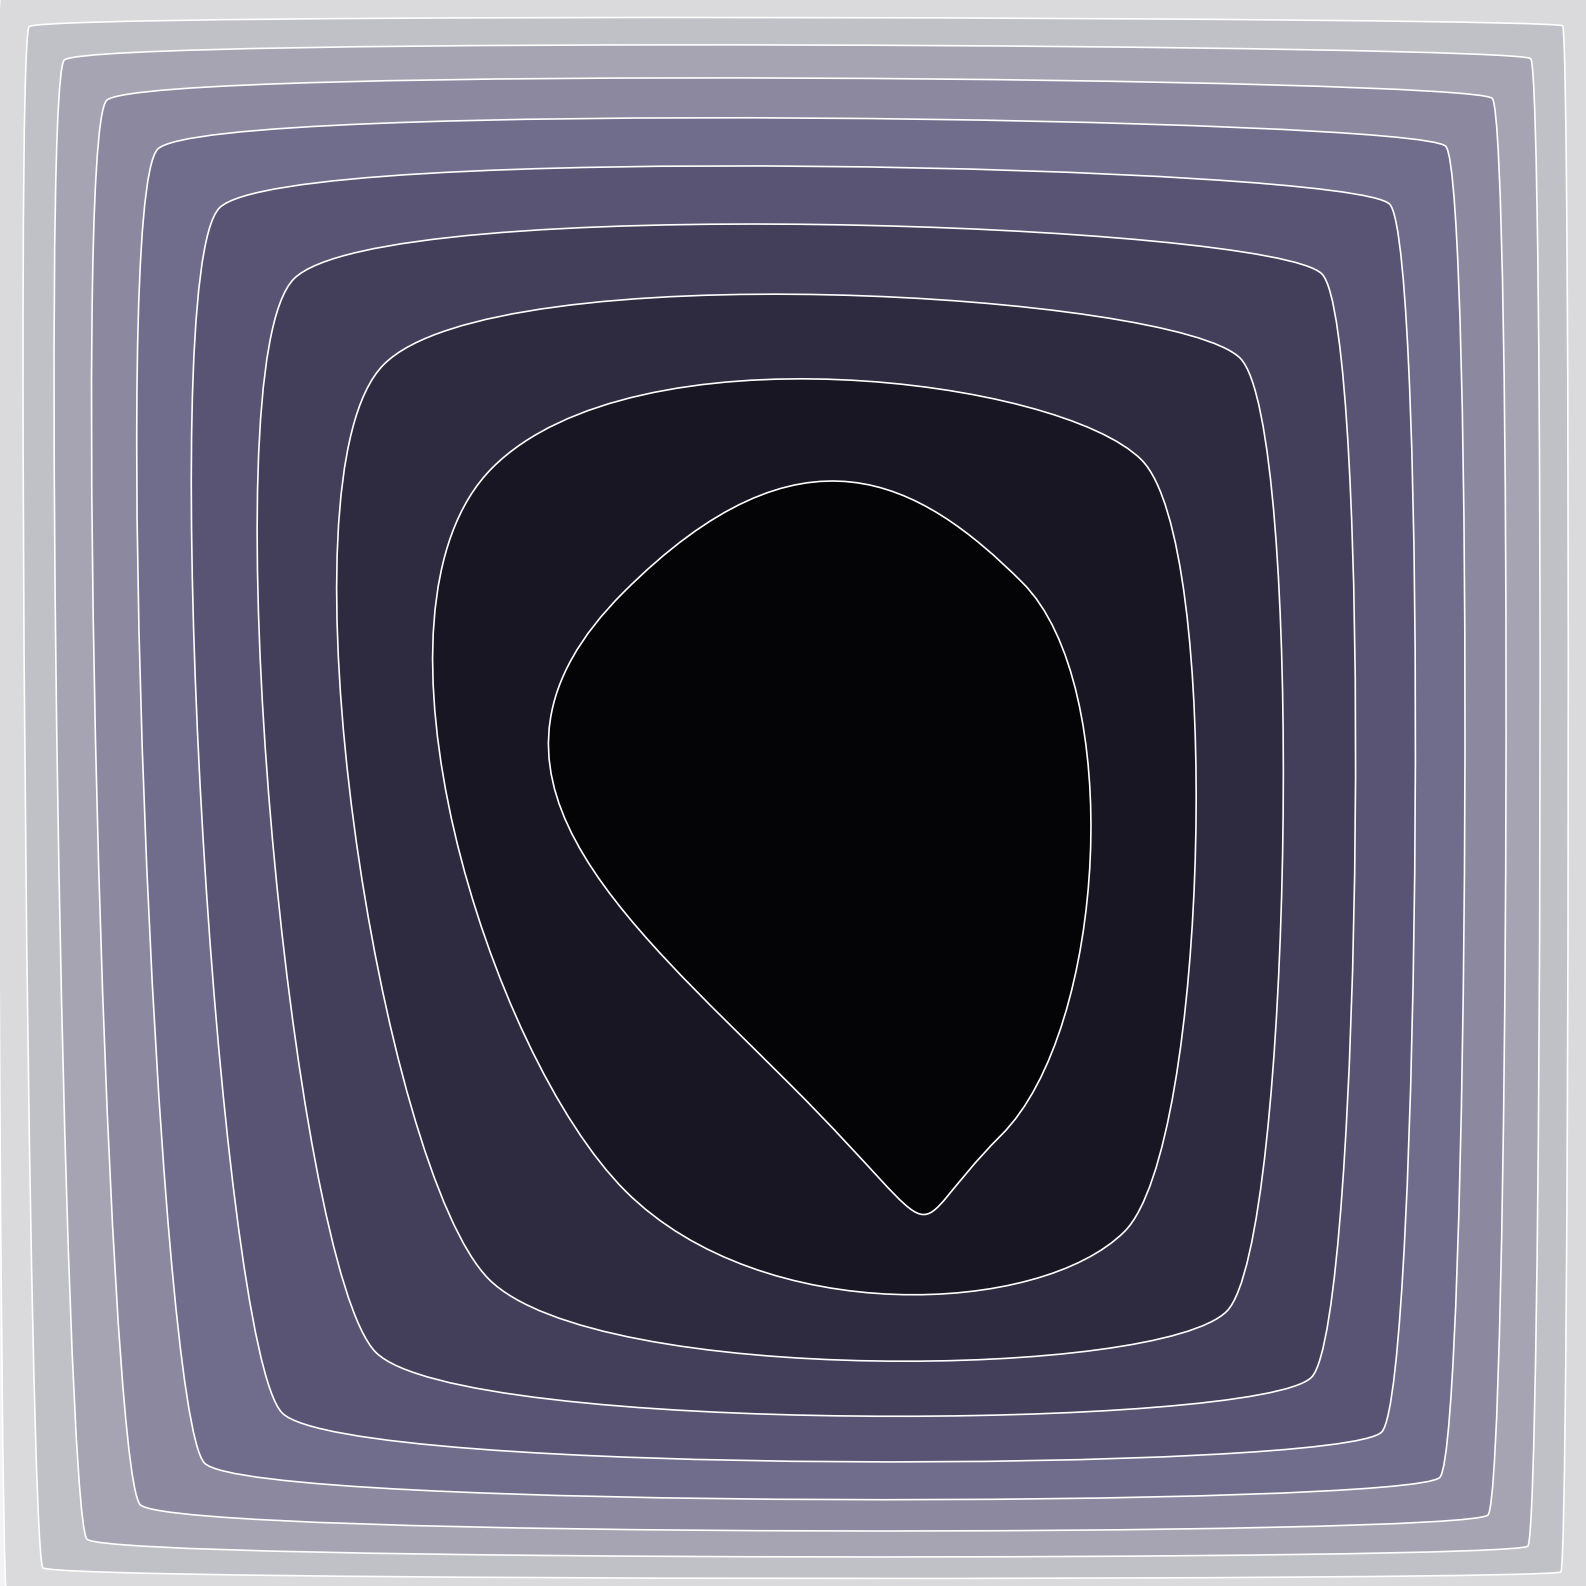

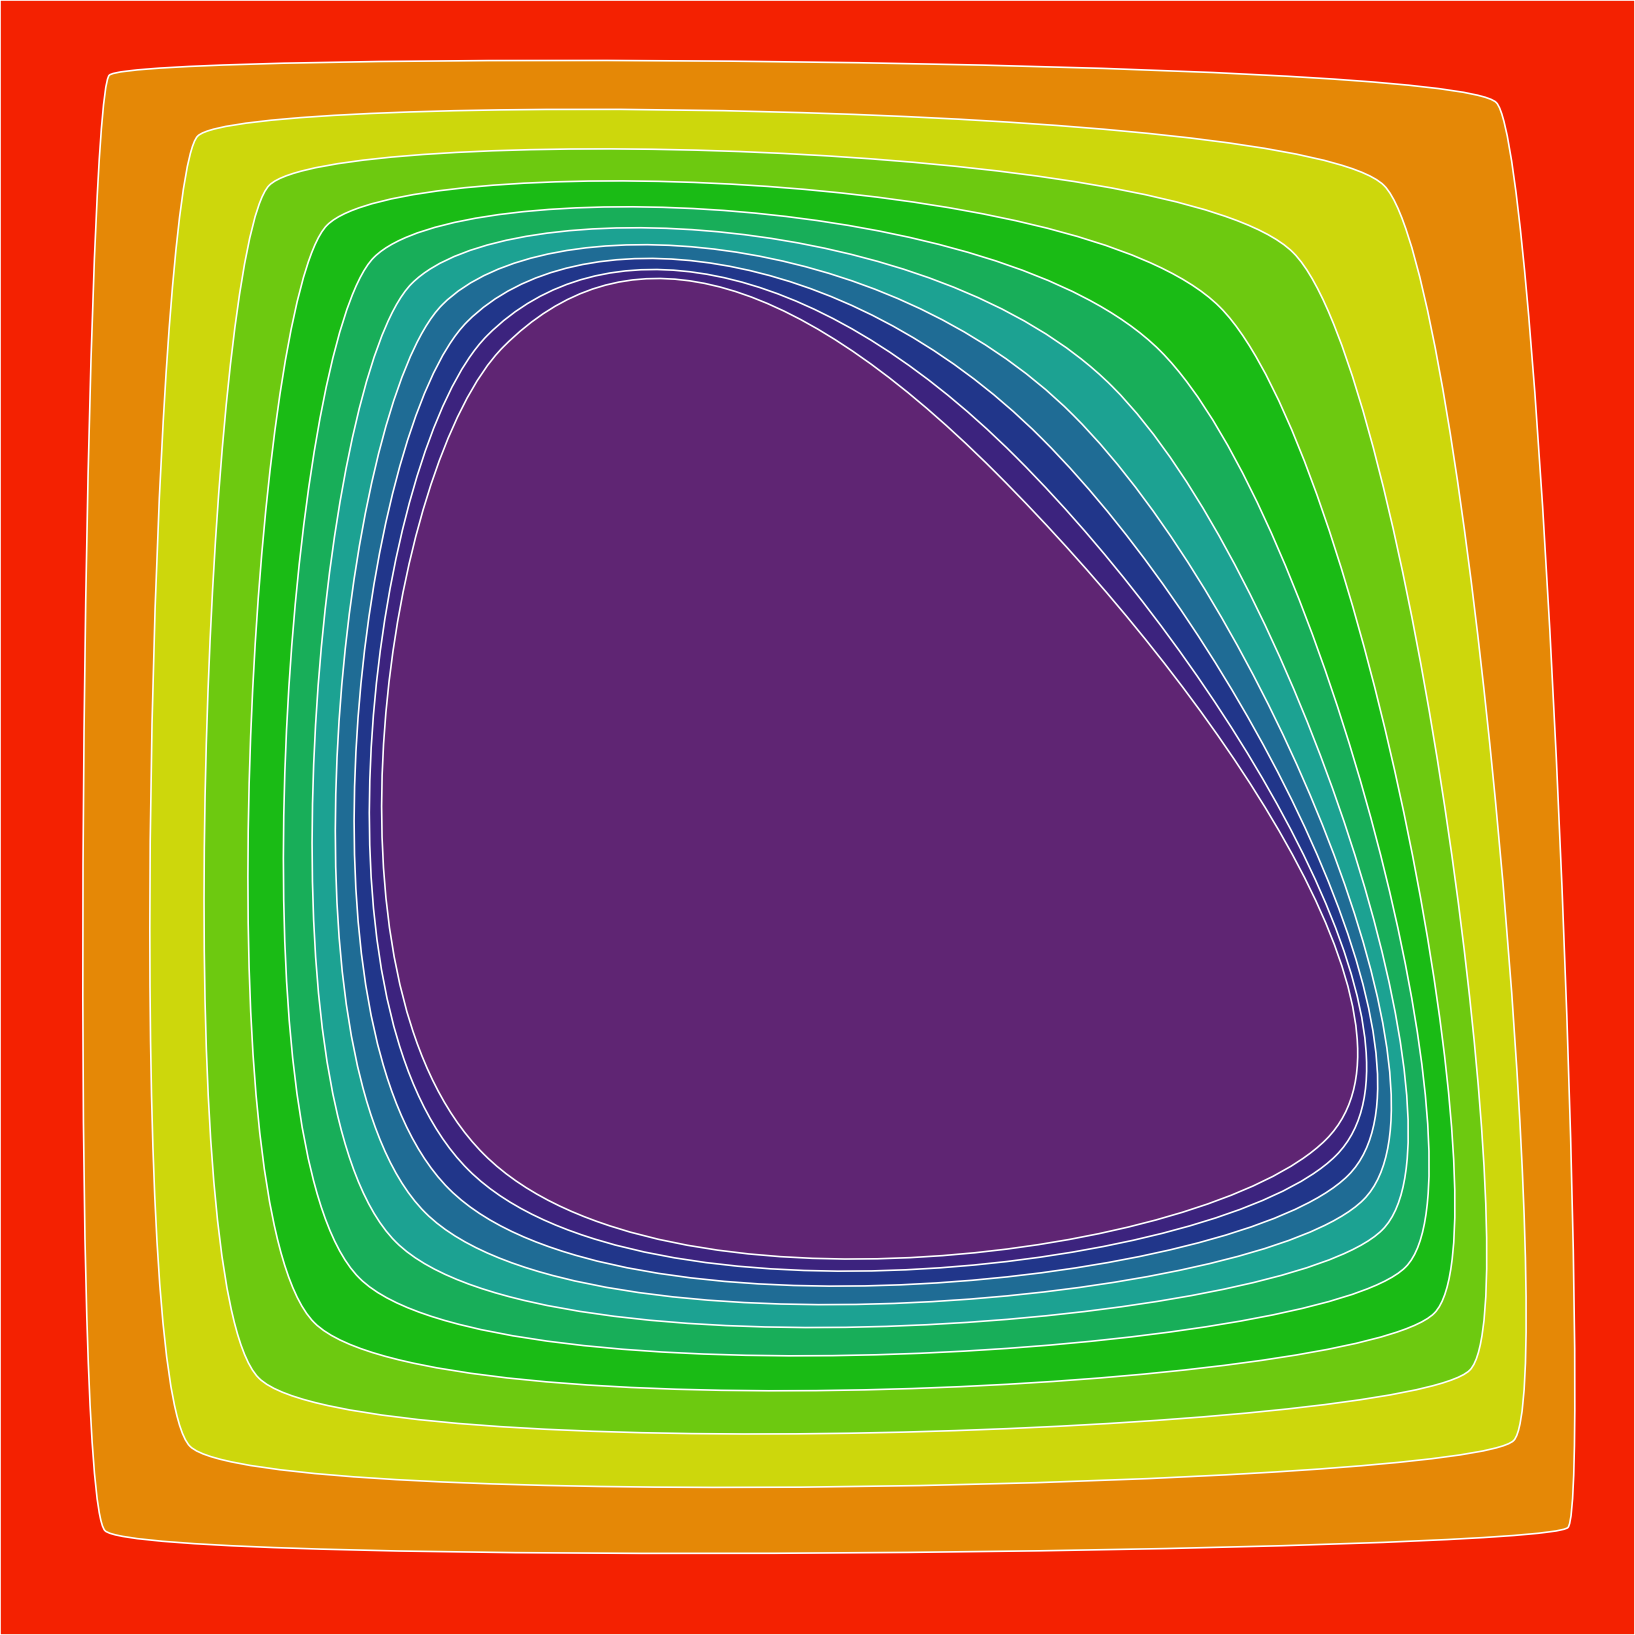

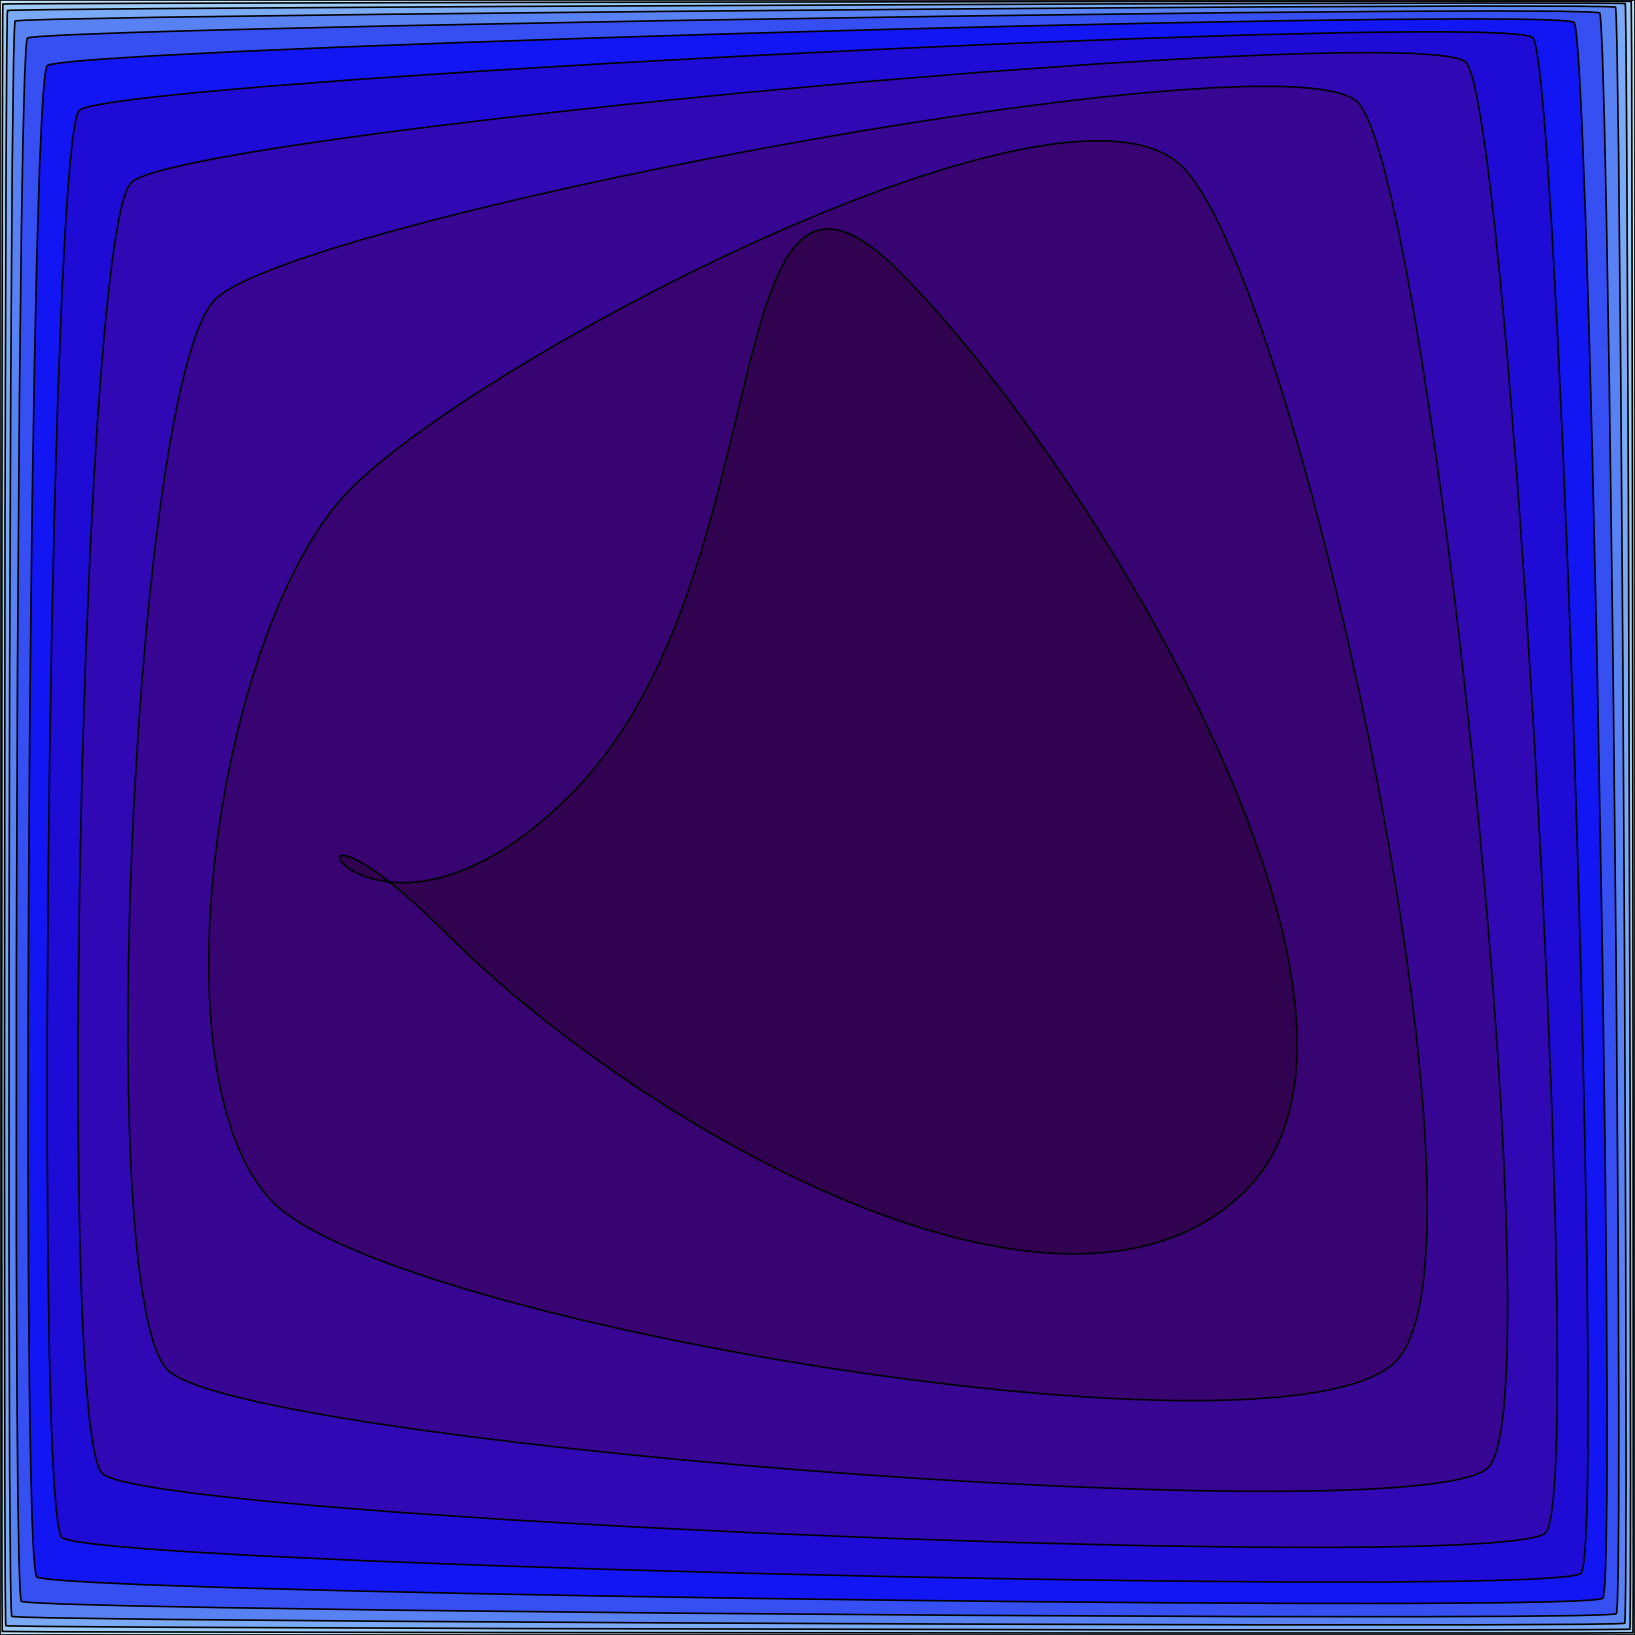

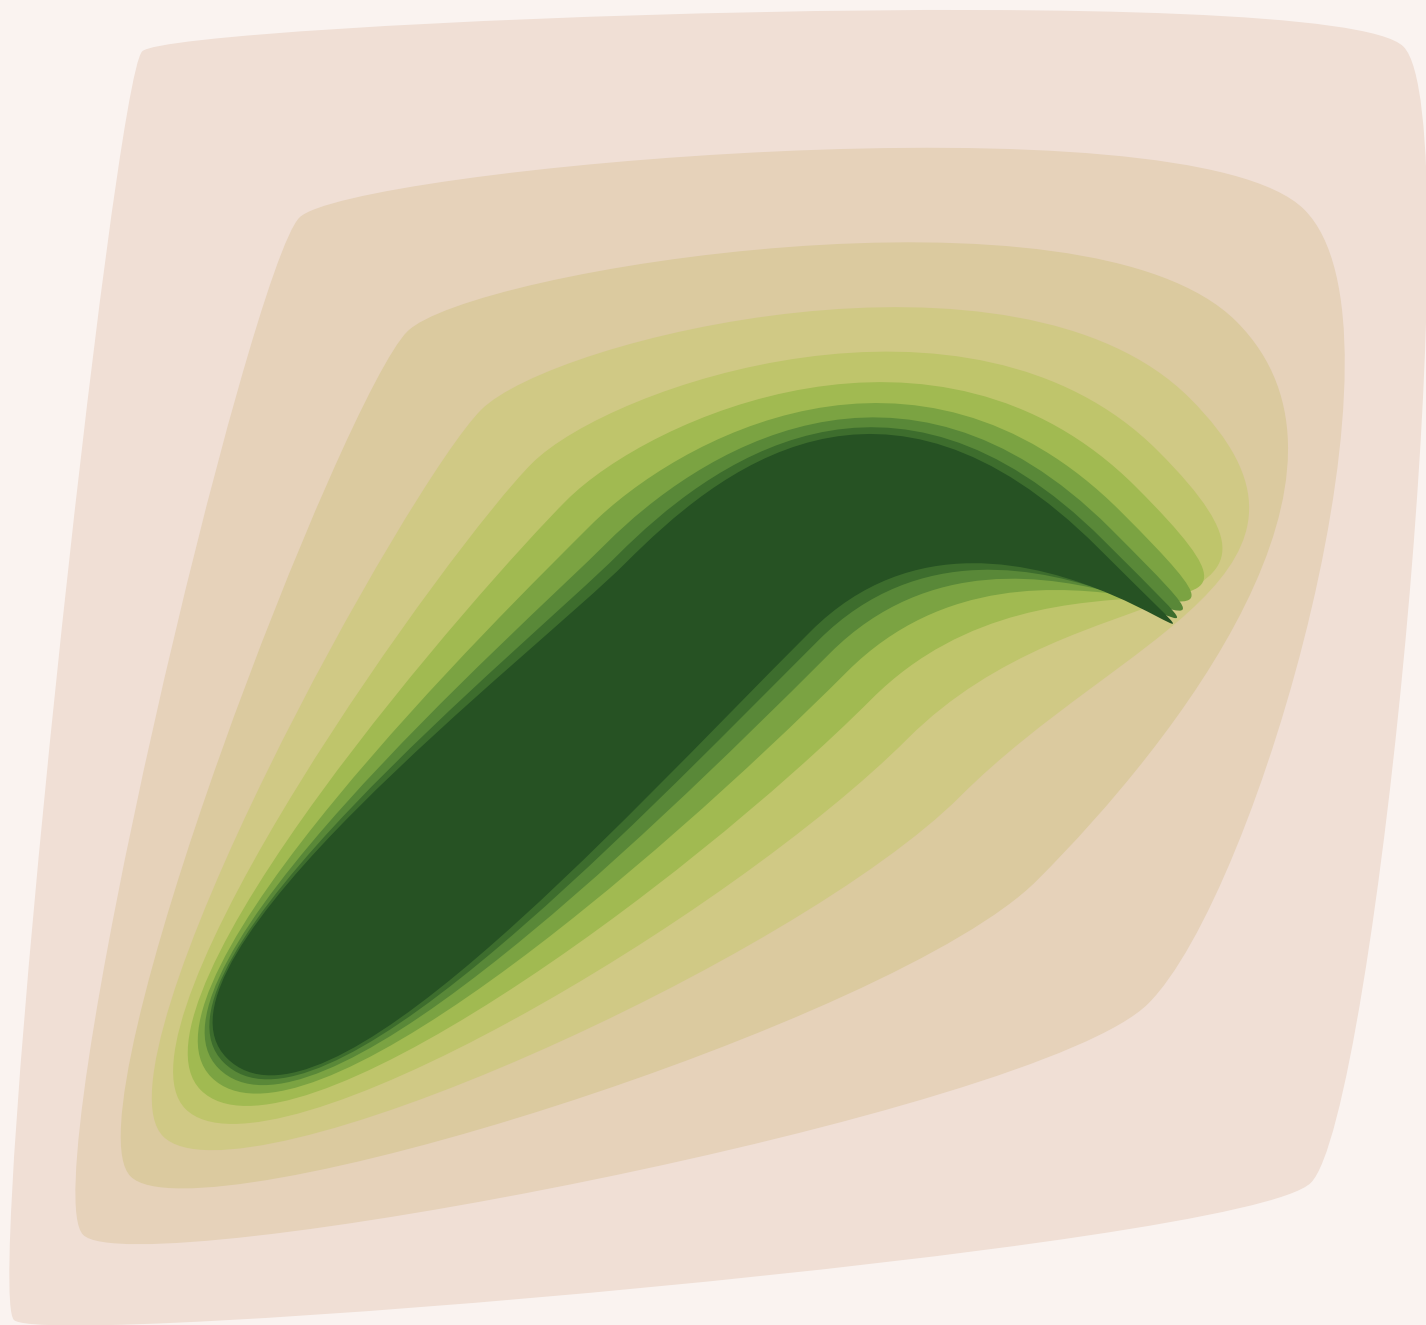

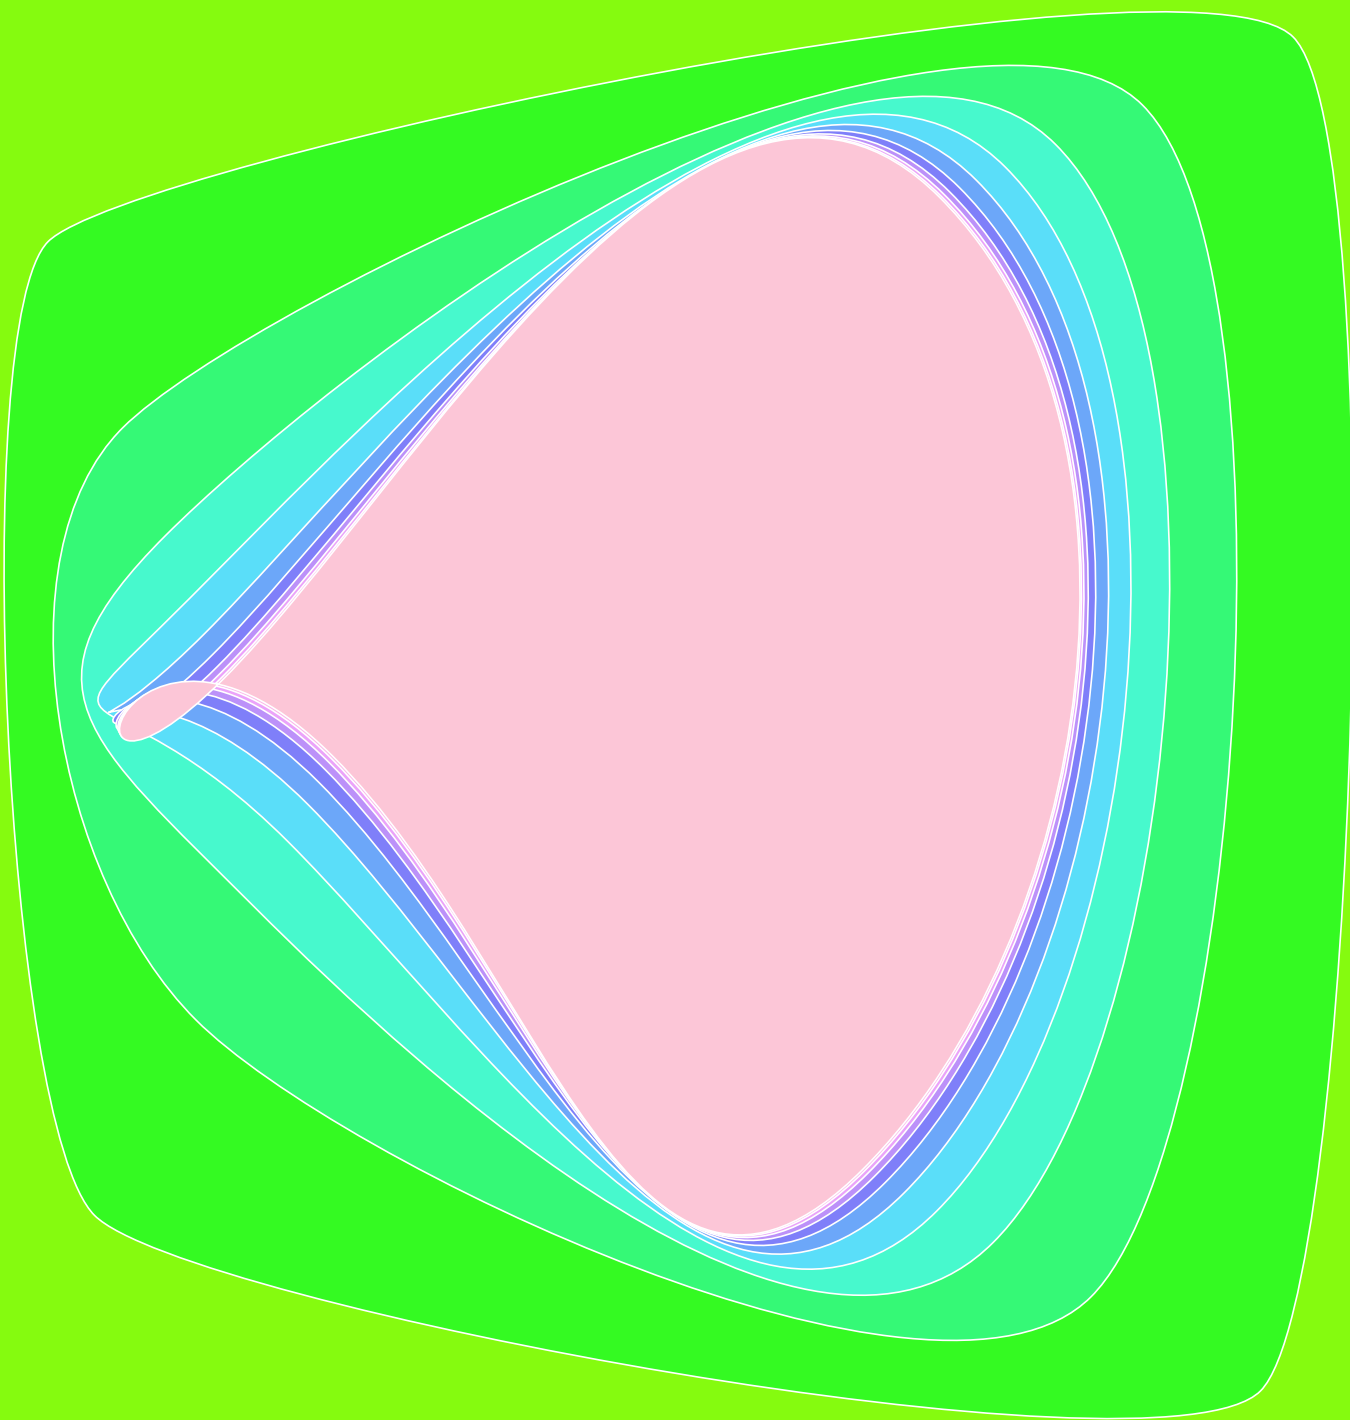

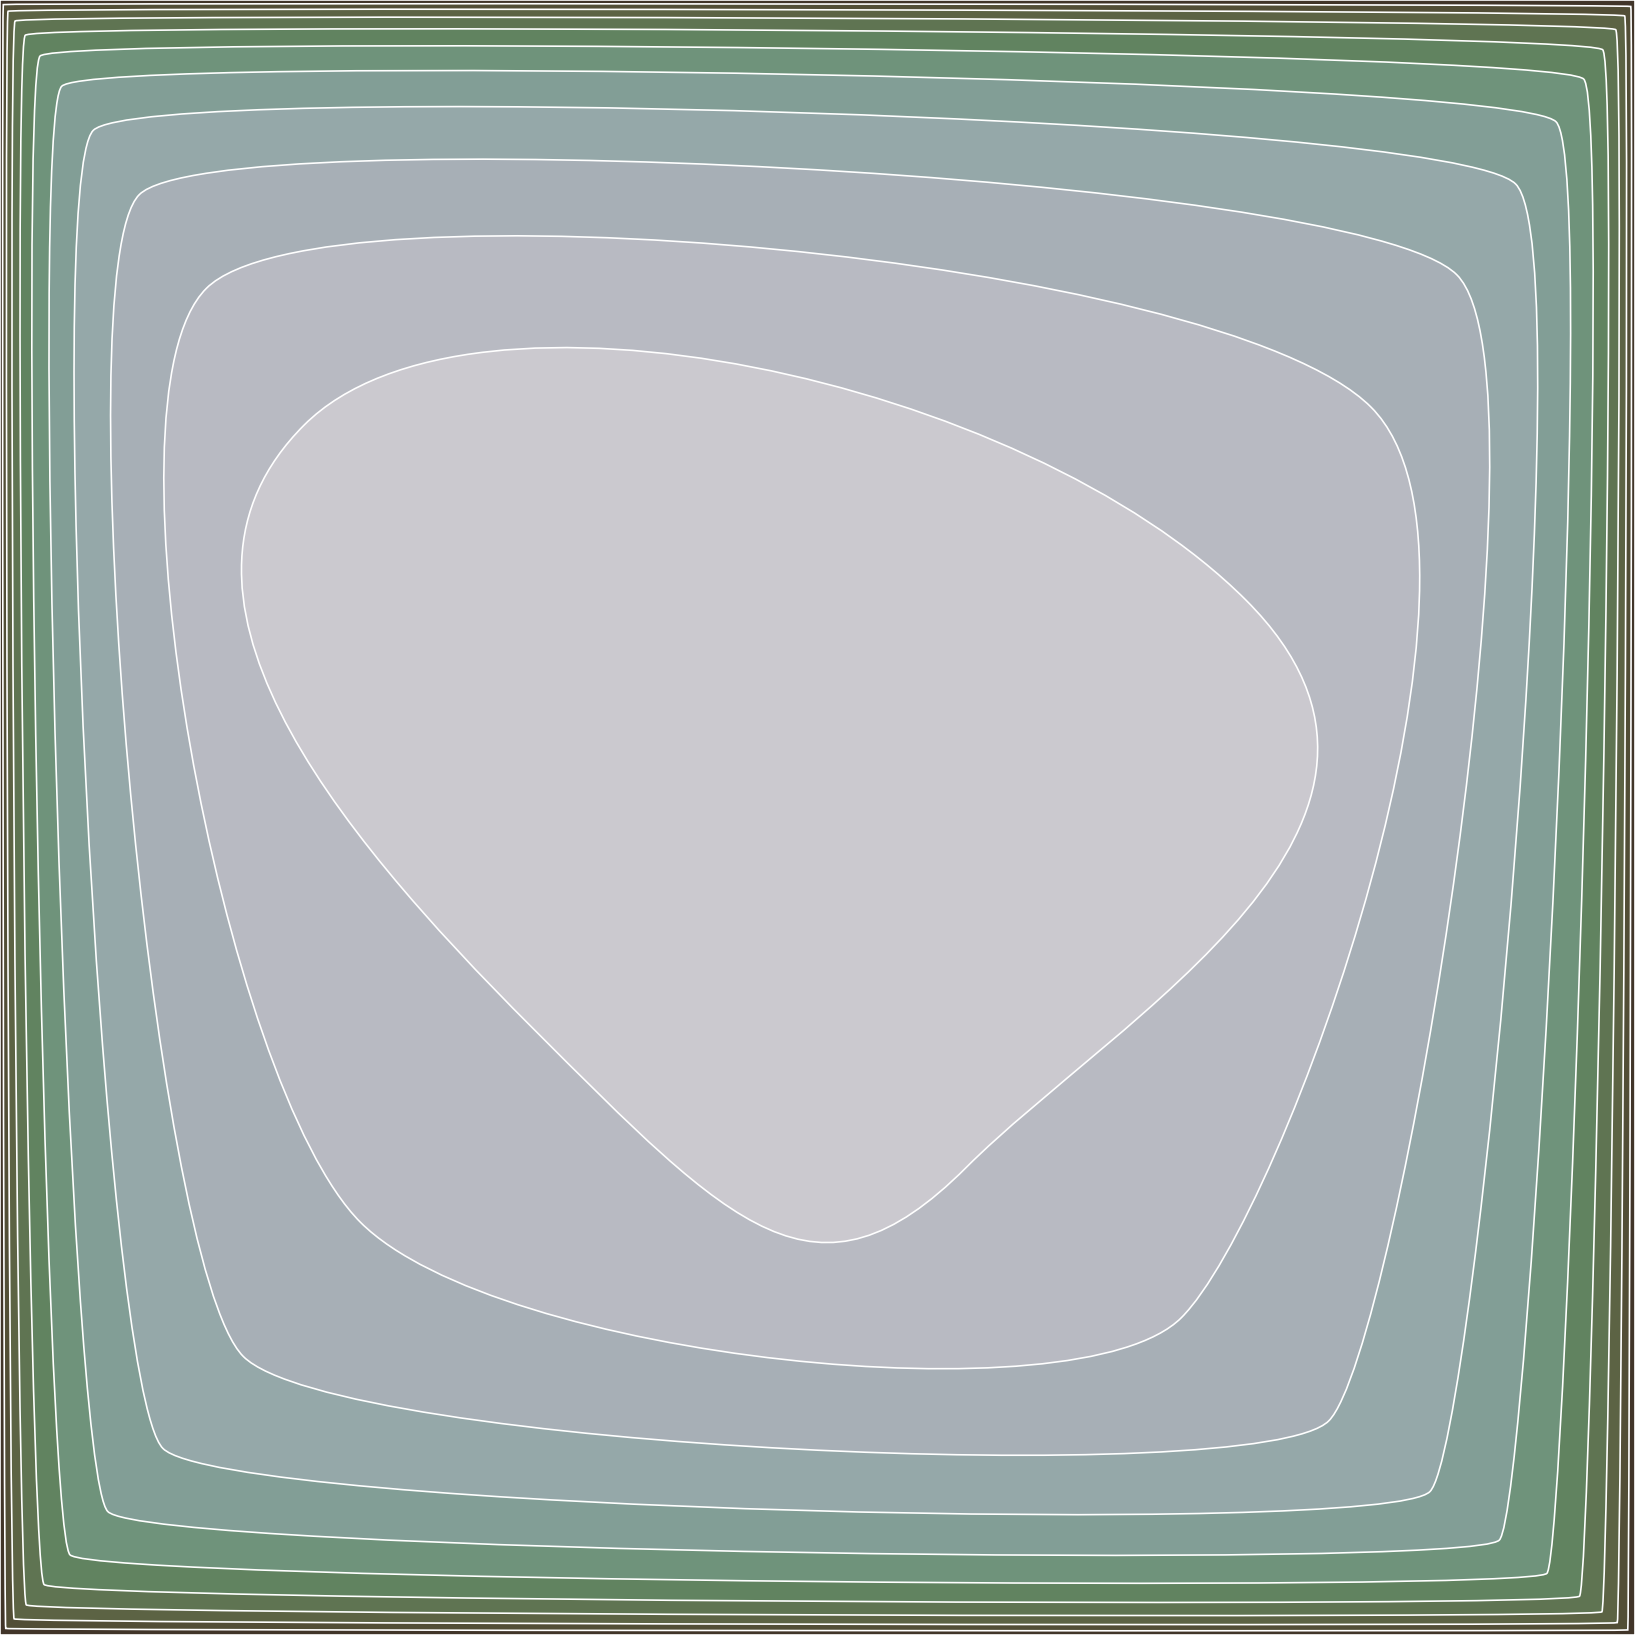

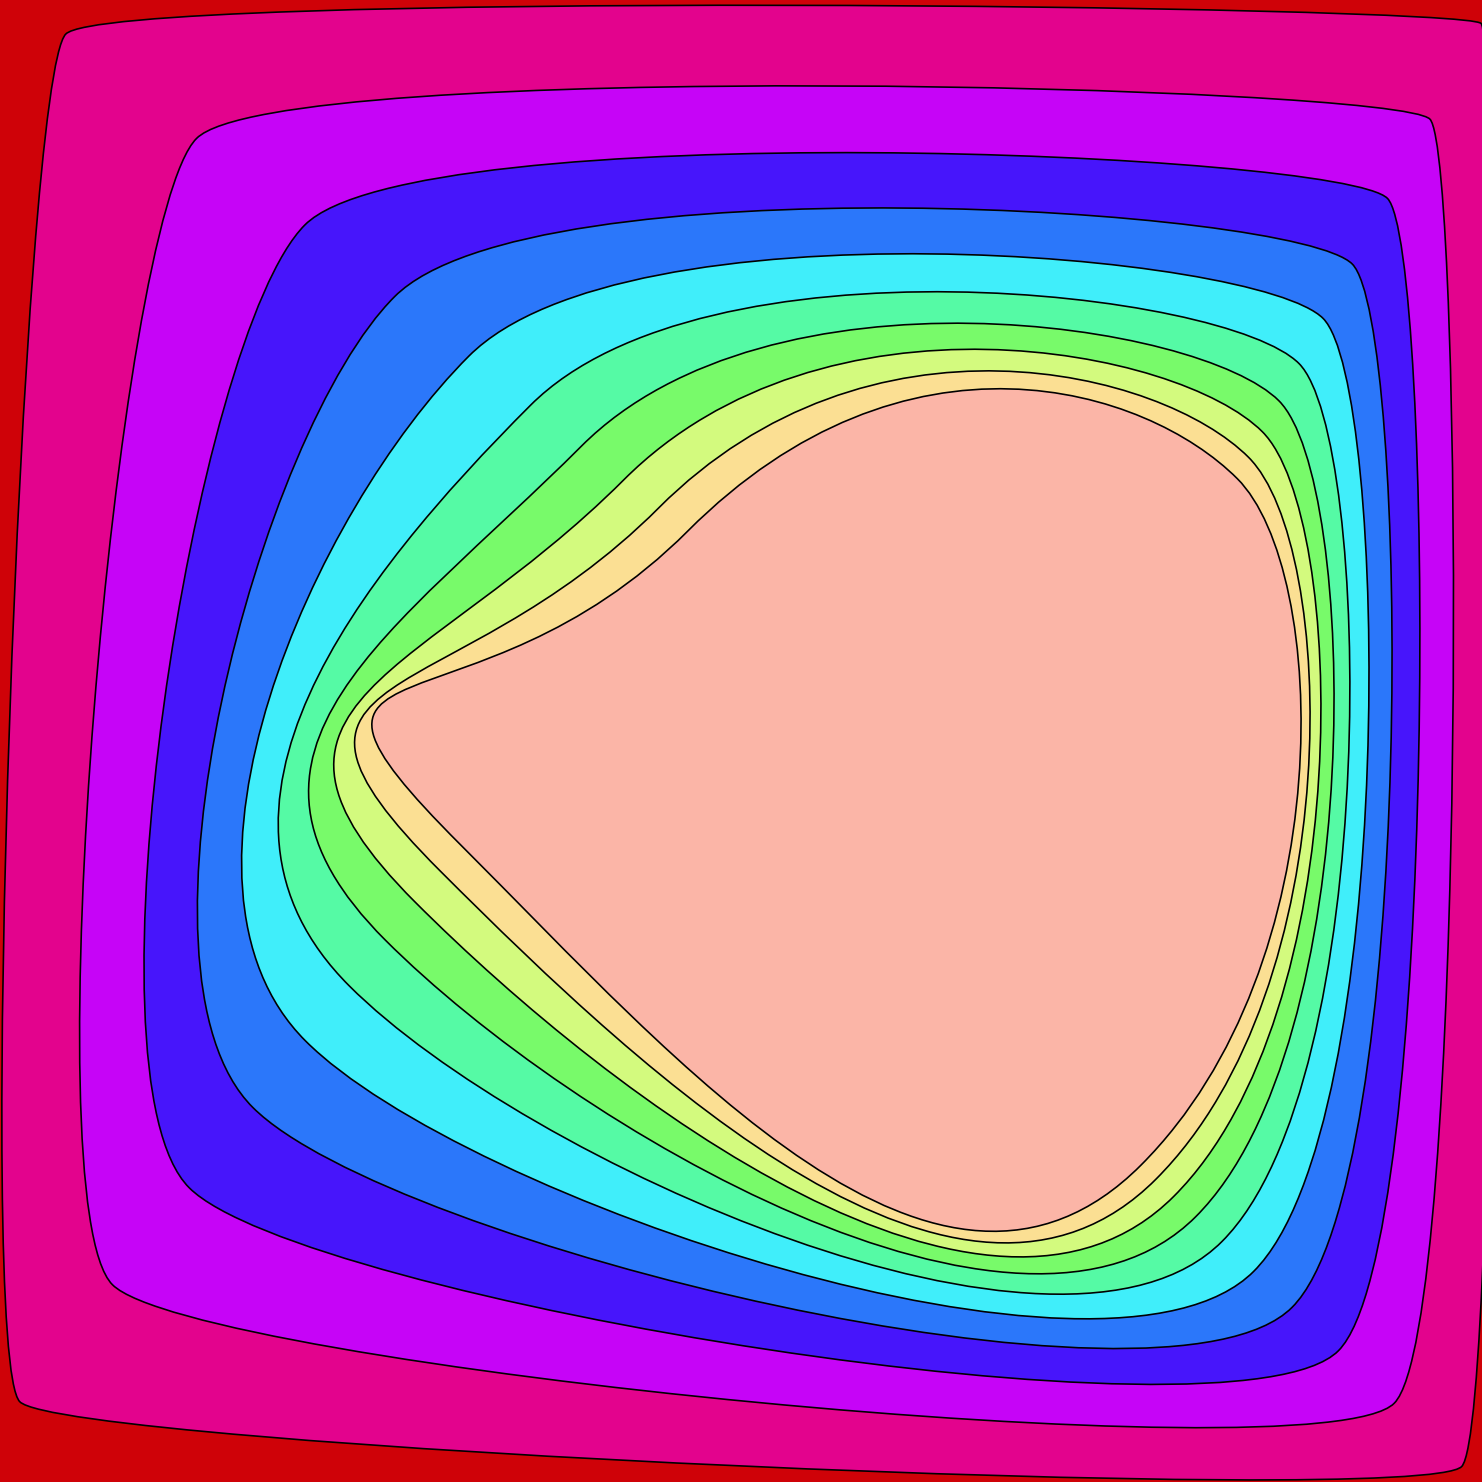

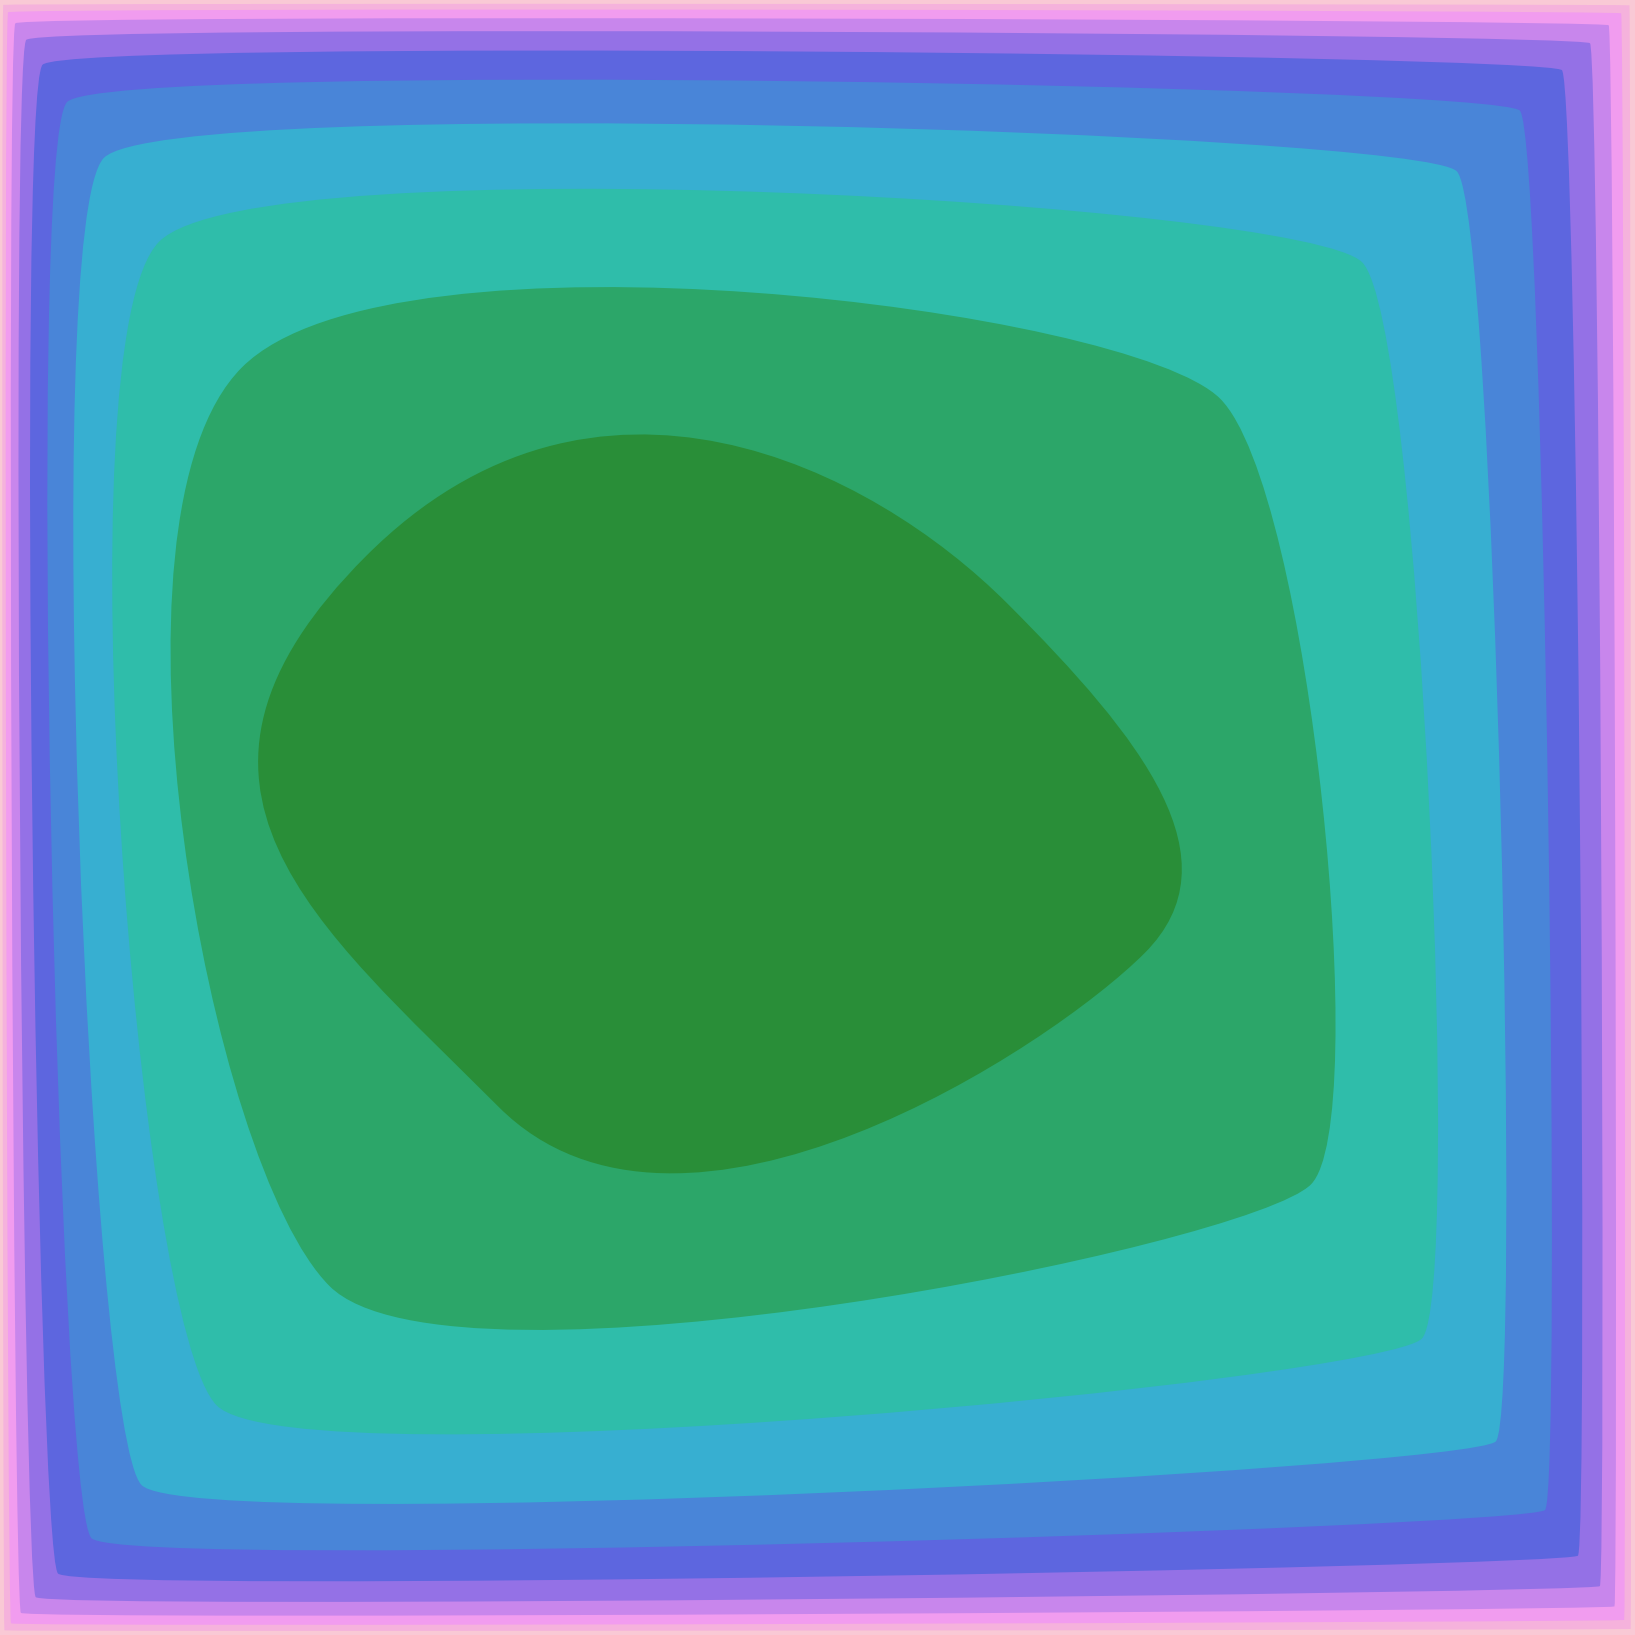

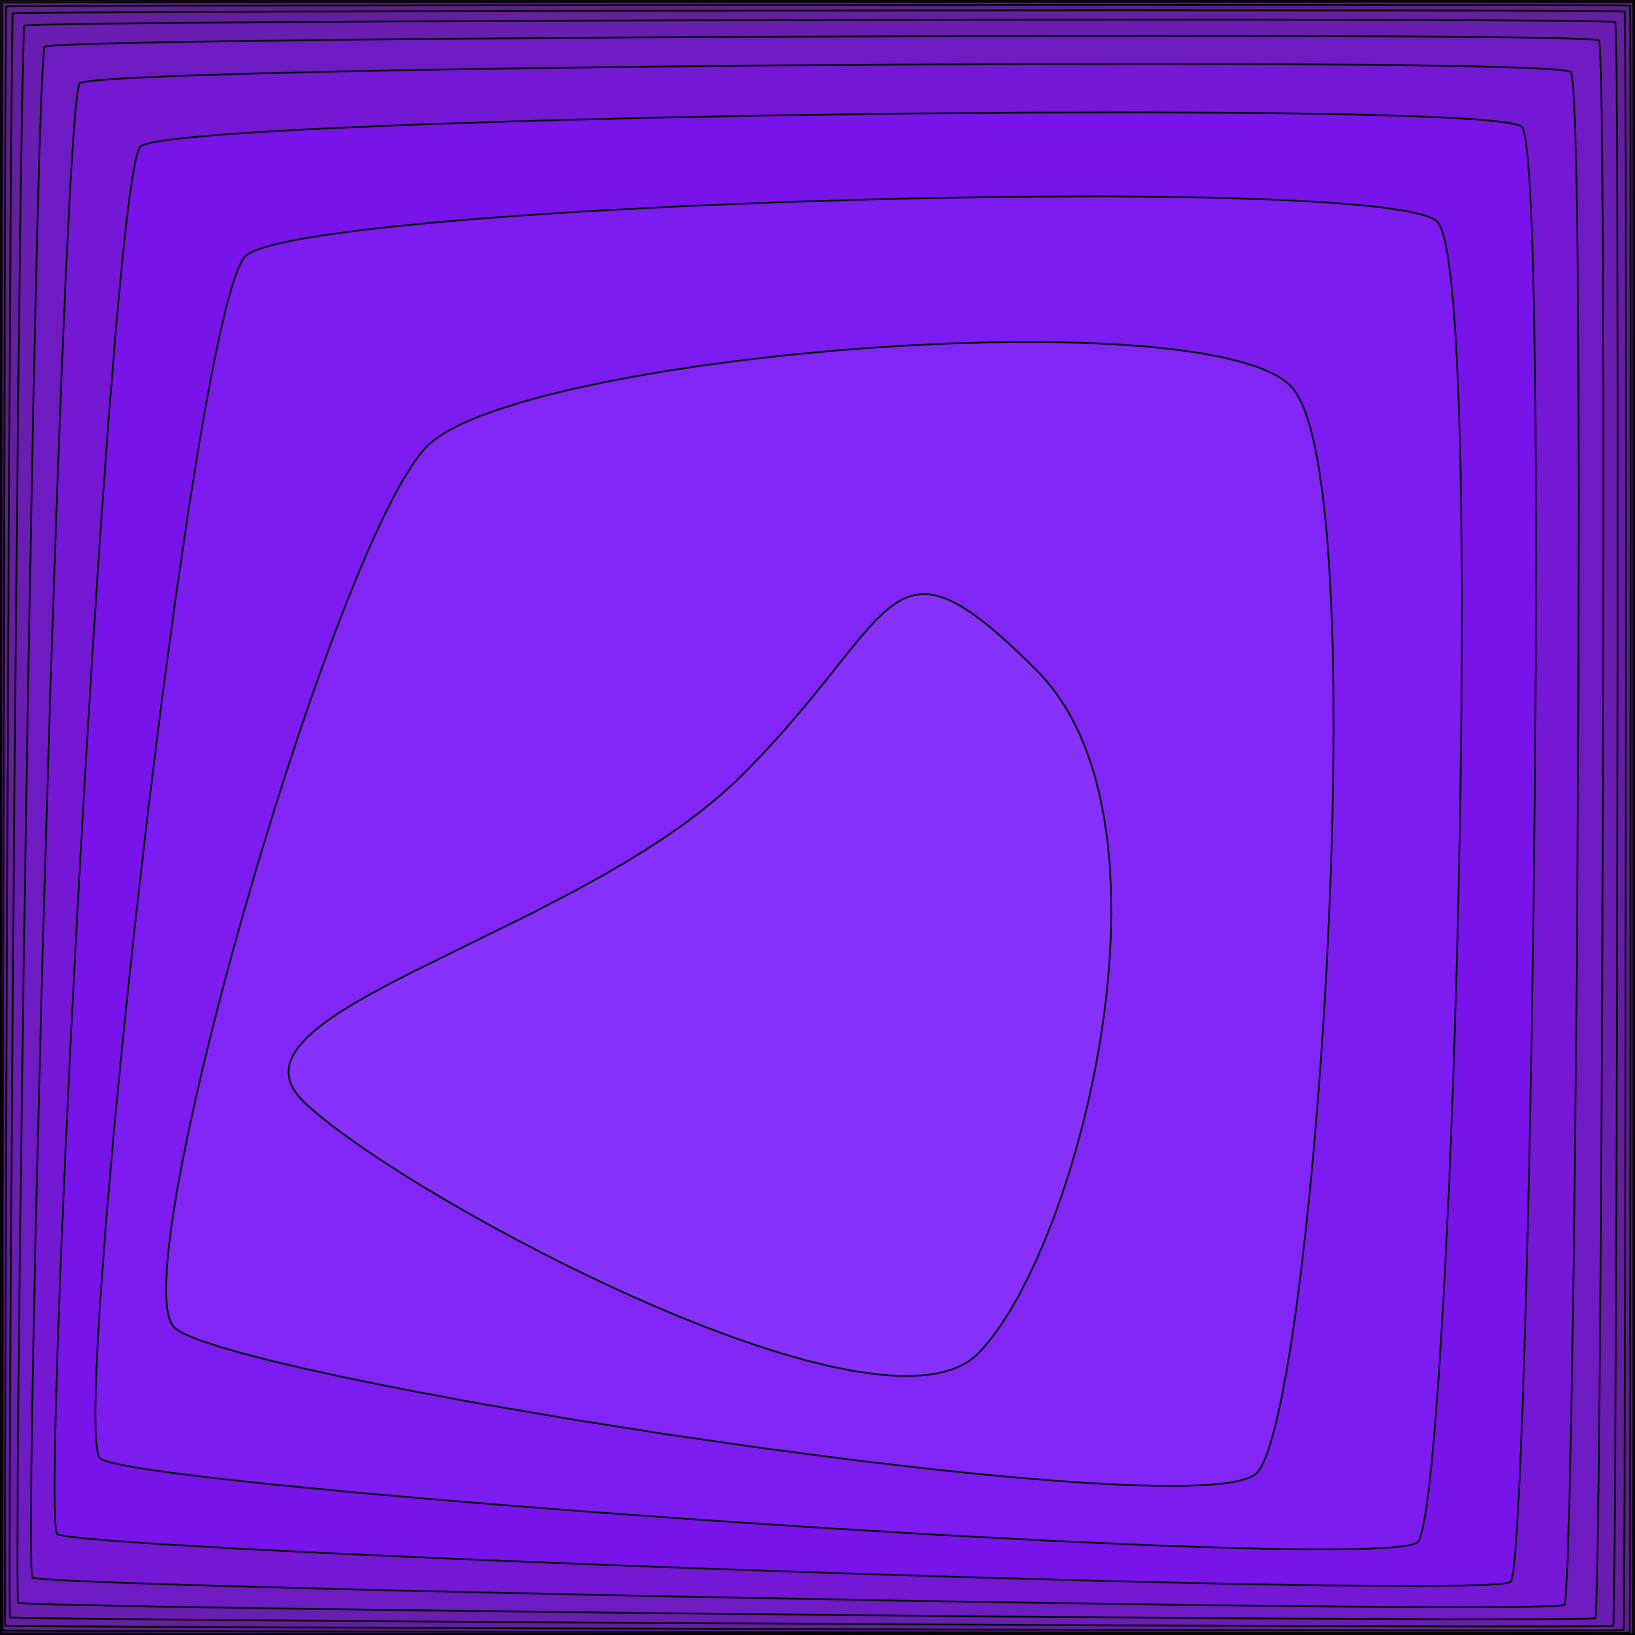

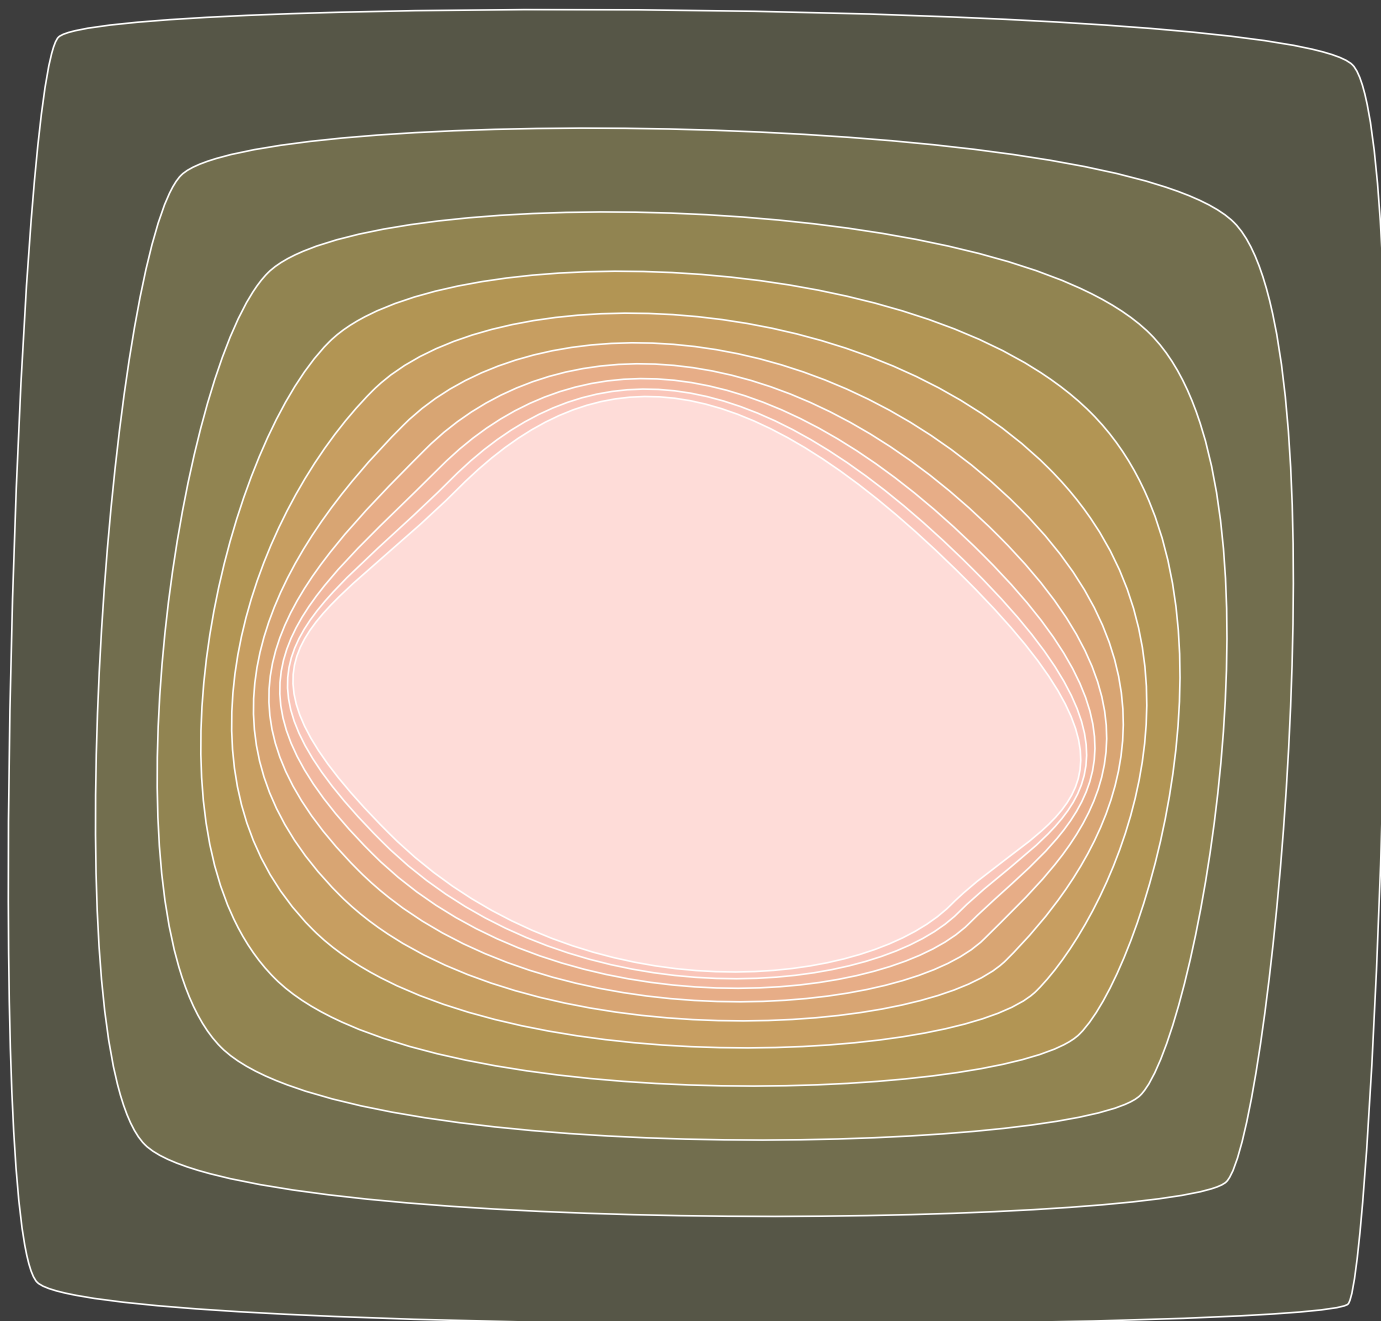

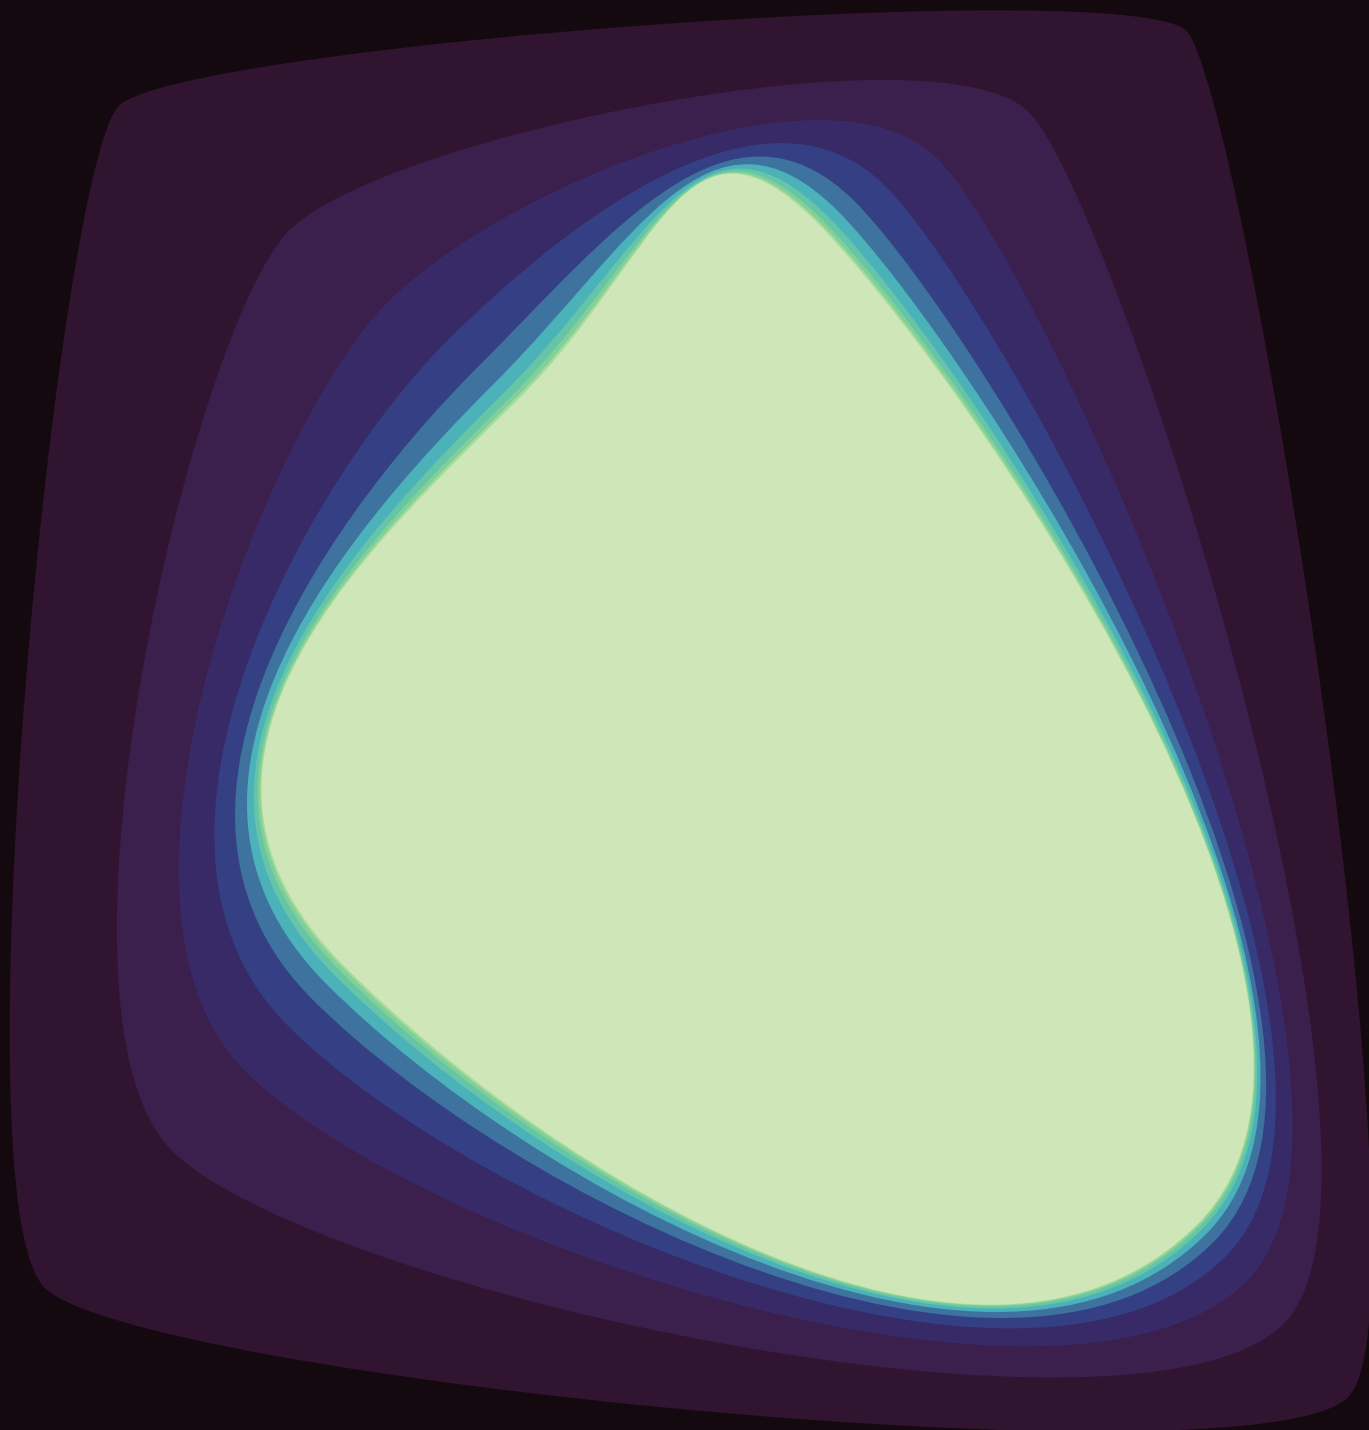

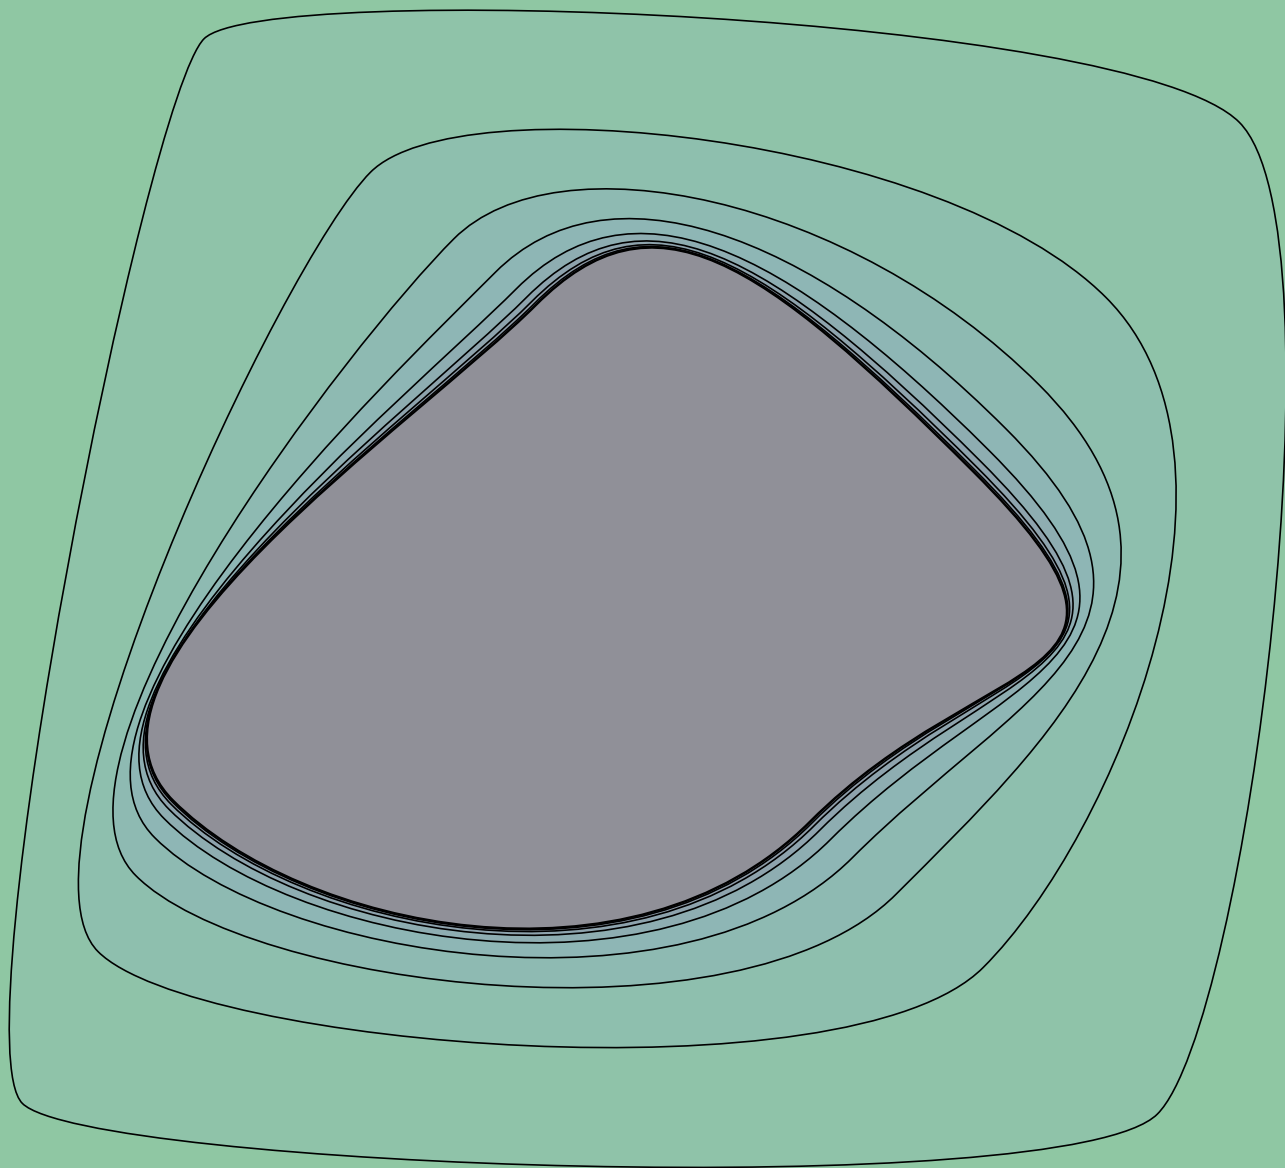

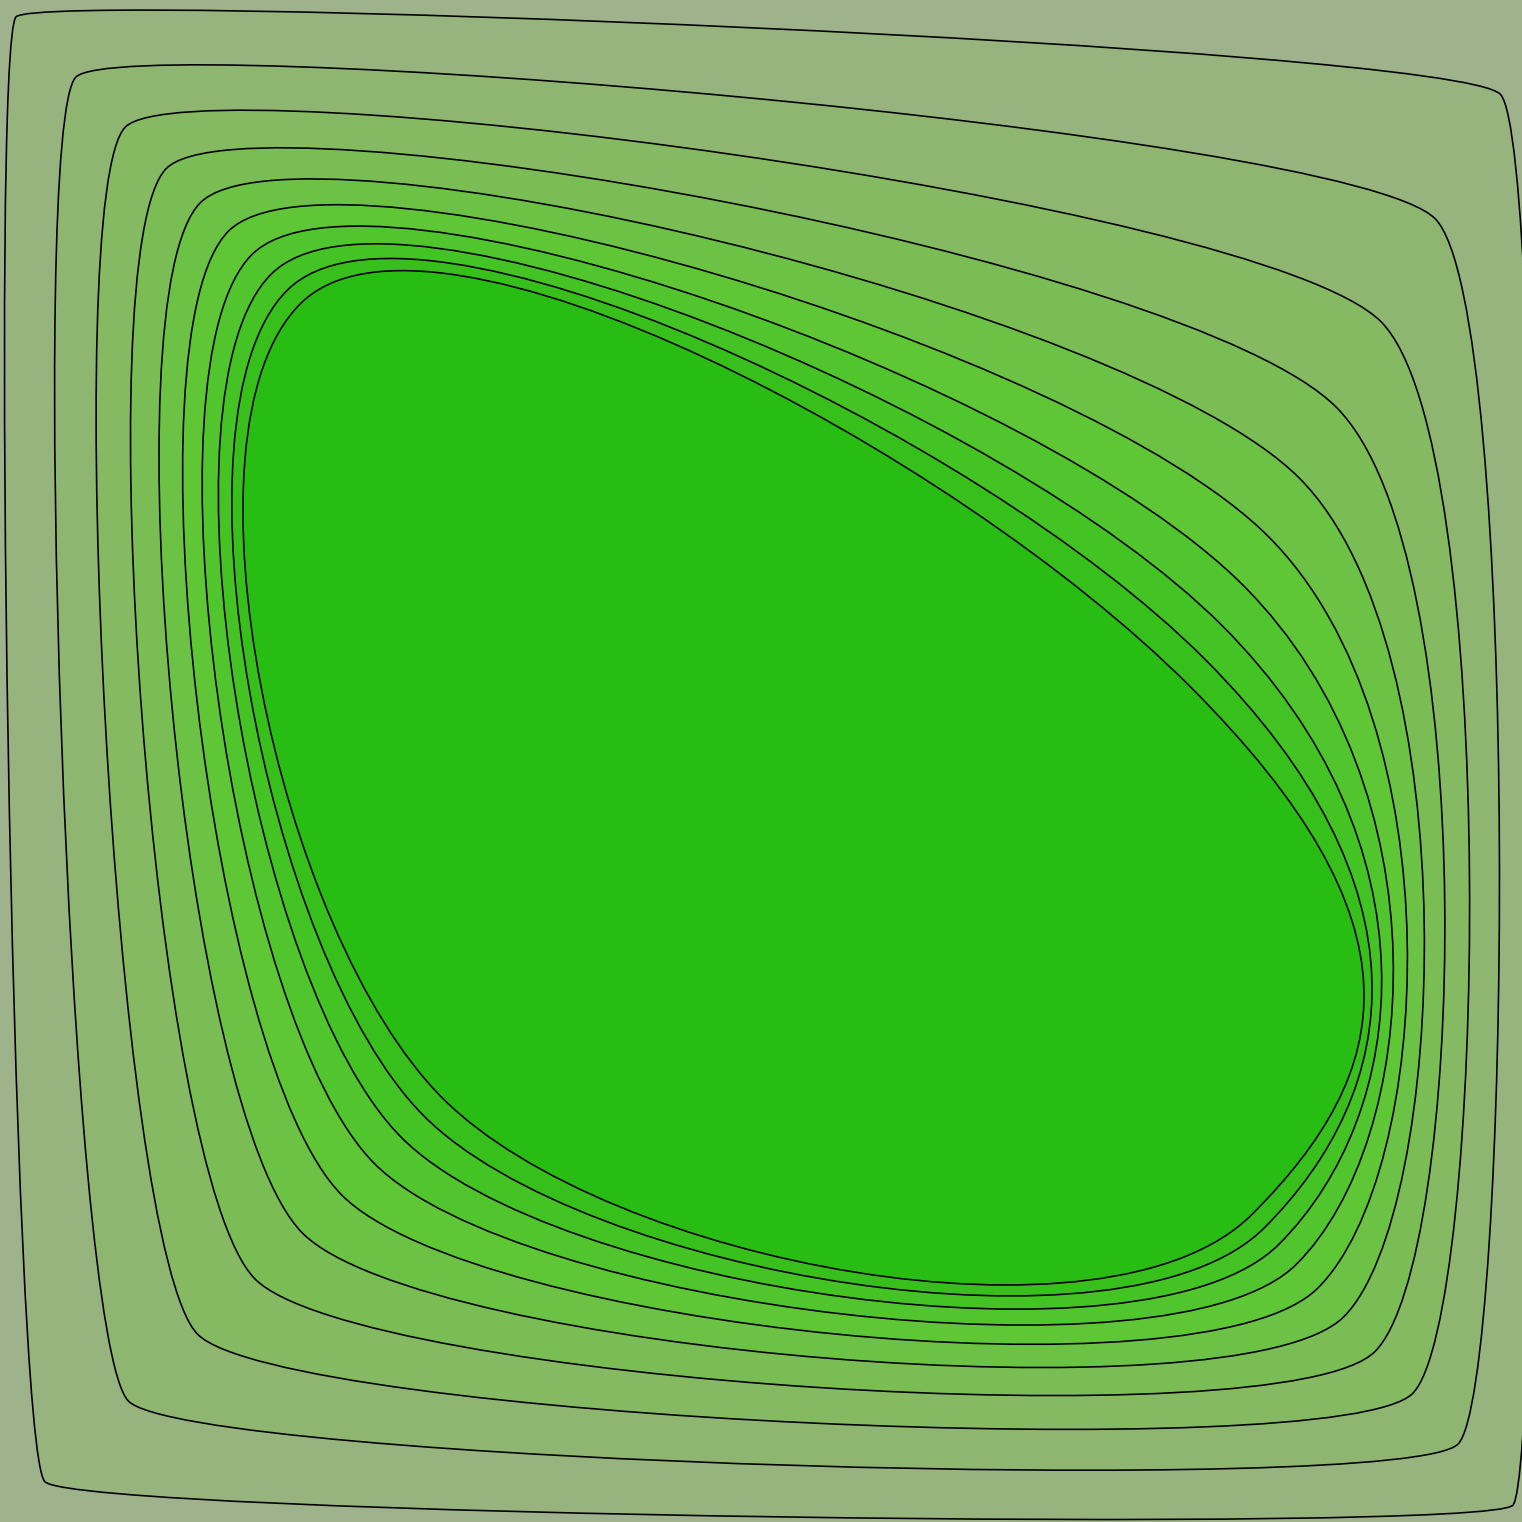

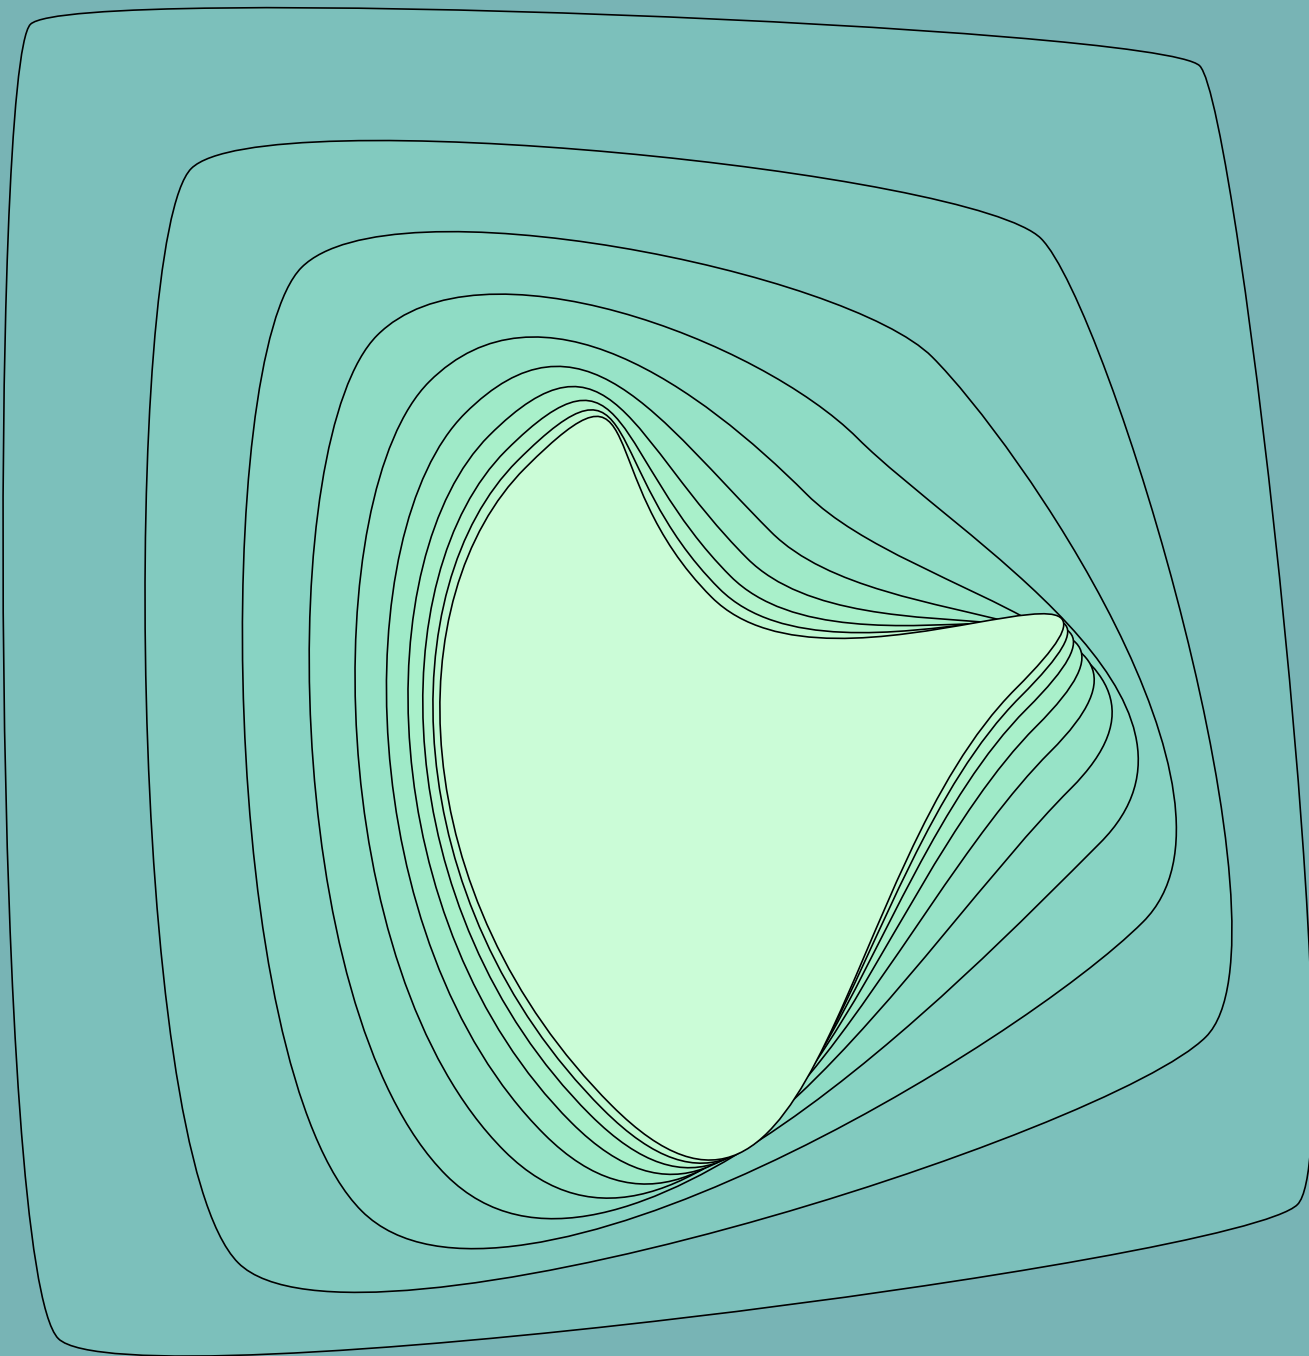

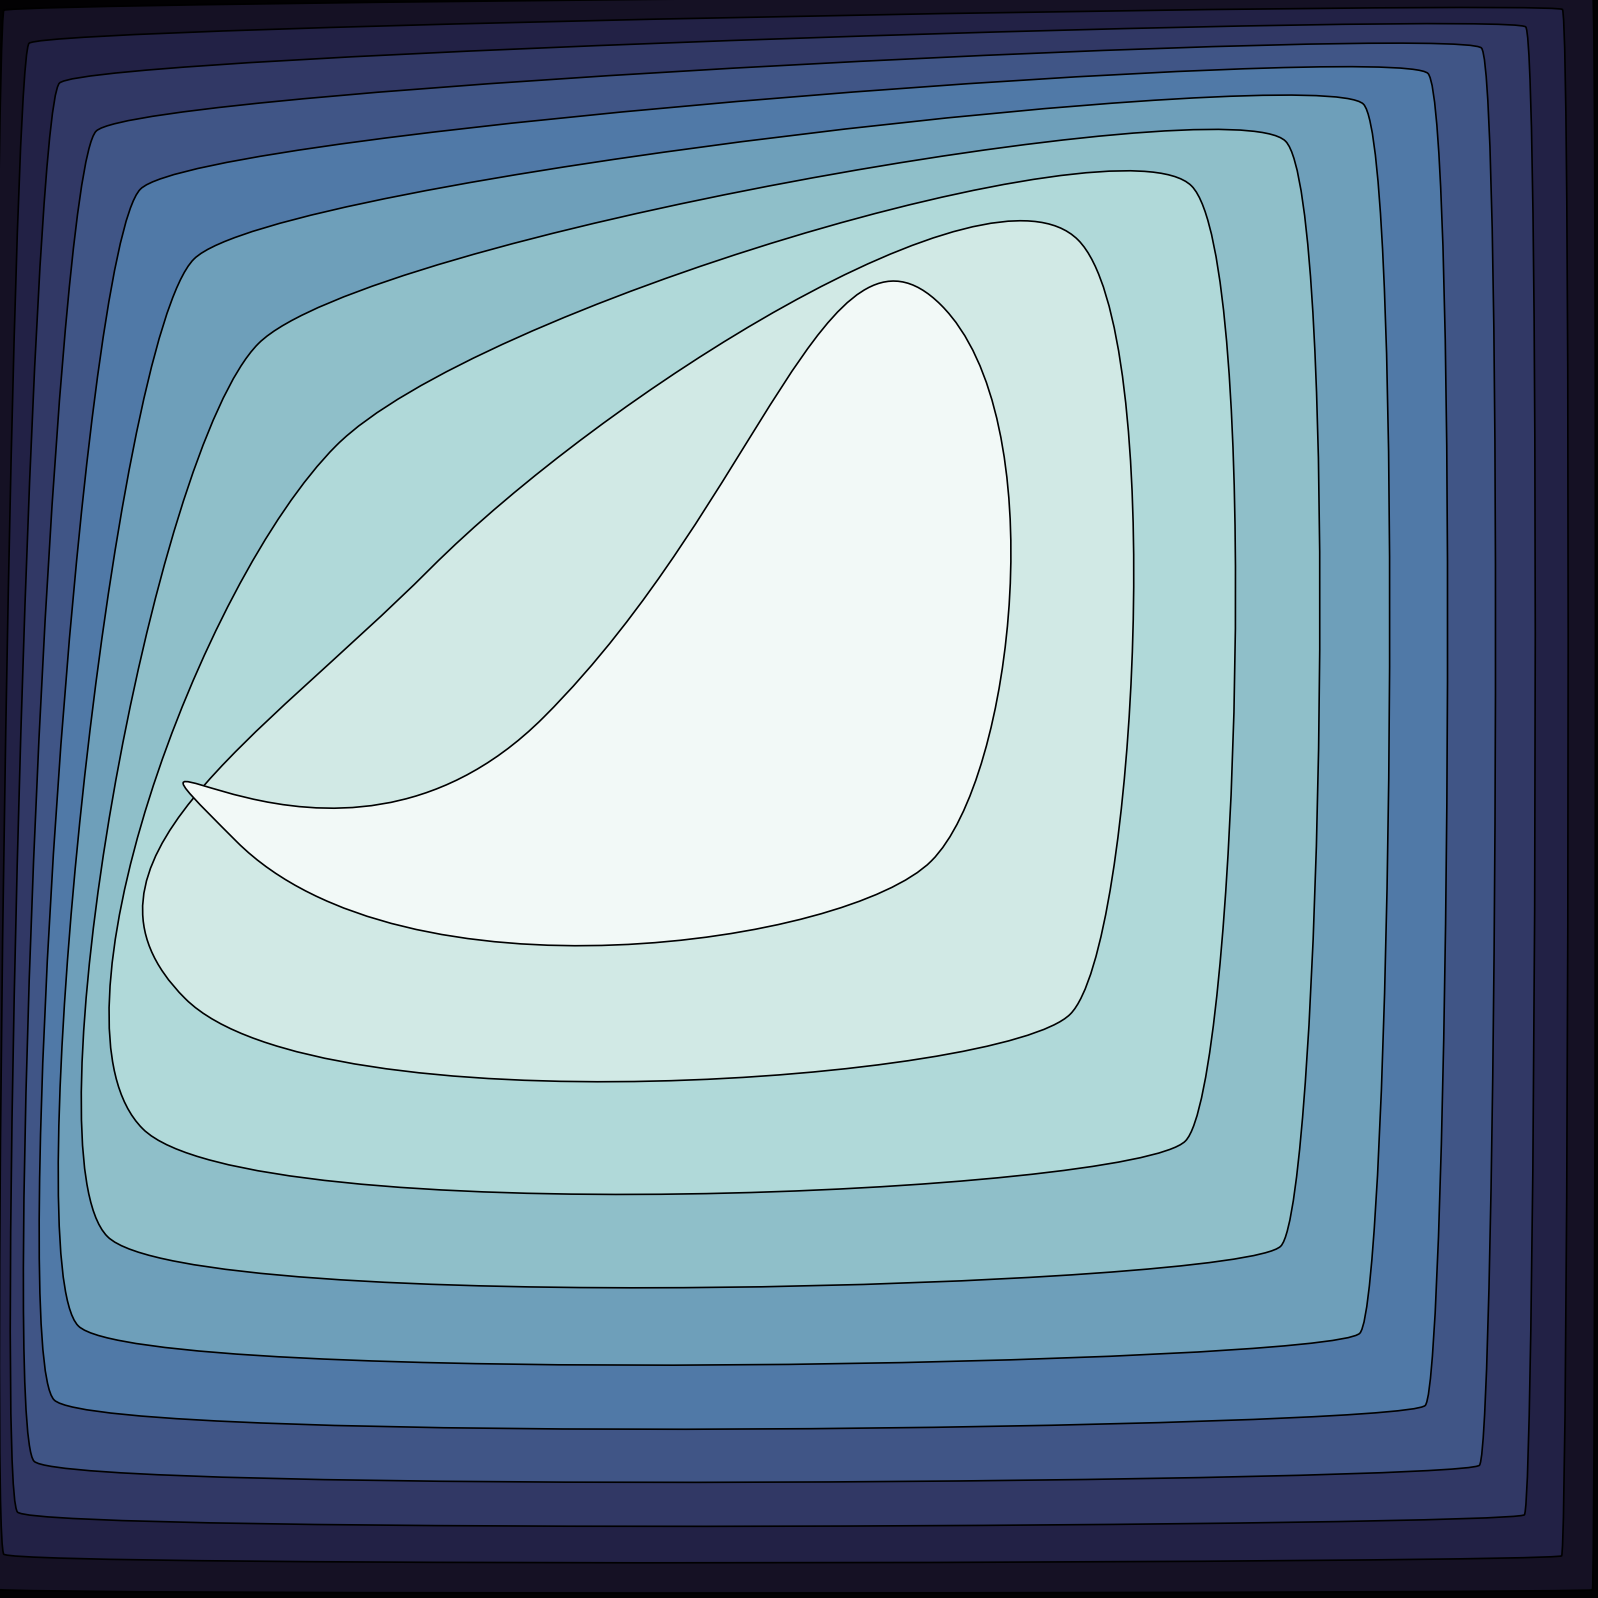

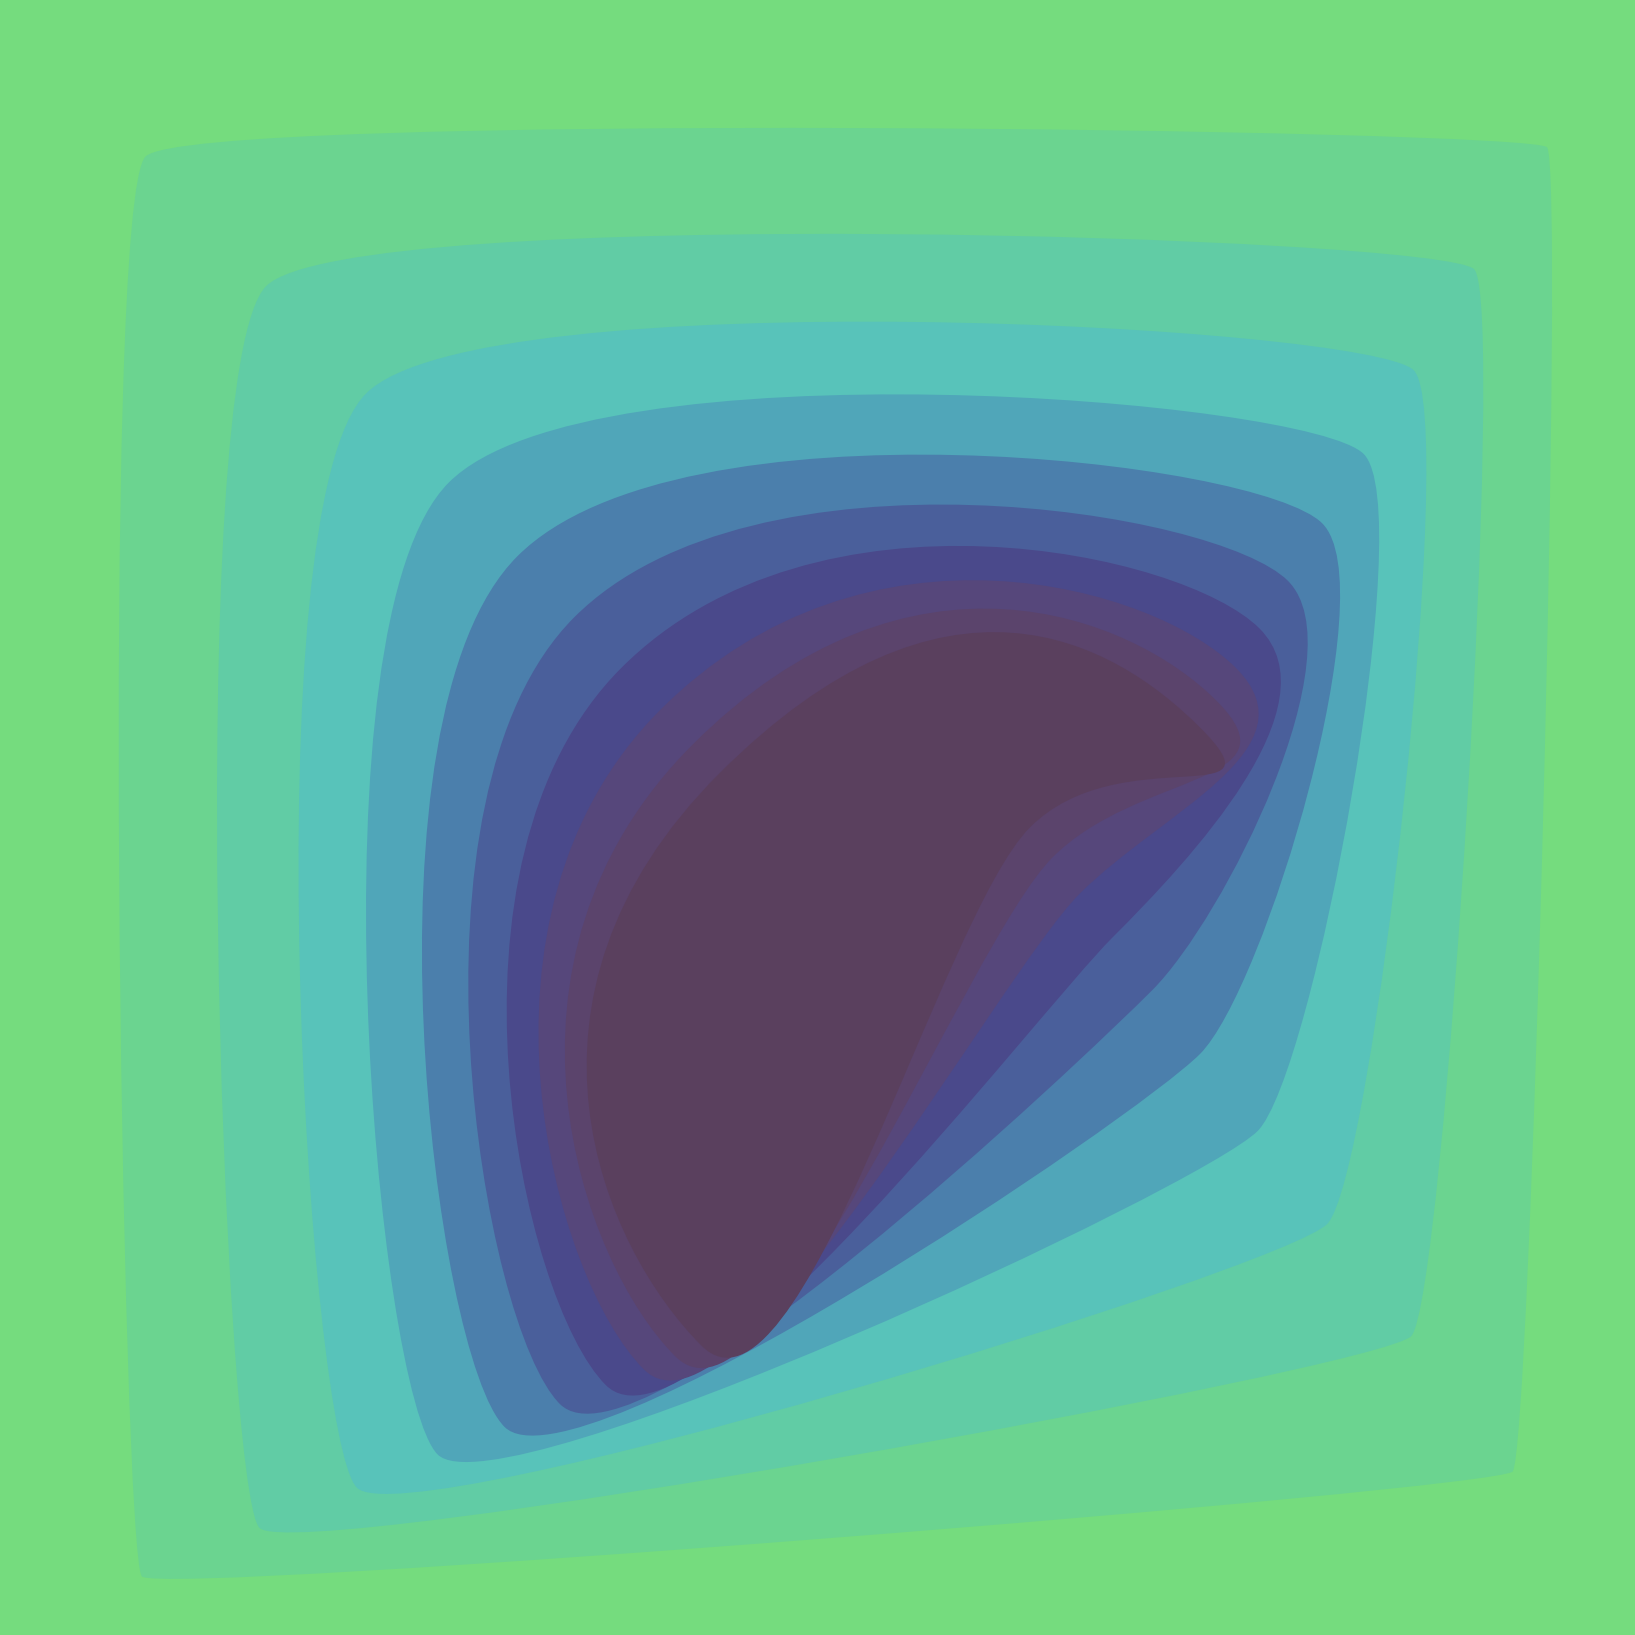

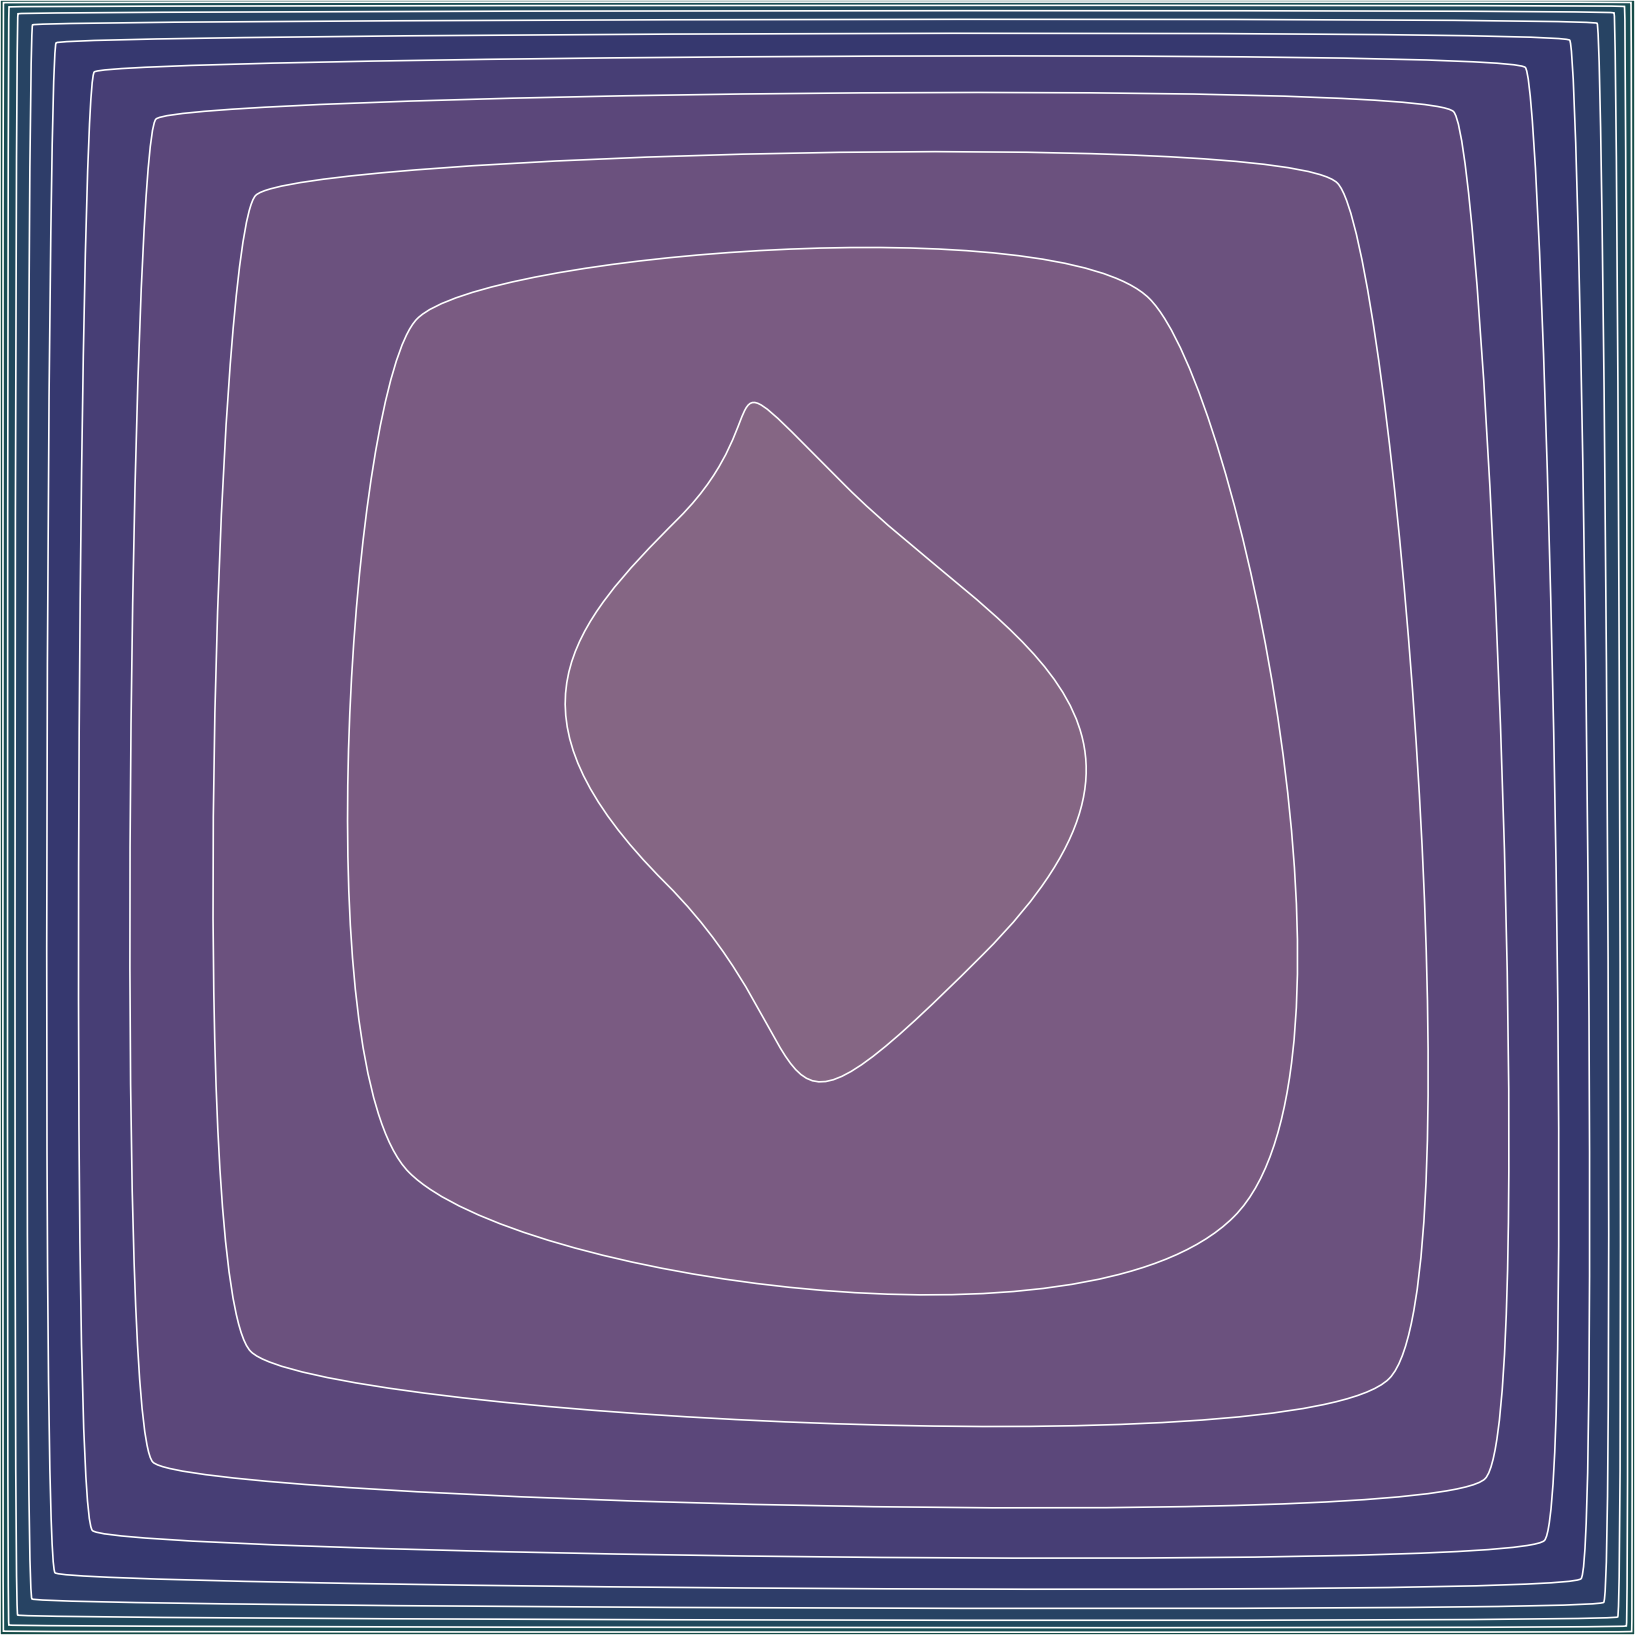

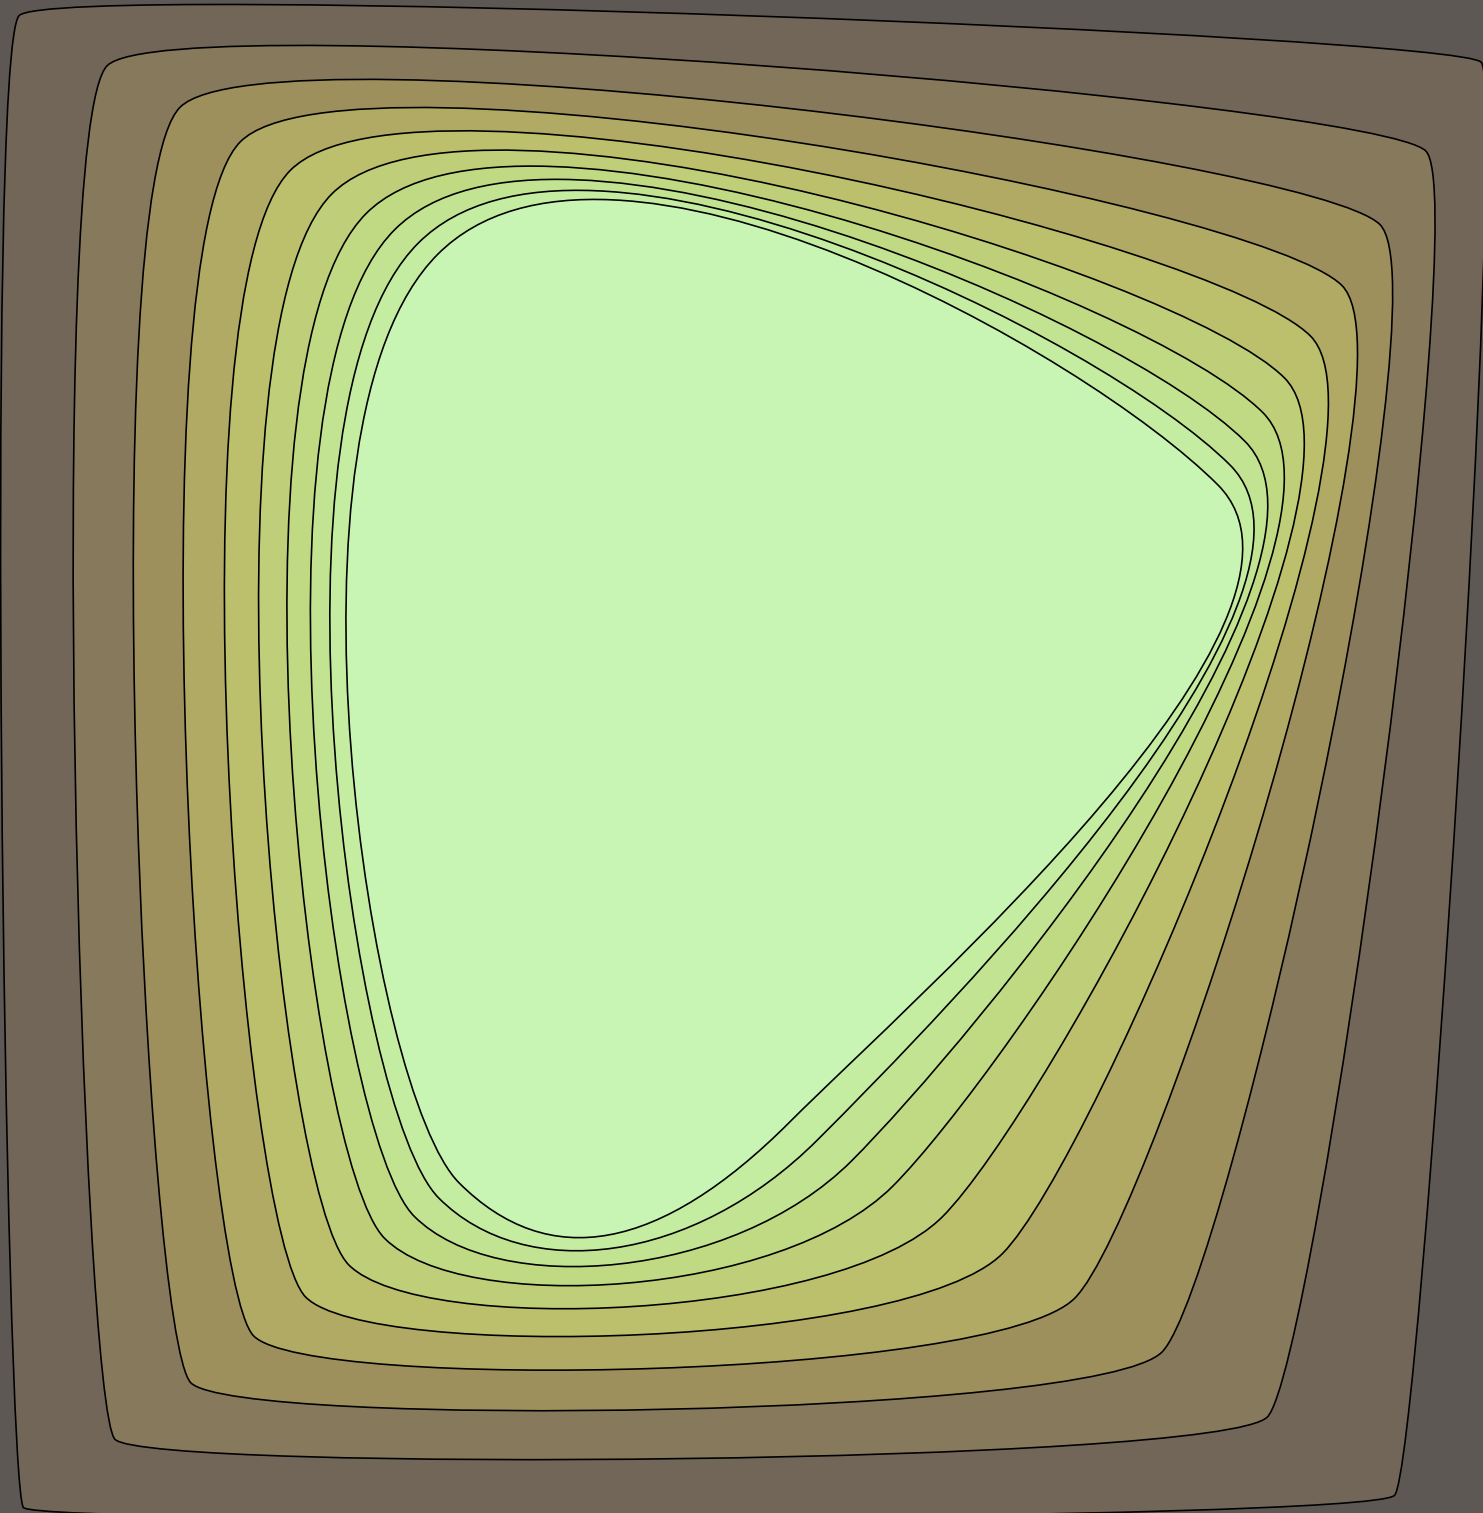

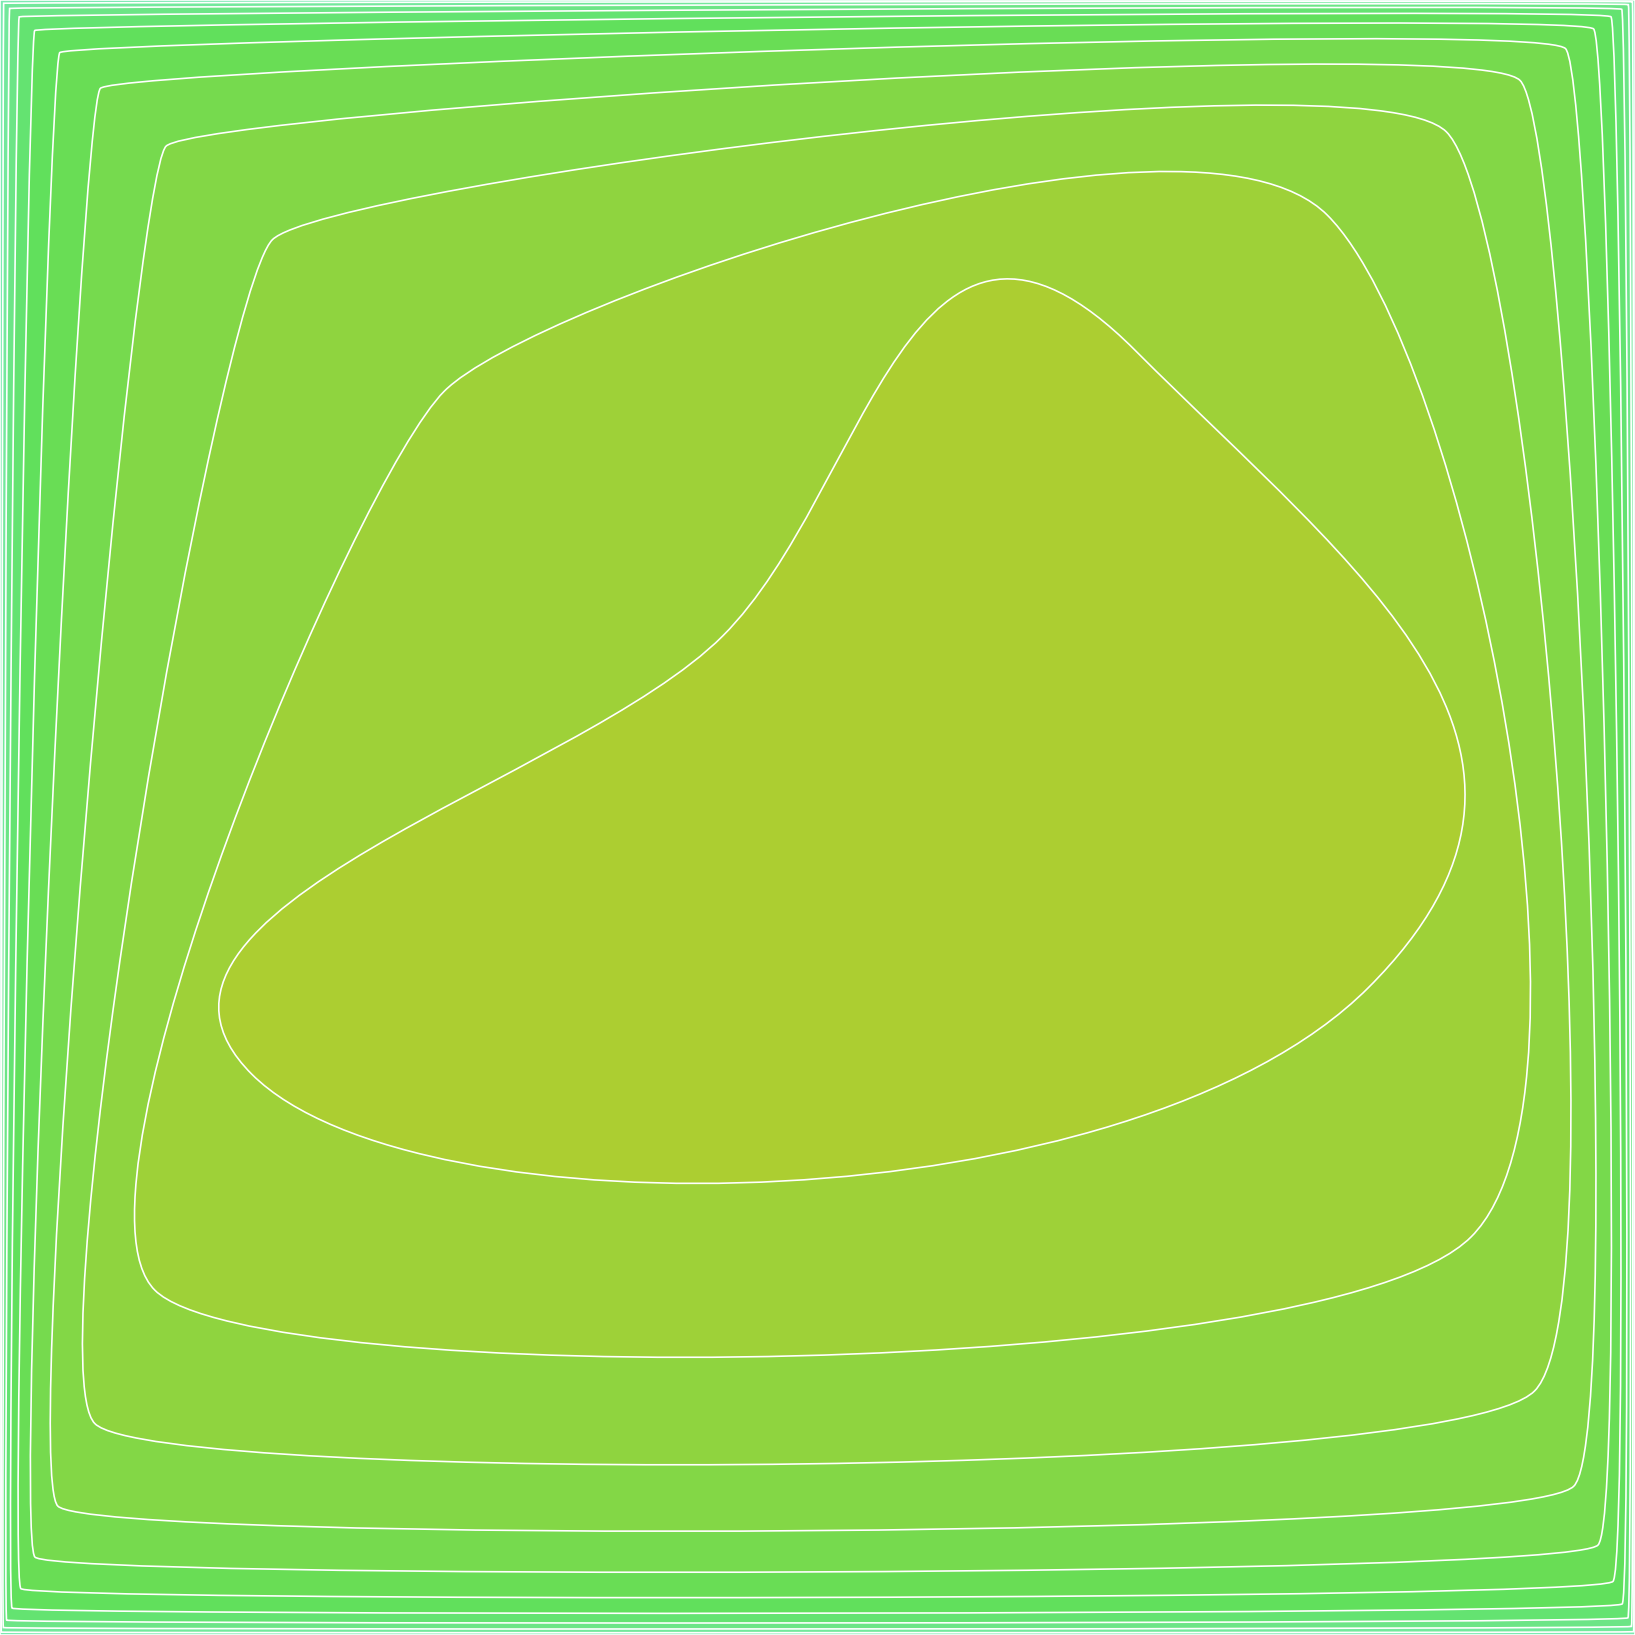

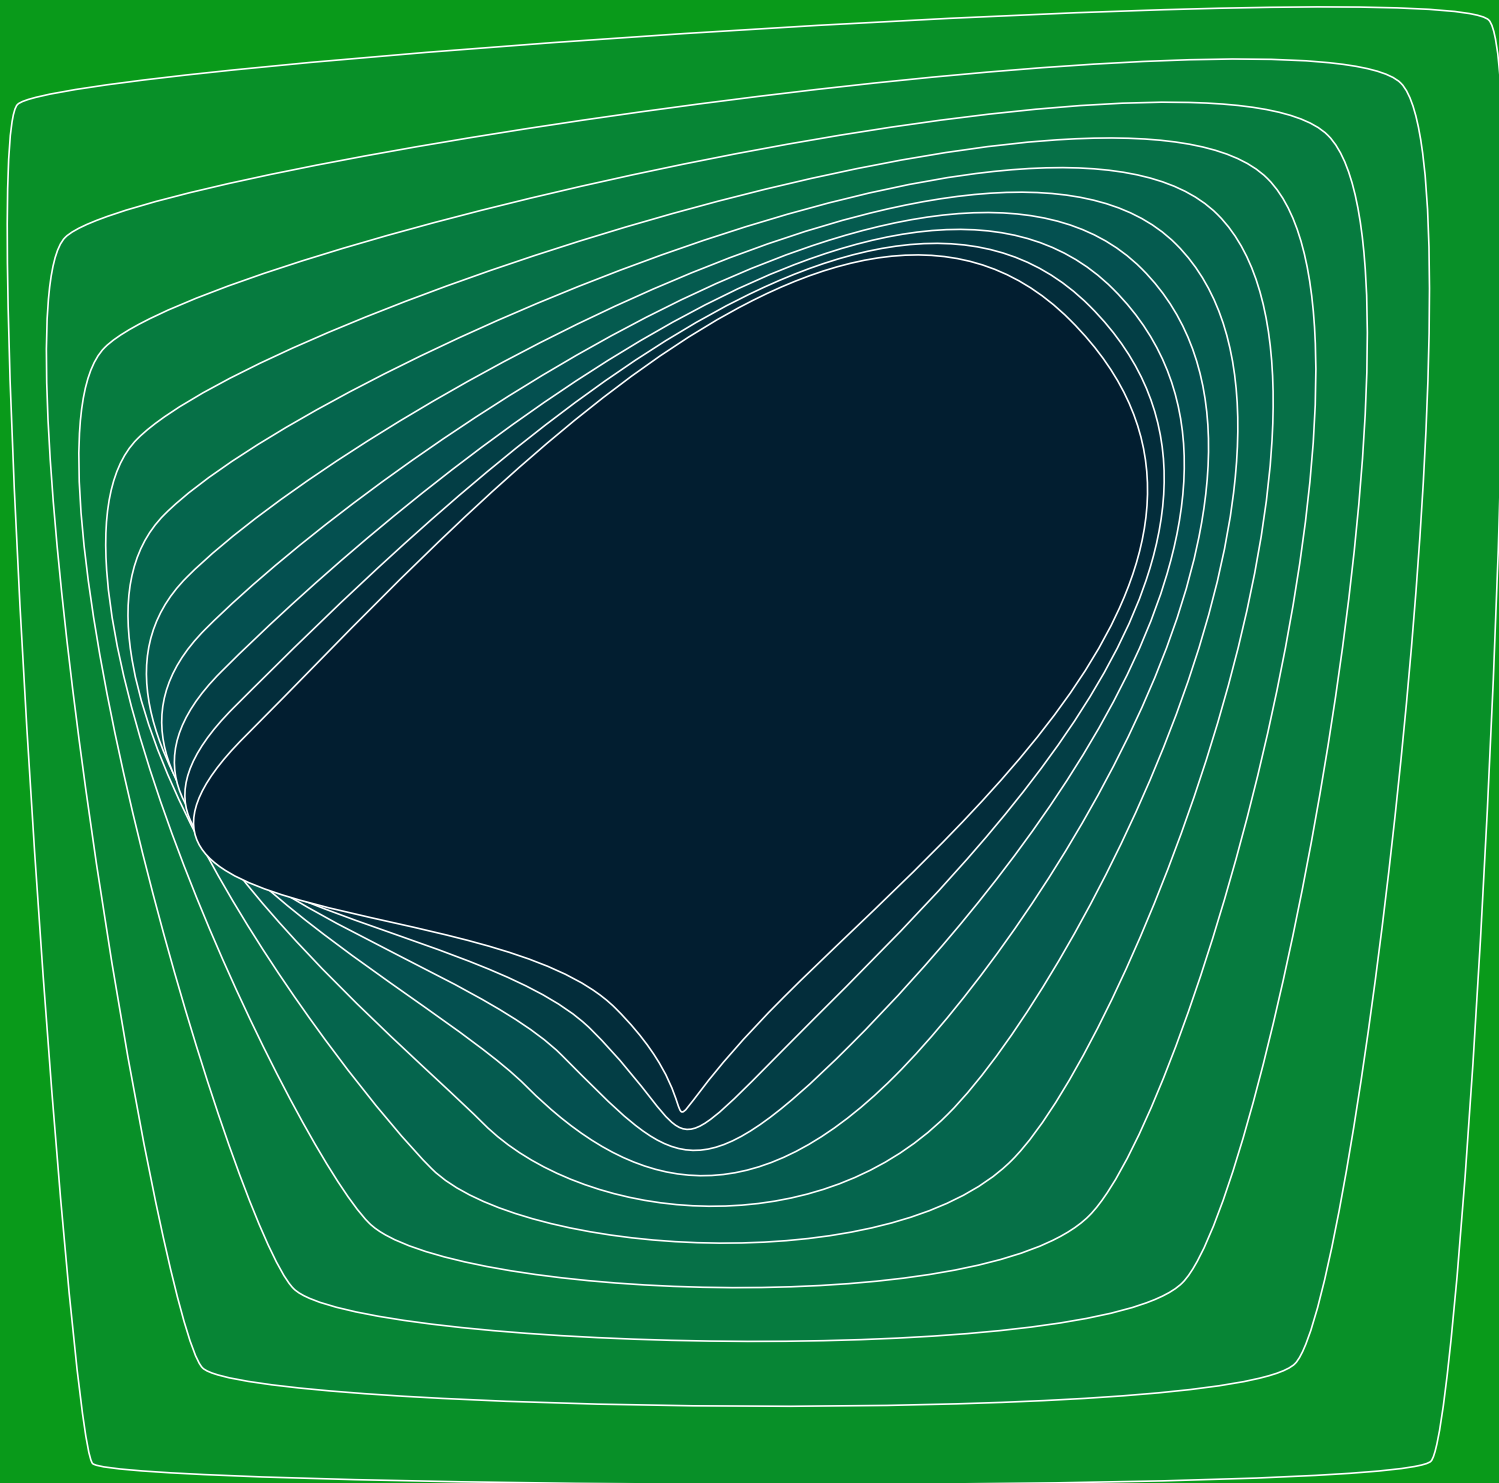

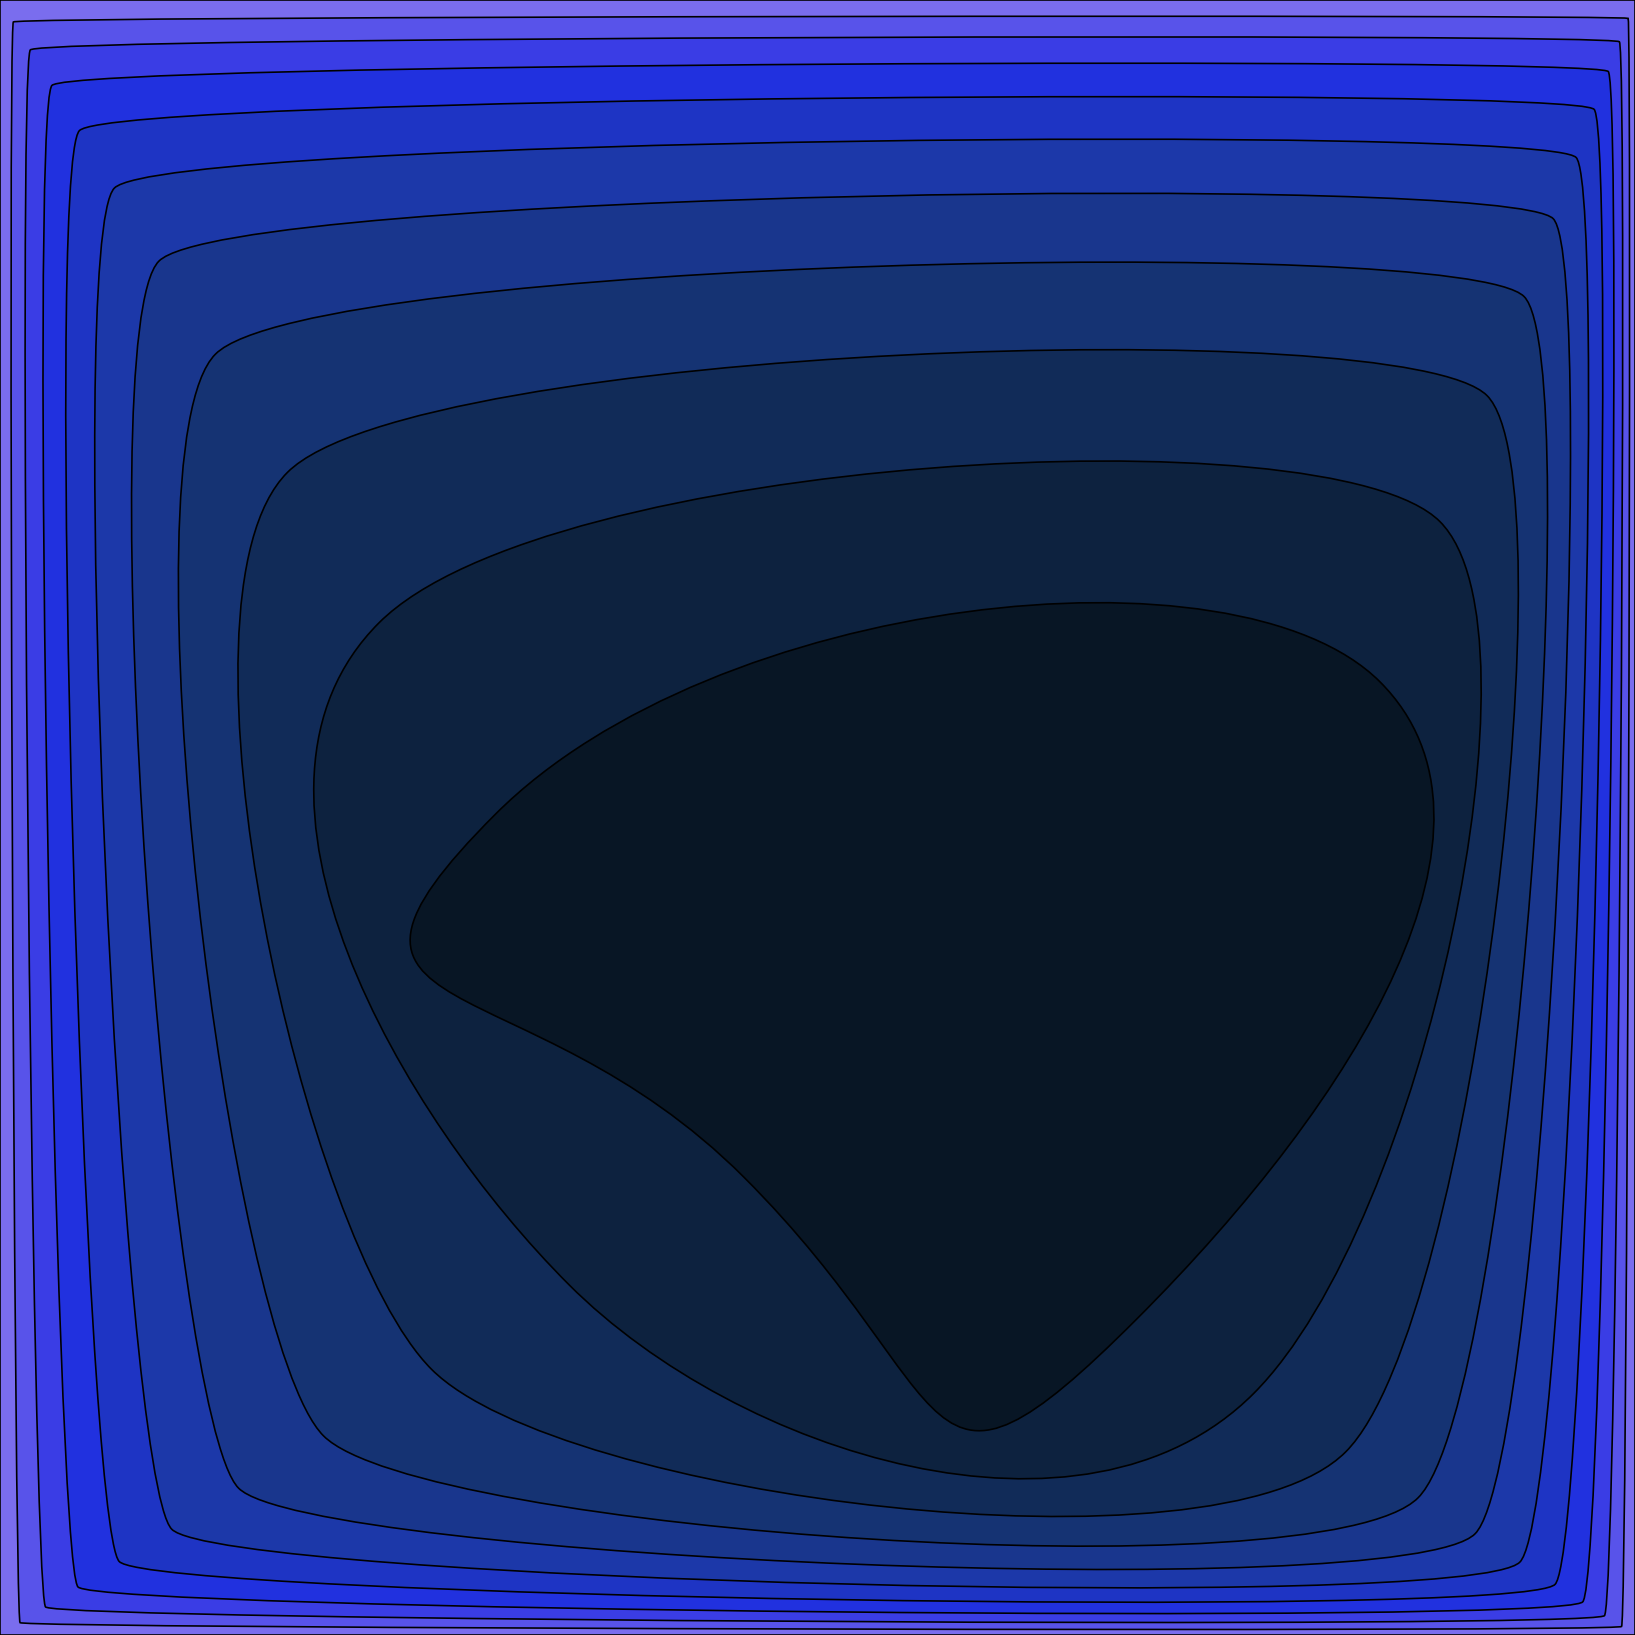

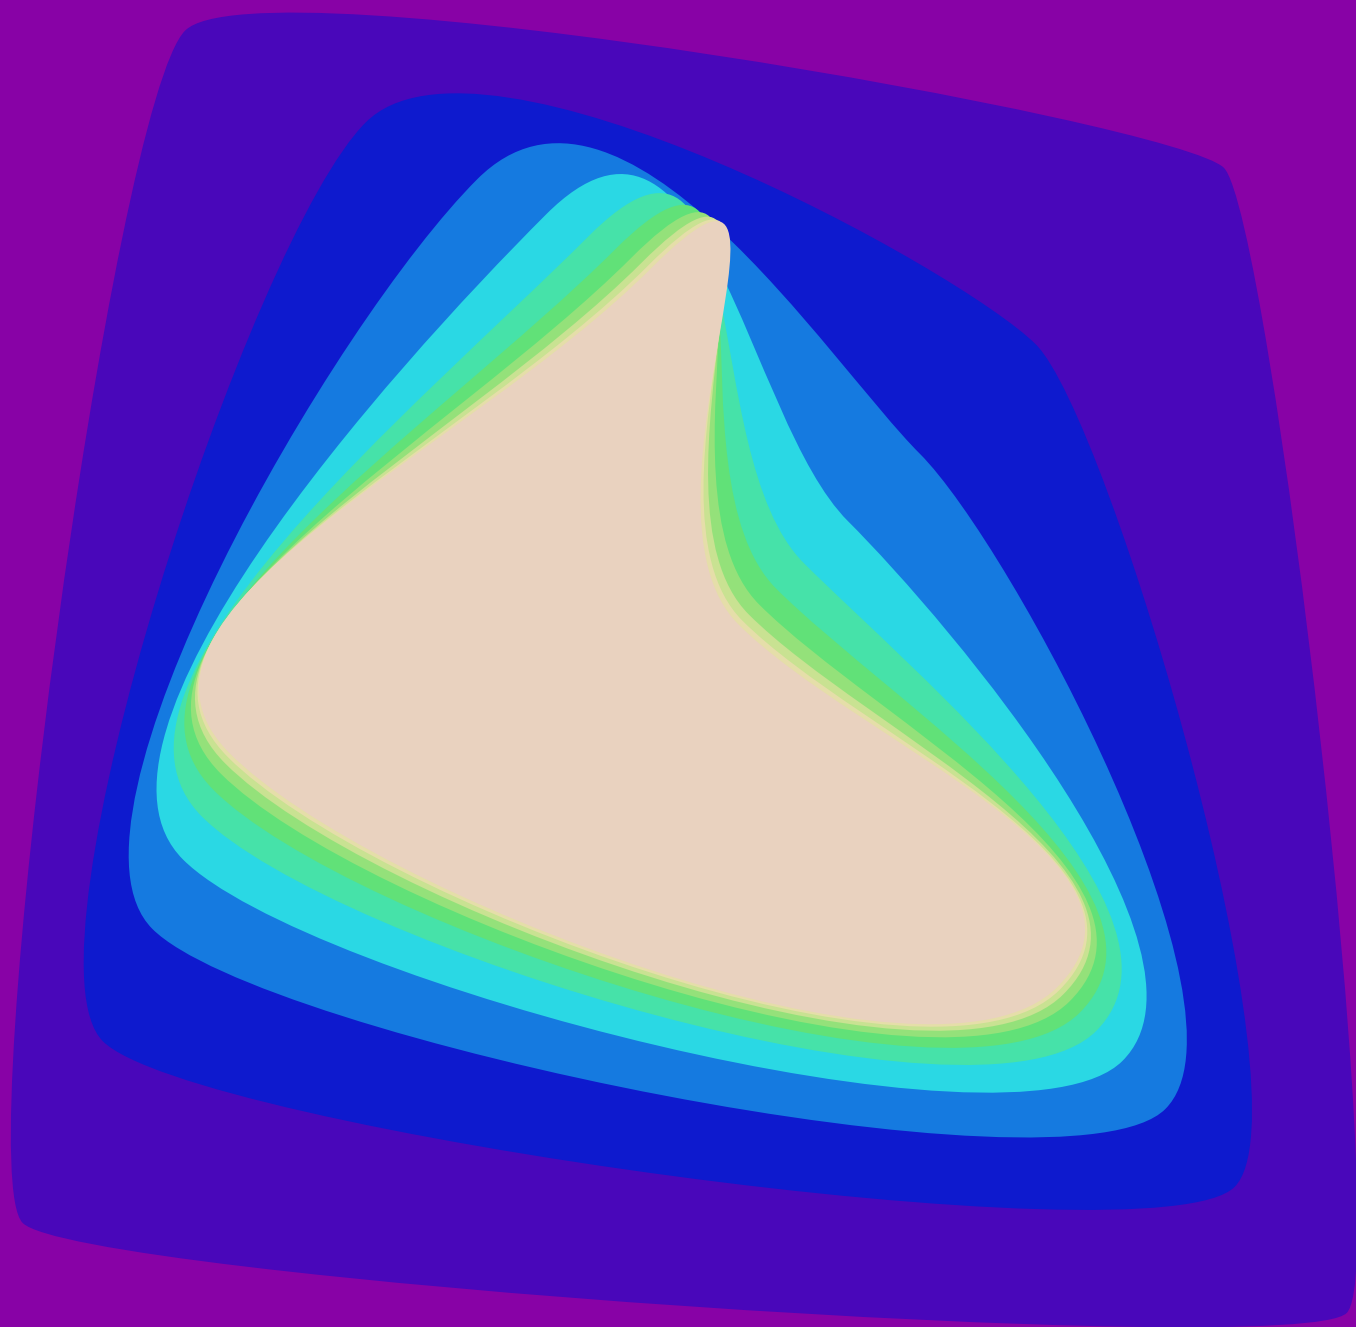

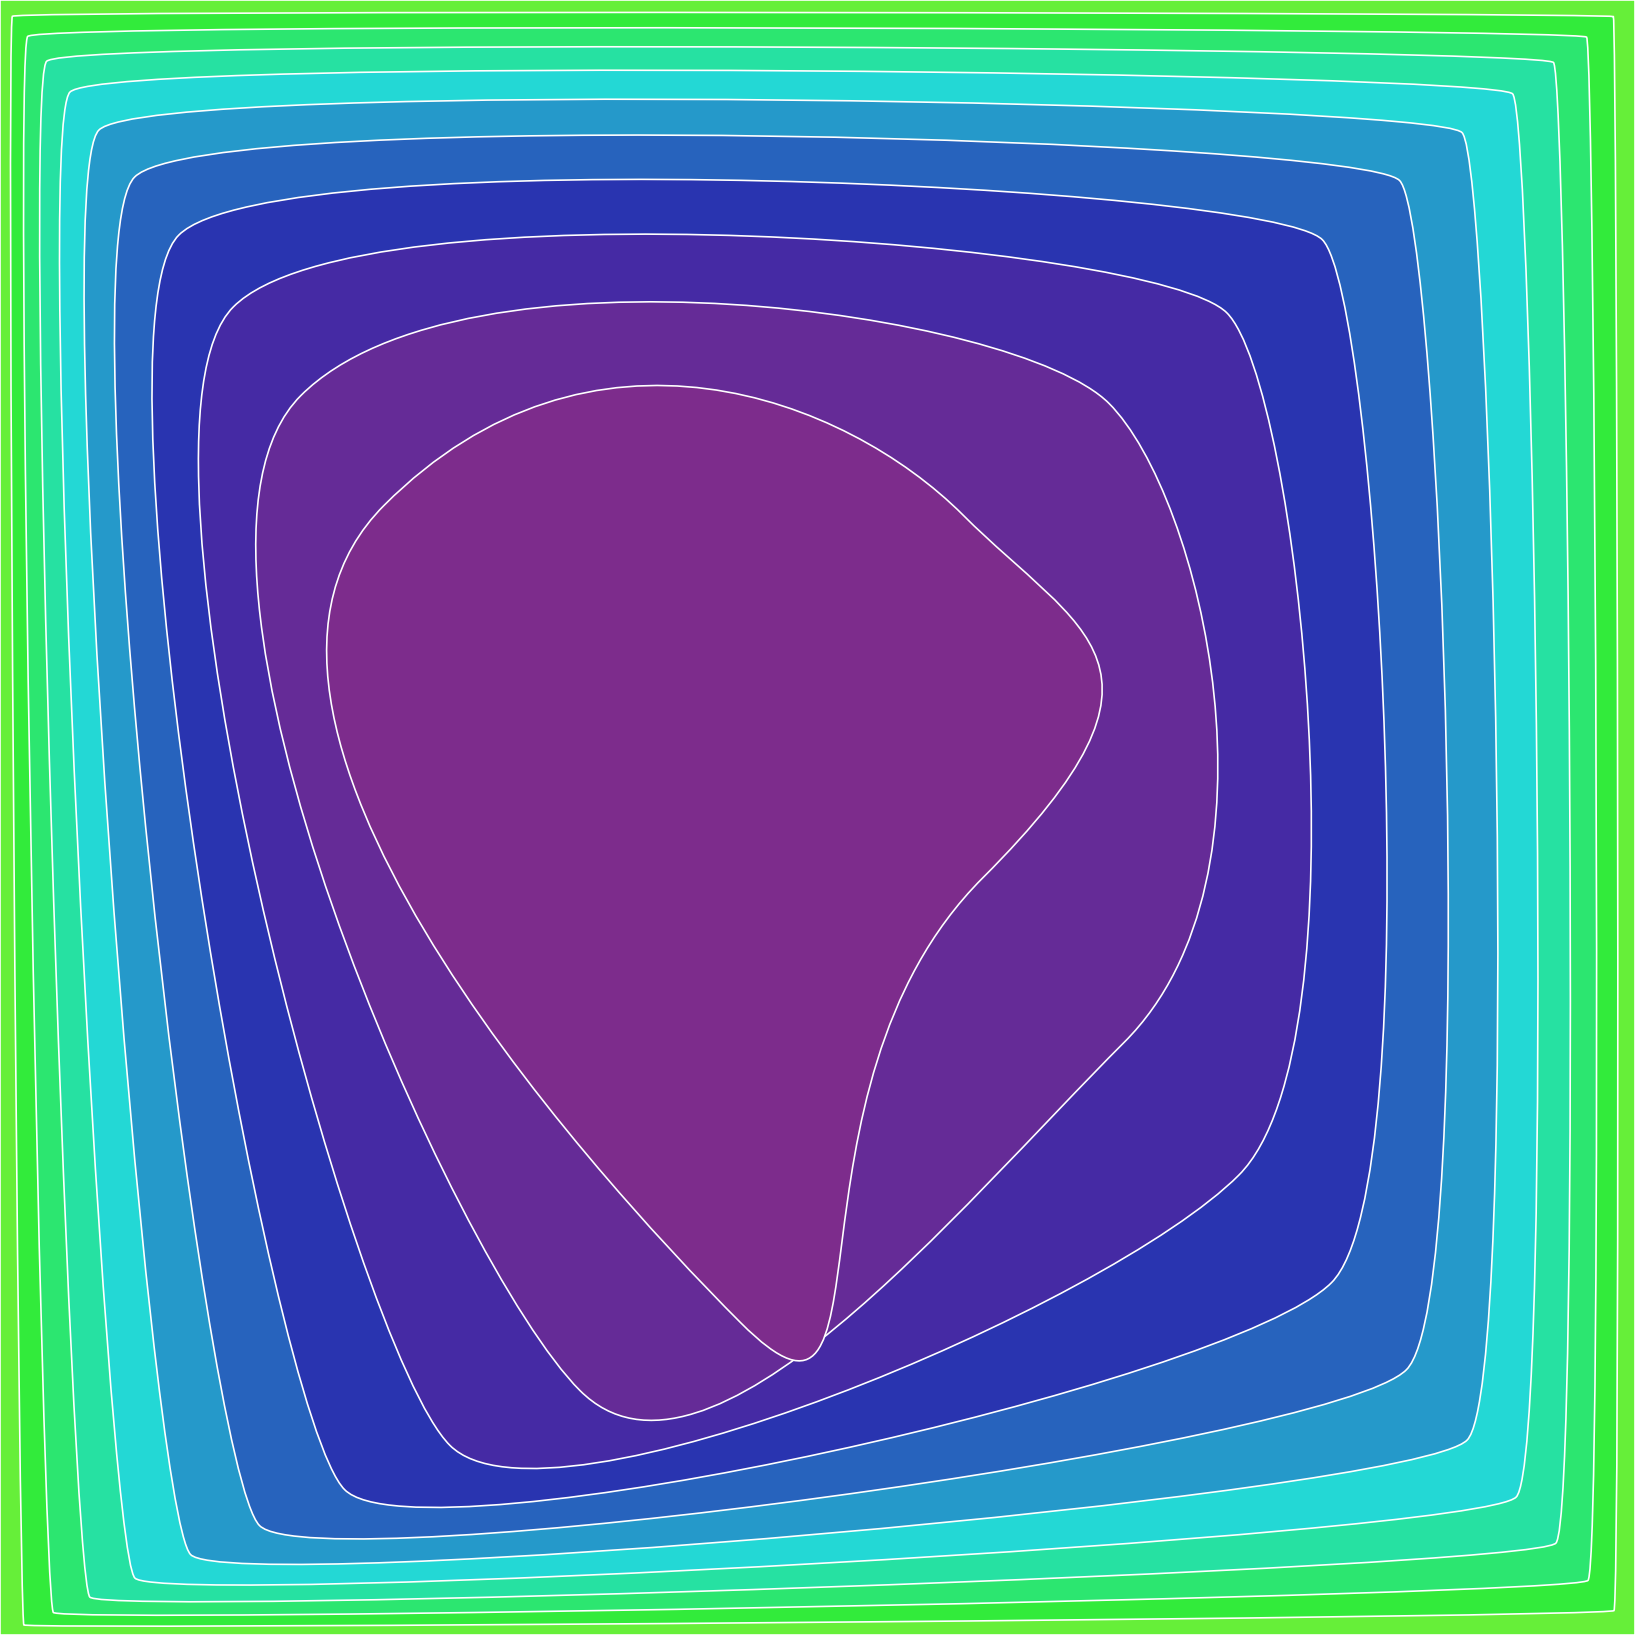

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
